LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and No-body Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair not naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Mr. Krimmel, the piano tuner of Fort Wayne, is here for a few days. Parties wishing piano tuned can leave word at the Murray Hotel, phone 57.

CLUB CALENDAR

Friday
Presbyterian Ladies' Aid Society—Mrs. Fred Smith.

St. Marys Township Economic Club—Pleasant Mills High School, 1:30.
Epworth League Social of the M. E. church, Kenneth Miller, 7:30.

Ladies Aid of the M. E. church, church parlors, 2:30 p.m.

Baptist W. W. G. Girls, Lois Ogg.

Saturday
Woman's Foreign Missionary Society of M. E. Church, Pastry sale at Central grocery and Porter grocery.

Monday
Research club, Mrs. C. D. Lewton.

Tuesday
Corinthian Class of the Christian Church—Miss Grace Lichtensteiger.
Psi Iota Xi, Mrs. F. I. Patterson, 7:30 o'clock.

The Historical club held a very enjoyable meeting at the home of Mrs. Mary Ahr, East Monroe street, Wednesday afternoon. There was a large attendance of the members. Mrs. Ira Fuhrman, of North Second street, was taken in as a new member. Mrs. Fred Ahr had a very interesting paper on, "The Use and Abuse of Ornaments." The hostess served a delicious lunch. The next meeting will be held with Mrs. Fred Ahr, with Mrs. Paul Edwards as leader.

Mrs. C. C. Pumphrey, Mrs. Dore Erwin and Mrs. James L. Kocher gave a lovely dinner bridge party last evening at the Kocher home on Adams street. A profusion of garden flowers were arranged in baskets and wall pockets in the spacious living rooms. The small tables held low bowls of pink and white cosmos and asters as centerpieces and the dainty nut cups and place cards were of a harmonizing nature. The Misses Helen Kocher, Josephine Suttles, Eleanor Pumphrey, Betty Erwin and Gretchen Kocher served the four course dinner. Mrs. Crawford and Mrs. C. S. Niblick were awarded prizes in five hundred and Mrs. Fred Patterson, Mrs. Herman Ehlinger and Mrs. L. G. Ellingham, won prizes in bridge. Out-of-town guests were Mrs. R. D. George, of Montpelier; Mrs. L. G. Ellingham, of Fort Wayne; Miss Mildred Pumphrey, of Delaware, Ohio; Mrs. Crawford, of Los Angeles, Cal.; and Miss Catharine Shatz, of Danville, Illinois.

Mrs. and Mrs. Alva Nichols entertained at dinner yesterday for Mr. and Mrs. Lewis Miller, and children of Huntington; Mr. Claude Gay and Mrs. Roese.

The Baptist W. W. G. Girls will meet Friday evening with Miss Lois Ogg, at her home on the corner of Fifth and Adams streets.

DIVORCE CASE ENDS ABRUPTLY THIS A. M.

(Continued from Page One)
for a divorce and alimony on September 8. She demanded alimony in the sum of \$10,000.

Judge Bales Appointed.
Following the filing of the new complaint, Judge Jesse C. Sutton, presiding judge, declined jurisdiction in the case, as he had been of counsel for the defendant prior to his appointment as judge. The court appointed Judge Bales of Winchester, to sit as special judge in the case. Judge Bales assumed jurisdiction. Attorneys Aiken, Douglass & Aiken appeared for the defendant.

Cannot Be Tried Now.
The new case cannot be tried during the present term of court, since an act passed by the last legislature provides that a divorce case must be on file at least sixty days after the summons is issued before it can be tried.

Must Pay Allowance.
This afternoon, the defendant filed an application for a temporary allowance for her support and for her attorney fees. The plaintiff filed a counter showing an answer. The court granted the application and ordered the plaintiff to pay the sum of \$10 per week for the support of the defendant during the pendency of the cause until further order of the court. The court also directed the plaintiff to pay the sum of \$50 for the defendant's attorney fees.

To Be Tried On Nov. 27.
After granting the application for an allowance the court set the case for trial on November 27.

BIRTH

An eight-pound girl was born to Mr. and Mrs. Charles Hammond at

ment. is building with both hands and progress," Lloyd George said.

Brazil Block

We have it, the only GOOD COAL mined in Indiana for domestic trade, which sells for \$1.50 to \$2.00 higher than any other Indiana coal, as well as being much HARDER and CLEANER.

This mine is owned by a Steel Corporation whose surplus output we market to the retail, and steam trade in this state. We have a car now in stock at our yards on 7th street. It is very LARGE and BLOCKY.

Try a load and be convinced.

\$6.00 per Ton, Delivered.

\$5.50 per Ton Loaded in Your Wagon.

How to tell for sure —what oil your car needs

No. 6 in the series

Perhaps you own a Studebaker

(Big Six—Special Six—Light Six Models)

If you don't own a Studebaker, cut this out and hand it to a friend who does

Studebaker engines are of the six-cylinder, four-stroke, cycle, vertical type. The cylinder head is detachable and the valve arrangement is of the L-head type.

Studebaker pistons are equipped with a special oil-return groove and oil drain holes which allow excess quantities of oil on the cylinder walls to drain back into the crank-case reservoir.

The Studebaker lubricating system is of the splash circulating type, employing a gear type oil pump located on the outside of the crank-case and considerably above the oil level.

The lubrication of the cylinder walls, the pistons, piston rings, and piston pin bearings depends upon an oil mist. This mist is created by splashes fitted on the lower side of the connecting rod bearings dipping into oil in troughs located under each cylinder bore.

A suitable lubricant for these engines must be of such body and character as to meet the operating temperature and distribution requirements.

Gargoyle Mobiloil "A" will provide adequate engine lubrication and thorough distribution during summer; its use is therefore recommended.

Because of the well-finished cylinder bores, close-fitting pistons and the adequate drainage of these pistons, Gargoyle Mobiloil "A" will not form objectionable carbon deposits and a thorough and efficient sealing of the piston rings will be assured.

Under winter operation, it is imperative that the oil used be of the proper fluidity to provide a positive priming of the elevated oil pump. Otherwise, failure of the pump to deliver oil to the engine will result.

Gargoyle Mobiloil Arctic is of the proper body to assure positive priming of the Studebaker pump under winter operation. Because of its character and fluidity, it will atomize readily and thoroughly, thus providing proper distribution to all engine parts, even when freezing temperatures are experienced.

Gargoyle Mobiloil "A" and Gargoyle Mobiloil Arctic respectively are best suited to the summer and winter lubrication requirements of these engines. Their use will insure maximum engine performance with a minimum of wear and depreciation.

next tuesday
we will tell you about the
Correct lubrication of several
cars. You may be among
them. Watch for it.
