CLEAN KIDNEYS BY DRINKING LOTS OF WATER

Take Salts to Flush Kidneys if Bladder Bothers or Back Hurts

Eating too much rich food may produce kidney trouble in some form, says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders. Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders. By all means have your physician examine your kidneys at least twice a year.

A TALK WITH A DECATUR MAN

Mr. C. Cook, Retired Farmer, of 716 N. 5th street, Tells of an interesting Experience.

There is nothing like a talk with one of our own citizens for giving hope and encouragement to the anxious sufferer from the dread kidney disease. We therefore, give here an interview with a Decatur man: "I have used Doan's Kidney Pills for attacks of kidney complaint," says Mr. Cook. "My kidneys were in such a condition that I had trouble with my back if I over-worked. My back was so lame and stiff I could hardly bend. My kidneys acted irregularly, too. I used Doan's Kidney Pills from the Holthouse Drug Co. and they were just what I needed. They gave me prompt relief from the aches and pains and put my kidneys in good shape."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Cook had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

BOY SCOUT CITIZENSHIP IDEALS WIN APPROVAL

The public recognition by General John J. Pershing of the fact that there is no element of military training in the Boy Scout Program, and liberate omission of military training of scouts drew this editorial comment from The Christian Science Monitor in its issue of Monday, July 16, 1923:

"That General Pershing, in his recent address at Bear Mountain, N. Y., to the National Council of the Boy Scouts of America, should have expressed opposition to the introduction of military training in the government may be to some quite a surprise. To those who see the importance of turning the young thought away from war and its false glamour, however, it is a most welcome one. His argument is really unanswerable, though it is simplicity itself: 'You are teaching boys to be good citizens, and any man who is a good citizen will make a good soldier in time of peril.'"

Not Veneer

"I HAVE yet to find a Standard Oil service station attendant who fails to reflect the ideals of service set forth in Standard Oil Company (Indiana) advertising."

Such was the comment of an observant man who had been expressing his opinion of service in industry.

It is but a composite of the general feeling among patrons of the Standard Oil Company (Indiana).

The spirit of service is highly developed in every employe of the Standard Oil Company (Indiana), whether he wears overalls or occupies a place on the directorate.

Every man and woman of the 27,000 employes making up the personnel of this Company is obsessed with but one ambition—to do his or her part in making the Company greater in size and in service.

Such a condition cannot prevail under the lash. If it is to endure the desire to serve must be inherent in the individual.

It is a natural development that follows fair dealing, camaraderie, pleasant working conditions, just treatment, skillful management—in short, intensive organization modernized to the last degree.

That the employe in overalls should reflect the Company's ideals of service is the result of highly intensified organization.

It is eloquent of the spirit prevailing throughout the organization—of the complete understanding of purpose, between the executives and those who are on the firing line making the last turn in the great cycle of Standard Oil service.

Where complete understanding exists there are no obstacles too difficult to overcome.

Complete understanding between the management and the employe has made the Standard Oil Company (Indiana) big in size and big in service.

Complete understanding between the Company and the thirty million people of the Middle West has caused the list of shareholders in the Standard Oil Company (Indiana) to increase in four years' time from 4,600 to 42,706—not one of whom owns as much as 6% of the total.
