

A WEATHER PROPHET

United Press Staff Correspondent
Boniface, Mich., Aug. 22—Only a lake full of cedar logs; but the people of this city will bet their last cent on it as an accurate barometer of the weather.

During the last fifteen years, as far back to the time when cedar logs were first dumped into Bass lake, along whose shores Boniface is located, this barometer has never been known to fail, citizens say.

Bass Lake has for many years had millions of feet of cedar logs floating in it. These logs were cut by the Boniface Lumber company and dumped into the lake until the sawmill was ready for them. The water keeps them from rotting.

Ordinarily this great mass of logs lies along the edge of the lake forming a belt about 50 to 85 feet wide. Always within about fourteen hours of a rain the logs will start to act queerly. Single logs will break away from the mass around the shores and drift slowly out into the middle of the lake.

What causes these logs to do this, or what causes the whole number along the shore to loosen up from the usual compact mass, no one has been able to explain. It is not a current in the water, for the lake is too small to have currents. It is not the wind that causes these logs to break away—they do it when there is not a breath of air stirring.

If at evening they look out over the lake and see the cedar logs all floating close inshore they know that the

morning will be clear. If the surface of the lake is dotted with single logs they are certain it is going to rain.

MONROE TWP. TEACHERS

Trustee Mattax Has Made Selection Of Instructors For Year

Judging by the instructors which Mr. Mattax has chosen, the schools of that township will this year be well taken care of. The teachers are nearly all experienced in the teaching profession and have made fine records. Most of these teachers have taught in this township during past years.

The schools in Monroe township will open Monday, September 10th, the same date that the schools of the other townships open. Mr. Mattax has practically finished the necessary arrangements for the opening of the schools. He hopes to give his patrons the best schools possible.

The teachers for the rural schools are as follows:

- Dist. 1.—Miss Fanchion Daugherty.
- Dist. 2.—Miss Electa Oliver.
- Dist. 3.—Don Essex.
- Dist. 4.—Miss Gertrude Sprunger.
- Dist. 5.—Sylvester Everhart.
- Dist. 6.—Miss Lucille Heffner.
- Dist. 7.—Miss Lavina Christener.
- Miss Cora Habegger.
- Dist. 8.—Dale Braun.
- Miss Helen Gilliom.

Dist. 9.—Ray Duff.

The Monroe schools will again be under the direction of Clyde Hendricks as principal. Two new teachers will be added to the high school faculty. H. L. Greider, who formerly taught in the Monroe high schools will again return as an instructor in the high school. Miss Lavon Wales of Knights-town Indiana, will be a teacher in the Monroe high school, who has not taught here before. Howard Michaud is the fourth instructor. The respective subjects, which these teachers will teach, have not yet been definitely assigned.

The grade teachers in the Monroe schools will be:

- Upper grades—Mrs. Mary McCullough.
- Intermediate grades—Harve Haggard.

IMPORTED FRUITS

Quarantine Placed On All Fruits And Vegetables Imported

Washington, Aug. 23—As a step toward keeping certain injurious fruit and melon flies out of the United States, the Federal Horticultural Board, United States Department of Agriculture, has placed a quarantine on all fruits and vegetables offered for import, except from Canada, on and after November 1. No new prohibitions are placed on commodities from Mexico. These insects are known to be serious crop pests in various parts of the world, and as yet have not made their way into the United States where it is thought they would cause damage to our fruits and vegetables.

Under special permit shipment of certain fruits and vegetables may be brought into the country at the discretion of the board. Application for permits must be made to the Federal Horticultural Board at Washington, D. C. Full information concerning the intended shipment must be given in the application.

Action was taken by the department following a hearing some months ago at which all interests concerned were present. Restrictions on bringing in fruits and vegetables from outside countries were considered necessary for the protection of American crops. Copies of the regulations will be available in a few weeks and may be had upon application to the Federal Horticultural Board, United States Department of Agriculture, Washington, D. C.
