

Big-Six
5-Passenger Coupe \$2550
1924 Model

**1924 Models Are the Finest
Big-Sixes Studebaker Ever Built**

The enthusiasm with which the new 1924 model Studebaker cars have been received locally is an indication of the reception they have enjoyed throughout the country.

No wonder. They are emphatically the most compelling values Studebaker ever offered and the public knows that Studebaker has been a consistent leader, year after year, in the amount of intrinsic value per dollar invested.

The Big-Six Sedan and the Coupe are the finest cars that have ever borne the name Studebaker. They provide all the performance, all the comfort, and all the dependability that any car will give—at a price that smaller producers cannot approach.

Everything for which one can wish in motoring convenience, comfort and utility has been provided—even to the extra disc wheel with tire, tube and tire cover (two on Sedan); handsome nickel-plated bumpers, front and rear; large, roomy trunk; automatic gasoline signal, and many other features. There is nothing more to buy.

The prices of the Sedan and Coupe are moderate because of Studebaker's large production, vast physical and financial resources, the manufacture of all vital parts in Studebaker plants, and the accumulation of experience and prestige gained through 71 years of building quality vehicles.

**Well, Well, so you
are John Smith's
boy, hey?**

Boys grow so fast these days that it keeps us busy keeping tab on our old customers' sons.

Last Wednesday a strapping young man whom we thought was just a little shaver yet came in for a long pants suit—and here it was only yesterday that his Mother had to keep her eye on him here in the store.

The store that is going to do business today must grow too—yesterday's laurels and last season's styles are not wanted.

You'll find what you want here, Boys, because we are remaining as fresh and new as to-night's Democrat.
