

## INDUSTRIAL ASSOCIATION ADOPTS A FARM PROGRAM

### AGRICULTURAL CLUBS PLANNED

#### Extensive Plan For Boost- ing Agriculture Outlined At Meeting

Encourage the young men and women of today, so that they are the leaders of tomorrow.

The members of the Decatur Industrial Association at the annual meeting and banquet of the organization held last evening at the Knight of Columbus hall, voted to sponsor a program in co-operation with County Agent L. M. Busche, among the junior boy and girl farmers in the county and to co-operate wherever they could in lending assistance to the county agent and the farmer in keeping Adams county to the front as one of the foremost agriculture communities in the state.

It was moved, seconded and voted that the association raise between \$1,000 and \$1,500 to carry out the program in mind and in paying the expense of conducting several clubs among the boys and girls in the county, namely a sugar beet club, a corn club, a calf and dairy club and livestock club. Every man present, more than 100 members, stood up and endorsed the program.

It is planned to award substantial prizes to the winners of these contests and to make their efforts worth while. County Agent Busche will be placed in charge of the contests and, with the aid of an assistant in his office will carry out the plans. Several local manufacturers, including the Holland-St. Louis Sugar company, the Cloverleaf Creameries and the Krick-Tyndall Tile company will co-operate with the local association in giving prizes to the boy and girl winners in the different clubs.

The county agent and directors of the Decatur Industrial Association, assisted by a committee, will work out the rules of the contests. Every boy and girl in the county, the ages to be fixed in the rules of the contest, are invited to join. It is proposed to organize the entire county in the movement and to get all junior farmers interested.

Talks were made in support of the program by John Carmody, John Tyndall, Col. Fred Reppert, Dan Niblick.

### Physicians Have Hopes For Their Recovery; Lad's Funeral Wednesday

A verdict of accidental death was returned today by A. C. Butcher, Justice of the Peace and acting coroner, with the death of Thomas Baker, 9, son of Mr. and Mrs. Frank Baker, who was killed Sunday morning when a Pennsylvania passenger train struck the Baker automobile at a crossing in this city. Mr. Butcher served as coroner, as prescribed by law, since the county has no coroner, due to the death of Dr. L. L. Mattox last week.

A slight improvement was noted today in the condition of Mrs. Robert Chronister, Walter Baker and Mrs. Frank Baker, the three persons who were seriously injured in the accident, which cost the life of Thomas Baker. Mrs. Chronister and Walter are the most seriously injured, and physicians now have hopes for their recovery, it was stated today.

## LAND OWNERS SHOW DESIRE FOR NEW ROAD

### Fine Progress Made In Se- curing Right-of-Way For Fort Wayne Road

### NEARLY ALL SIGNED Committee Expects To Have All Land Owners Signed By Tomorrow

The special committee which canvassed the land owners between this city and the Allen county line yesterday reports splendid success and the indications are that by tomorrow every property owner along the proposed route will have been signed up on one of the state's easement blanks. The enterprising farmers and land owners co-operated with the committee in every way and will more than do their part. In several instances where the damage is considerable due to the large amount of fence to be moved or rebuilt, requests were made for aid and an effort will be made to secure voluntary offers of this assistance. The work can be done any time between now and the completion of the road. A complete report of the committee's work will be made within a day or two, published and forwarded to the state highway commission. Indications are that the road will be constructed during the year. Mr. C. W. Siff, of the highway commission, who accompanied the committee yesterday, said he had never heard of a more successful effort and he promised every land owner his best efforts to secure for them a splendid road and to do every thing possible to save trouble and annoyance.

Crum, Honduras storekeeper on July 26, 1924, went to the jury at 2:30 o'clock this afternoon. No verdict had been returned at 3 o'clock.

The introduction of evidence was practically completed yesterday afternoon. The defendant was called to the witness stand for a few minutes this morning, he being the only witness heard today. The arguments of the attorneys were given this forenoon and the jury was instructed immediately after court convened after the noon recess.

Fry took the witness stand in his own defense late yesterday afternoon. He admitted that he was with Cleo McCleator during the holdup and robbery at Honduras, but declared that McCleator forced him to take part in the crime. McCleator pleaded guilty a few months ago and is now serving a sentence of from one to fourteen years. Fry testified yesterday that McCleator approached him in this city early in the evening on which the robbery was committed and asked him to go with him to Bluffton to see two girls. After they started to Bluffton in Fry's automobile McCleator told him he was going to holdup the store at Honduras, Fry testified. ## Henry Krick, Prominent Decatur Citizen, Tells Of Arrival Here 60 Years Ago Today

### Came to Decatur from Reading, Pennsylvania, with only \$6 in his pocket; Has prospered and watched the city prosper during his sixty years here.

Sixty years ago today, January 13, 1865, was not an unlucky day for Henry Krick, former state representative, county sheriff, prominent business man and founder of the Krick-Tyndall Tile company of this city.

It was just sixty years ago today that Henry Krick arrived in Decatur from Reading, Pa., with the big sum of \$6.00 in his pockets and looked upon a village of seven or eight hundred inhabitants. Decatur then, did not have ornamental street lights in front of the Krick home, no brick streets were to be seen and when a person started out to walk, he trod upon the grass and occasionally upon a board sidewalk or a beaten path.

Mr. Krick came down the street this morning, feeling fine as a fiddle and as happy as ever. He told of the early pioneer days in and around Decatur, how he first engaged in the produce business and was the first person in Decatur to pay cash for butter and eggs and then shipped them to New York and Pittsburgh and other eastern cities. He also engaged in the livestock buying business. He grew up with Decatur and he stated this morning that of the hundred or more men who were here at the time he came, only a handful were living now. He mentioned Henry Voglewede, John Niblick and several others who lived here in 1865.

Mr. Krick was progressive and also a hard worker. In 1882, he started to manufacture brick, near the site of the present Krick-Tyndall plant. The bricks in the jail, the water works building, the county infirmary building, the Catholic parsonage and others were manufactured by him. In about 1883, he and John W. Tyndall organized the Krick-Tyndall Tile company and he has lived to see his mill grow into one of the largest concerns of its kind in this part of the state.

Mr. Krick was also honored with public office. From 1874 to 1878, he served as sheriff of Adams county and in 1898 was elected to the state legislature. He also served as city councilman.

Mr. Krick is past 79 years of age. He was born in Reading, Berks county, Pennsylvania, on October 24, 1845, and came to Decatur when he was 19 years old. He has prospered here, has enjoyed life and is one of the real pioneers of the community, who helped do his bit in furthering the interest of Decatur and Adams county.

## OPPOSES REPEAL OF PRIMARY LAW

### New Governor Outlines His Legislative Recommendations In Address

By RAYMOND BRUNER,  
(United Press Staff Correspondent)

Indianapolis, Jan. 12.—Vigorous opposition to repeal of the direct primary law in Indiana was expressed by Governor Ed Jackson in his message to the state legislature yesterday.

The demand for repeal of the primary law does not come from the rank and file of the voters of the state, he declared.

Governor Jackson advocated issuance of permanent automobile license plates and replacement of the annual license fee with an increase in the gasoline tax; regulation of busses by the public service commission and application of the budget system to all boards, commissions and departments.

Throughout his speech he struck a keynote of economy and advocated cutting all expenditures to the minimum. He recommended that all salary increases provided in the appropriation bills of 1923 be reduced to their former amounts and came out flat-footed against further salary boosts.

Governor Jackson told the legislature to give careful consideration to the report of the committee which has been making a survey of state commissions and boards and asked passage of legislation to reduce the number of these commissions and boards to the minimum.

While declaring in favor of "proper road building and maintenance," Governor Jackson said the program of road construction should be consistent with the state's ability to meet its obligations without imposing too heavy a burden on the taxpayer.

He struck the note of economy again in urging "strictest economy" in providing for the state schools.

"The value of our schools should not be overestimated," the governor said. "We must not, however, lose sight of the fact that too many conveniences frequently lessen the incentive and initiative. The legislature should provide for the schools within their actual needs only."

Appropriations for penal, benevolent, correctional and charitable institutions likewise should provide only for the actual needs of the institutions, he said.

## Fund To Provide Radio Sets For Blind Residents Of City Gets A Good Start

### Total of \$77.25 contributed last night at annual meeting of Industrial Association; Jim Touhey, one of the unfor- tunate citizens, receives great enjoyment from a loaned set.

Will you subscribe a small amount towards the fund to be used to provide radio sets for the four blind persons in Decatur?

A few days ago this plan was proposed by R. J. Harting and C. H. Colter and met with general approval of many liberal people here. So far as known, there are just five people totally blind in Decatur. One of these is James Touhey, who, for a year past, has derived untold pleasure from a radio set, the property of the American Legion boys, which was placed in his rooms temporarily. Over this wireless machine Jim has heard the news of the world, received election returns, baseball scores, reports of football games, entertainment from a thousand cities, sermons, political speeches, the Nighthawks, everything in the air and nothing which has occurred during the years he has been blind has brought the pleasure which as come through the wireless. As Jim says, it is too wonderful to even talk about and through his happiness came the movement to give the same happiness to others.

The subscription fund was started last night and the total is already \$77.25. Send yours to Mr. Colter, Mr. Harting or to this office and help put this splendid home effort for happiness over within the week. The idea is to furnish simple three tube sets of the best make which will require

the least attention and the smallest cost for upkeep, that the recipients may have the greatest pleasure and profit.

Come on folks, lets make this go over so quickly that these good people will know we mean it. Here's the list up to date, put your name on for tomorrow's publication:
