"The One I Love
Belongs to Some-
body Else"

You remember "Swinging Down the Lane." Well! here's another, even better—"The One I Love Belongs to Somebody Else." Like its forerunner it is Isham Jones' own composition and is played as only Jones and his College Inn Orchestra can play a fox trot—To hear it is to dance.

This record is another evidence of Brunswick's pre-eminence in the realm of popular dance music. It is only one of the surprises which await you at our record counter. New Brunswick records are coming in daily; there is always something new.

The MacDonald cabinet met today and after its conference recognition

of Russia was announced in a foreign office communiqué.
Before and since his accession to the office of prime minister Ramsay MacDonald had consistently stood for early recognition by Great Britain of the present regime in Moscow. Action had been postponed for a time however due to the wish of the newly established labor government here not to appear hasty.

The Kingdom of Heaven is at Hand-- --Millions Now Living Will Never Die

In a free public lecture by Mr. Wayne C. Brooks, of Fort Wayne, Ind., at the Crystal Theater on Sunday, February 3, at 2:30 P. M., it will be conclusively proven

by many Bible prophecies which have been fulfilled during recent years that the Kingdom of Christ will soon be fully established in the earth.

The divine law is inexorable and every inspired revelation of the divine purpose respecting the affairs of the old world, over which Jehovah, for a special purpose tolerated Satan to rule, has been fulfilled exactly on time, and the time for the second presence of Christ, and the binding of Satan is at hand.

The purpose of this lecture is to furnish every inquirer positive Biblical proof that we will within the next few years enter the long hoped for period when everlasting life upon the earth will be the blessed portion of the human race, and when families will be reunited to live happily on earth ever after.
