Native Game Birds in Danger.
Our native species of quail, pheas-
ant and wild turkey are fast coming
to a point where, if not protected by
stringent laws, they will become ex-
tinct. It is true that imported birds
can be brought in from time to time,
but it is also true that there is noth-
ing quite so sweet to the ear of the
seasoned quaffer as the plaintive
"bob-white" call of the quail of Pen-
sylvania or the one and only "wild"
of the native pheasant as it takes
wing.

Coach Steihm Very Ill

Rochester, Minn., June 16.—(Spec-
ial to the Daily Democrat)—An offi-
cial statement given out at the Mayo
hospital this afternoon that E. O.
Steihm, football coach at Indiana Uni-
versity is "getting along as well as
can be expected."

Steihm has been dangerously ill
with stomach trouble and his con-

that his wife was called here from
her home in Bloomington Ind.

Bride Sees Husband Burn

(United Press Service)
Chicago, June 16.—(Special to Daily
Democrat)—Norman Rue, 27, was
burned to death, and Mrs. Florence
Nora Rue, his bride of five weeks,
was injured when their automobile
was crushed between two Chicago av-
enue street cars last night. The gaso-
line tank of the auto exploded and
Mrs. Rue looked on helplessly as her
husband perished. Passengers on the
cars were thrown into a panic.

Mrs. Charles Teeple and father,
Mr. Fordyce, went to Rome City to
open the Fordyce cottage for the
summer.

Man And Woman Murdered

(United Press Service)
St. Louis, Mo., June 16.—(Special
to Daily Democrat)—The bullet rid-
dled bodies of Seid Allaway, 30, pro-
prietary of a confectionery store, and
his wife, were found in their rooms
above the store early this morning by
police. Authorities believe the double
murder was the work of a maniac.
Hammie Shane, 25, Allaway's cousin,
and a roomer at his home, was ar-
rested in connection with the shoot-
ings.

When police arrived at the house
they said they found McShane in a
dark room adjoining that occupied
by Allaway and his wife. They said
his clothing was stained with blood
and a warm pistol was found in the
clothes closet of the room. On further
search of the closet authorities
said they found two discharged car-
tridges which showed evidence of hav-
ing been recently fired.

USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching Eczema
Helped Over Night.

For unsightly skin eruptions, rash
or blotches on face, neck, arms or
body, you do not have to wait for re-
lief from torture or embarrassment,
declares a noted skin specialist. Apply
a little Rowles Menthio-Sulphur and
improvement shows next day.

Because of its germ destroying prop-
erties, nothing has ever been found
to take the place of this sulphur pre-
paration. The moment you apply it
healing begins. Only those who have
had unsightly skin troubles can know
the delight this Rowles Menthio-Sul-
phur brings. Even fiery, itching ecze-
ma is dried right up.
Get a small jar from any good
druggist and use it like cold cream.

MARKETS-STOCKS

Daily Report of Local and Foreign Markets

New York Stock Exchange
New York, June 16.—A rising ten-
dency was in evidence in the stock
market at the opening today in the
general belief that the higher class
of rails and industrials will soon be
in the way of piling up good profits.
The announcement of the failure
of one of the most active houses in
the field of oil securities afforded an
explanation for part of the recent
selling of stocks of this class and
relieved the apprehension prevailing
in the speculative community that
something was hanging over the
market.

Stocks showed a decidedly better
tone when the news of the collapse
was made public. California Pete,
American Can, Studebaker and other
industrial leaders scored fair recov-
eries while the rails continued to
display a confident front.

The D. Y. B. Class of the United
Brethren Church was entertained by
Mr. and Mrs. J. A. Swartz last eve-
ning at their home on North Second
Street, with forty-five in attendance.
Mrs. Annie Simmers, vice president,
presided at the meeting. After the
business session a splendid program
was given, which was prepared by
Rev. Dotson and Mrs. Swartz. The
first number was some new items,
which were edited by Rev. Dotson,
and which were about the class and
proved to be very entertaining. Mrs.
Marie Hower gave a splendid reading
"St. Peter At The Gate." A bean
contest was held in which the class
was divided into two sections with
each having a captain. When the
beans were found the one side barked
like a dog until their captain went
after them and the other side crowed
like a roosters. Roy Mumma and
Clarence Stogdill won in the three
legged race, in nine seconds, while
Mrs. Noble and Mrs. Hower won the
ladies side in ten seconds. Dainty
refreshments of strawberries and
cake were served.

in the Sorority colors of black and
white and cut bowers. Tambourine
and horns were given as favors dur-
ing one of the dances. Out-of-town
guests were Mr. and Mrs. Jess Helm
and Mr. and Mrs. Edward Wilson, of
Fort Wayne. Mrs. Wilson and Mrs.
Helm are charter members of the
local chapter. Roger Swain and Fred
Humphrey, of Bluffton, were also out-
of-town guests.

The Delta Theta Tau sorority will
meet Monday evening with Miss
Mildred Niblick. The meeting will
be called at 7:30 o'clock instead of
8 o'clock, the regular time and all
members are requested to be present.

while the Reds won 3 to 0.

The Dodgers tied the score after
two were out in the ninth and then
won over the Cubs in the eleventh
inning 9 to 7.

Stone Quarries Hide Many Stolen Articles

There is every reason to believe
that abandoned stone quarries and
gravel pits, especially those close to
highways, around Portland, Berne,
Geneva, Decatur, Bluffton, Montpelier,
Hartford City, and other places hav-
ing these abandoned quarries or pits
nearby are the resting places of many
an automobile, motorcycle, and other
articles of value in the machinery line.

Stolen automobiles or motorcycles
can not always be sold readily, and
sometimes the thief is closely pur-
sued and he must dispose of the stolen
machine as quickly as possible, or
be caught with it in his possession.
In this case it is an easy matter to
drive the machine into one of these
abandoned pits of quarries, many of
which are close to highways and
have no fences around them. As the
waters in them are very deep the
stolen automobile finds a resting place
far beneath the surface of the water,
and the crime is securely hid. There
is no doubt but what in some case,
were these automobiles raised to the
surface there would be found the
whitened skeleton of some one foully
murdered, perhaps an accessory in
some crime, and whose body was se-
curely attached to the machine before
being run into the watery depths.
Time with its natural decay, aided by
fish, will have eaten away all clothing
and flesh.

It is thought that the gang of auto-
mobile thieves known to have been
operating throughout this section of
the country, have gotten away with
many a stolen car in this manner.
Many of these stolen cars were re-
painted and sold. But these thieves
were mostly youths and they did not
always find opportunities to hide
away the stolen machine until such
time as it could be re-painted, new
license plates attached, and distin-
guishing marks, and numbers obliterated,
and then sell the auto. In
this case, the easiest way to dispose
of the stolen property was to run it
into some quarry.

A story is told of one case where
a motorcycle was deliberately run

into a quarry by the owner. This
owner, garage man at Geneva, had
at one time possessed an Indian mo-
torcycle, in fair shape. He traded it,
later taking it back on another trade.
He disposed of it again in a trade
and again he got it back in a trade.
Time after time this same thing hap-
pened. He became tired of seeing
the thing or hearing about it. It seem-
ed that this motorcycle just could not
be traded to any one who would take
it out of the country, and the owners
of it never had an accident serious
enough to totally disable it, so it
could be junked. Finally, in desper-
ation, the garage man, having again
acquired the motorcycle, ran it into
an abandoned quarry, where it now
lies beneath thirty feet of water. He
hopes to see it again.

Dodge Brothers TOURING CAR

If there is one word which will sum up the
average owner's impression of Dodge
Brothers Touring Car, that word is
dependable.

If there is a word to express the quality
which Dodge Brothers have striven, above
all else, to build into the Touring Car, it is
—again—*dependable*.

Indeed, it is not too much to say that the
word *dependable* has come to be definitely
associated, the nation over, with Dodge
Brothers Touring Car—and the other
vehicles bearing their name.

Nor have Dodge Brothers built this enviable
reputation through advertising. They have
built motor cars, so dependable *in fact*
that the word has presented itself auto-
matically to the public mind.
