Daily Report Of Local And Foreign Markets

Chicago Grain Review
Chicago, April 13.—Grain prices opened fractionally lower on the Chicago board of trade today. Rain over a considerable portion of the southwest relieved apprehension for the crop in that section and was responsible for much of the early selling. The Liverpool market was closed and local traders did not seem inclined to follow the trend of the Argentine pits where wheat scored an advance of eight cents this morning.

Bearish spirit of the corn trade was largely a reflection of wheat. News from Iowa and Illinois, however, indicated plenty of seed corn on hand and added to the selling pressure.

Oats was dull, prices slipping off slowly in line with wheat and corn. Lower hogs and cables gave provisions a weak start.

East Buffalo Livestock Market

NOTICE TO NON-RESIDENTS

The State of Indiana.
Adams County, SS.
In the Adams Circuit Court, Feb. Term, 1925.
George W. Stump vs. Viola Stump.
No. 12424.
Cause for Divorce.
It appearing from affidavit, filed in the above entitled cause, that Viola Stump, the above named defendant is a non-resident of the State of Indiana.

Notice is therefore hereby given the said Viola Stump that she be and appear before the Hon. Judge of the Adams Circuit Court on the 25th day of April A. D. 1925, and plead by answer or demur to said complaint, or the same will be heard and determined in her absence.

WITNESS, my name, and the Seal of said Court hereto affixed, this 27th day of March, 1925.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss And Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wisp, gray faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

Gas on Stomach Won't Let You Sleep

Gas pressing on heart and other organs sometimes causes a restless, nervous feeling and prevents sleep. Adierika helps any case gas on the stomach, unless due to deep-seated causes. The QUICK action will surprise you. Because Adierika is such an excellent intestinal evacuant it is wonderful for constipation—it often works in one hour and never grips. WEEKLY GRAIN REVIEW

Grain future prices with corn leading made material advances during the week ended April 11 according to the weekly grain market review of the U. S. Department of Agriculture. Light receipts with a more active demand strengthened the corn market. The advance in the wheat market was caused principally by a further reduction in the world's commercial stocks and the poor condition of the winter wheat crop in the United States.

The average condition of winter wheat in the United States on April 1 was 68.7 per cent of a normal compared with 83 per cent on April 1 last year and 81.2 per cent the average condition on April 1 for the past 10 years. Assuming the average abandonment of acreage and average influences on the crop to harvest the condition April 1 would forecast a production of about 474,255,000 bushels which would be about 115,782,000 bushels less than the winter wheat crop last year.

Prospects of the winter wheat crop in other countries of the northern hemisphere are generally favorable with the exception of India and Russia. In India unofficial reports confirm some damage by drought while in Russia considerable loss from winter killing is reported. Based on the April 1 estimate for the United States and average yields for other countries reporting the winter wheat crop in the northern hemisphere this year would be about six per cent less than in 1924. Spring wheat seeding made rapid progress during the week in the United States. Seeding was nearly completed in southern Minnesota and was in full swing in North Dakota with some of the early sown up in South Dakota. The spring seeding was also progressing rapidly in Canada and in European countries under favorable conditions. The movement of wheat into commercial channels has fallen off materially and world's exports recently have been decreasing at the rate of about 2,000,000 bushels a week.

Light receipts of cash wheat in the markets held prices firm for the limited offerings. The bulk of the sales of No. 1 dark northern at Minneapolis was 3 to 3 1/2c over the May prices, which advanced 1 1/2c for the week ending Thursday. Durum wheat continued very firm with mills bidding actively for the best grades. No. 1 Amber Durum at Minneapolis was quoted at the close of the market on Thursday at \$1.50 to \$1.59 1/2 per

bushel depending upon quality. Good milling grades of hard winter wheat were also in good demand at the principal markets and cash prices advanced with futures. Receipts were very light and all arrivals were readily absorbed. Some wheat was also taken from storage in the larger markets.

The scarcity of Red Winter Wheat held prices at a premium of 15 to 18c over comparable grades of hard winter. There was an active demand at practically all markets for the limited offerings. The rye market continued firm on renewed export buying. Sales of a large part of the Baltimore rye stocks to Russia were reported during the week for shipment during April. Omaha reported the first rye export sales since January 1 and there was also good domestic demand at the principal markets. Under continued light receipts and a more active demand the corn market regained most of the decline of the previous week. While the high price level has materially reduced consumption the supply is still much smaller than usual at this time of year. Current receipts have been less than the demand recently and stocks at the markets have been reduced about 2,500,000 bushels during the past two weeks. Cash prices advanced about 10c per bushel at the principal markets during the past four days of the week.
