

I Offer Girls

My aids to beauty, and to woman youth
By Edna Wallace Hopper

I had a rich, ambitious mother. She searched the world with me to find the supreme beauty helps.

They made me a famous beauty. And now, after 40 years in the limelight, they keep me a beauty still.

Other girls, in these same ways, can multiply their beauty. Other women can, to old age, keep their youthful bloom. I want to help them do so. The very helps that France gave me are now at your command.

I am very—very busy on the stage. But I am taking time to tell you the secrets of my beauty and my youth. And I hope the time will come when girls and women by the millions will enjoy what I enjoy.

32 Helps In Four
I found 32 things that women need to keep them at their best. French experts combined them in four applications. Thus beauty and perennial youth were made very easy for me.

One is my White Youth Clay. Not like the crude and muddy clays so many use today. This clay is white, refined and dainty. Twenty years of scientific study have made it amazingly efficient.

I use White Youth Clay to purify my skin of all that clogs or mars it. It gives me that rosy, baby-like complexion. Blackheads or pimples, oiliness or blemishes are unknown to me. It firms the skin, combats all lines and wrinkles, keeps the face skin ever like a girl's.

One application of my White Youth Clay brings almost unbelievable results. Many women seem to drop ten years. Continued use does marvels as it did or me. No girl or woman

who once tries this clay will never go without it. The price is 50 cents and \$1.

Two Matchless Creams
My Youth Cream is a cold cream, based on lemon and strawberry. It is made to embody all the best that science knows to whiten, feed, protect and smooth the skin. I use it after the clay. It is also my night cream, to apply on retiring. Day-times I use it as a powder base. No one ever found a cold cream to compare with my Youth Cream.

My Facial Youth is a liquid cleanser. It contains no animal, no vegetable fat. It cannot assimilate in any way with the skin. But it penetrates the skin to the depths. When I wipe it off, all that clogs the skin comes with it. No other method cleans a skin like this.

Luxuriant Hair
My hair is thick and lustrous. It grows finer every year. I have never had falling hair or dandruff, never a touch of gray.

This is due to my Hair Youth, another French creation. I apply it daily with an eye dropper, directly to the scalp. It takes but a moment and it does not muss the hair. I can do no greater kindness than to urge you to employ it. It costs 50 cents and \$1.

All druggists and toilet counters supply these products which I use. The price is small. Every girl or woman, if she will, can have the benefits I got. Go find them out. My beauty book comes with each. Edna Wallace Hopper, 536 Lake Shore Drive, Chicago.

IS CANDIDATE FOR J. P. OFFICE

J. L. Chronister, Of St. Marys Township, Seeks Re-election

There will be at least one election of a Justice of the Peace this year. J. L. Chronister, present Justice of the Peace at Robo, filing his candidacy as a republican candidate for the nomination as such officer in St. Marys township.

Mr. Chronister, is the first man to file as a candidate for the Justice of Peace. There are several such officers in the county, the majority of them being appointed by the county commissioners to serve indefinitely on until a successor was elected. Unless the present officials have opposition, it will not be necessary to elect a successor this year, it was stated.

Saturday, April 5th is the last day on which local candidates can file their declarations with county clerk. District and judicial candidates must also file with the secretary of State on or before that date.

Several committeemen in the thirty-four voting precincts in the county.

Van Wert Needs More Fighting Equipment

Van Wert, Ohio, March 31.—The necessity for additional fire-fighting equipment in the Van Wert fire department was brought before the judiciary committee of the city council by Fire Chief L. D. Johnson.

Chief Johnson stated that it would be impossible for his men to fight two fires at the same time because of the lack of equipment and that even with the present truck, something may go wrong with it to cause it to fail in an emergency.

The truck is almost nine years old and has never failed in any fire. However, it may meet with some accident while making a run and so allow the building in danger to entirely burn before hoses may be obtained to make the run.

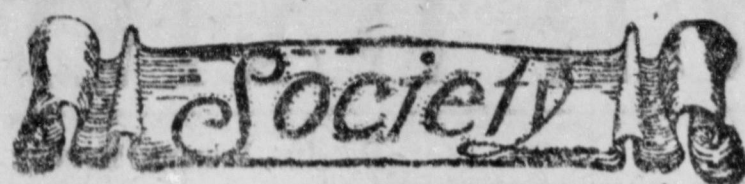

Need Pumper
"A 750-gallon triple combination pumper would afford adequate protection until additional machinery can be procured in future years," Chief Johnson said.

Parrot, 41 Years Old, Dies At Portland

Portland, March 31.—The parrot belonging to the Bonge and McDorman families at Montpelier for a many years, died Tuesday morning. It was forty-one years of age. Mr. and Mrs. W. W. Bonge, deceased, secured it when a very young bird, while residing in New Mexico, forty-one years ago. It was a favorite pet in their home, until the death of Mrs. Bonge, after which it was taken into the home of her brother, H. A. McDorman, where it proved a delightful feathery companion. It was quite talkative. Last week it became ill, its death being due to its advanced age. It is thought. The bird has been sent to Ft. Wayne, where it will be mounted and returned here.

Something More!

After meals you want something more—a bit of sweet with a change of flavor. WRIGLEY'S is that "something more" and it's more than that! It is a great aid to your good health, as medical authorities say.

This is from a recent book on health:

"Many physicians now recommend gum chewing . . . for a better and more complete change of the starches into dextrin."

WRIGLEY'S after every meal

—means that your digestion is aided while your pleasure is served; teeth and digestion both benefit.

Your choice of several flavors, all of the WRIGLEY quality—sealed in its purity package.

The Tail Wags the Dog

THE MOTORIST buys gasoline at frequent intervals and pays cash for it, because the unit of purchase is small.

For this reason the price of gasoline is ever-present in his mind.

But, in fairness, the price of gasoline should be considered in relation to other fixed charges incident to the operation of his automobile.

Petroleum Age, in its issue of February 1, 1924, states that "reliable figures obtained in the study of the operation cost of automobiles in oil field service between July, 1922, and July, 1923, shows that the average cost per mile for cars ranging in price from \$400.00 to \$1,400.00 each was 10c. During that period approximately 22c per gallon was paid for gasoline."

Computing the average mileage at 15 miles per gallon it is shown that out of a mileage cost of 10c gasoline represented less than 1½c. In other words the 1½c wags the 8½c, and the 1½c covers the hazard of drilling and bringing the crude oil above ground—its transportation to the refinery—storage—refining—maintenance of the refineries—transporting of gasoline—bulk storage depots—delivery system, including tank wagons and service stations—cost of labor—and a fair and reasonable profit.

If the Standard Oil Company (Indiana) and others engaged in the petroleum industry had not expended millions in experiment and research, which has resulted in taking from crude petroleum scores of other products, the present low price of gasoline could not be maintained. The Standard Oil Company (Indiana), because of its advanced work in refining petroleum, has been able to recover these other products without in any way affecting the quality of the gasoline.

In this way the operations of the Standard Oil Company (Indiana) accrue to the advantage of the consumer in keeping the price of gasoline down to a point where the man of modest means can enjoy the pleasures of motoring without bearing a burdensome charge for fuel to propel his car.

Gasoline, in relation to the service it renders, is one of the cheapest commodities yet discovered.
