### OPEN HOUSE AT LOCAL HOSPITAL

Joins In National Hospital  
Day Observance On  
Tuesday, May 12

Conforming with the idea of National Hospital day, which has been designated at May 12, the Adams County Memorial Hospital will hold open house for the public all afternoon tomorrow. The nurses will act as guides in conducting tours through the hospital and the public will be given an opportunity of seeing the entire building, while it is in operation. Hospitals all over the United States are having open house for visitors

and also educational programs. The movement is for the purpose of bringing the public into closer touch with the hospitals and what they are doing in the way of caring for the sick.

No definite program in conjunction with the Decatur hospital's open house has been announced, but Miss Christ has cordially invited all Adams county citizens to visit the hospital and they will be conducted on a tour through the various departments.

is to be congratulated on its good hospital—They are prepared to, and do, render a service to our people that cannot be estimated. They will continue to render their service to you, your children and your children's children.

For more than a generation—years in fact—the Callow & Kohne Drug Store also has served the neighborhood in which we are located. They have an enviable record of conscientious, careful attention to the needs of their patrons in time of sickness. This, we believe, is the greatest service a drug store can render to its community.

## The Physician The Three Links The Druggist in the Chain of The Hospital Good Health

Like any other chain this one fails when any of the links function imperfectly. Your physician must depend for the success of his treatments of the care and service rendered by the hospital and the purity and strength of the remedy furnished by the druggist.

It is our duty and equipment to furnish drugs and medicines of the highest purity, of full strength and accurate doses that we desire to emphasize.

If you have never patronized our prescription department—the most complete and efficient in the city—bring us your next prescription and let us demonstrate the truth of our statement.
