The city campaign in Fort Wayne has warmed up to that point where they are calling each other names. It ought to get sizzling hot by the 3rd of November and its a better than even bet that it will, from what we have heard and read.

The city of Decatur is in a splendid financial condition and has the best municipal plant in any town its size in the country. Be careful about doing any thing which will interfere with the progress made during the past twelve or fifteen years.

Business is spotted and things are not as bright as they should be. It makes people get out of humor and things look dark. But keep on smiling. Old Sol is still smiling behind the clouds and one of these days will come through as you can catch the spirit of his good nature.

The death of David E. Studabaker last night was depressing news and has saddened the hearts of many of us who liked him for his energy, good nature, desire to help do things and his optimism. His sudden death was a shock for until a few days ago no one dreamed of his serious condition.

A dozen cities bid for the proposed Knights of Pythias home and several of them offered substantial bonuses in cash or in sites. Lafayette will give \$50,000 for the home while others offer near that amount. A committee will decide the location within a short time and the building will start next year it is expected. The accomplishment brings further credit to our fellow townsman, Dore B. Erwin, grand chancellor of the order.

The schools of Adams county are observing Gene Stratton-Porter day and the children of this section where she lived for many years and where she began her successful career as a writer will know all about her life, her work, the obstacles she overcame, how she taught the world to think of birds and bees and plants and nature. It's a mighty fine thing and incidentally will add interest to the campaign for a Memorial and a Lumberlost Trail.

With the city election only a month away, interest will begin to cause discussions no doubt. It is expected that within a week or so the campaigns will be outlined and the voters appraised of the qualifications of the candidates. The candidates on the democratic ticket are experienced have a splendid record of achievement behind them. The election of city officials is one of the most important rights you have and the continued operation of the affairs of Decatur as during the past dozen years is necessary for the success of every one here.

Mr. and Mrs. E. B. Williamson, county fair enthusiasts, are here today, to stimulate interest in an agricultural organization which will assure a county fair for many years to come. Their plan is to form a company and purchase beautiful Belmont Park, rebuild it and conduct a big all county fair once a year with race meetings or other celebrations on the Fourth of July, Labor Day and other holidays if desired. If sufficient interest is

manifested here they will go on with the campaign and if you are for it, you should tell them so. They have had many years experience in the fair business and have organized and assisted in organizing a number of the best associations in the state.

With the entire organization of the William Penn Highway Association back of us, it looks as though we ought to make some real headway on having the state commission take over the road from the state line east of here to Huntington. That will be something worth while if accomplished and it can be and will be if we continue to show the interest and enthusiasm shown here the other day when the meeting was held. Officers of the new association are pleased with the reception given all along the line and with the prospects for having the road made a federal highway. They feel from coast to coast. And don't forget it means as much to the future of those towns on the road as it did fifty years ago to land a place on a trunk line railway.

Next year, according to Herbert Janviri Browne, of Washington, we shall have no summer. Something or other in connection with the specific gravity of the moon and the location of sun-spots will bring this condition about, he says, and he backs his prediction with the predictions of scientists from various nations of the earth, including Norway. Well, if he is right he had better run for office, as he will surely be elected. Summer, at least a New York summer, is one season we can hardly do without. Think how charming it will be to sleep o' nights without mosquitoes playing their sweet obbligato. Think of wearing overcoats in July instead of perspiring in kool-aid, so called. Think of not having to buy a straw hat. Think of not having to envy the emigres in Maine. Think—but why think? Next July we shall be fettered to an office stool, as usual, with sweat dripping off the end of our nose, reading about how the heat wave will break in 48 hours. Mr. Browne may be right, but he will have to show us.—New York World.

Supreme And Appellate Courts Convene Monday

Indianapolis, Oct. 2. — (United Press.)—Indiana's supreme and appellate courts will resume activities next Monday, Oct. 5, after a recess of over two months, confronted with the largest docket ever on record, according to Zack T. Hangan, clerk of the courts.

Two-thirds of the present docket consists of appeals from conviction on liquor law violations.

The convening of the courts Monday will just be the termination of the customary recess held during the middle of every May term, which begins the fourth Monday in May and adjourns the fourth Monday in November, at which time the second term starts and continues until the fourth Monday in the following May.

The docket, which is the largest in the history of the courts, is attributed by Joel Baker, chief deputy, to the great number of criminal appeals now taken to higher court.

"Such appeals have prestige over all others because the majority of times these people are in jail without bond and it is the ordinary practice of the court to docket them first," Baker said.

In the list of appeals Marion county leads the state with 164 in both supreme and appellate; Delaware is next with 55; St. Joseph, 25; Vigo, 21 and Clay, 15.

At the end of the May term in November, Benjamin M. Willoughby, chief justice in the supreme court will be succeeded by Judge Ewbank.

Elections will be held in the appellate court at that time to determine the presiding judge.

Coolidge Orders Wilson Postage Stamp Issued

Washington, Oct. 2.—The desire of President Coolidge that a stamp bearing the likeness of Woodrow Wilson be issued as soon as possible has been communicated to the postoffice department.

Announcement to this effect was made Tuesday at the White House with the added statement that the department would issue such a stamp. Complaints have been received from some quarters that the proper recognition was not being accorded the war time president.

WANT ADS EARN \$500

The Key to Success

Success depends primarily on a healthy liver and stomach. You can not think straight if these organs are not working properly. Mayr's Wonderful Remedy is usually successful in such cases. Our advice to everyone troubled in this way, especially when accompanied with bloating in the stomach, is to try this remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. At Holthouse Drug Co. and Druggists everywhere.

COULD LIFE BE LIVED OVER

Without complaint, my life I'd live
And take what fortune has to give.
For whether slow or swift my pace
With friendliness my path I'd grace
And no man here should be my foe
Unless he willed to have it so.

Neither to riches, wisdom, fame,
Nor any art which man can name
Would I be free to that extent
Peace could not follow where I went
I would, whatever post I fill,
Remain a kindly neighbor still.

I'd play the man with men, and yet
My childhood I would not forget
Some memory of earlier days
I'd keep for every boy who plays,
And he who had once been friend to me
My friend forever here should be.

As to the soul, men rush to save
From perils just beyond the grave.
With that I would be much concerned
Before the last bleak mile I'd turn.
And try to have, for him who gave
A soul the life he would wish to save.

College Students Spend Neat Sum In Indianapolis

Indianapolis, Ind., Oct. 2.—(United Press.)—More than \$1,000,000 is spent annually in Indianapolis by students from outside the city who attend colleges and schools of college rank located in Indianapolis, according to a survey completed today.

Indianapolis' schools of higher learning attract students from all parts of the United States from foreign countries. China, Japan, the Philippines, Porto Rico, Tibet, Latin America, and Arabia are represented in Indianapolis colleges, statistics from the schools show.

Among the states in which the students maintain their permanent homes, besides Indiana, are Illinois, Kentucky, Ohio, Michigan, Wisconsin, Missouri, Kansas, Montana, Idaho, Iowa, California, Alabama, Virginia, West Virginia and Pennsylvania.

Enrollment of students in schools of college rank totals approximately 3,500. Of this number about 2,325 have their homes in cities other than Indianapolis.

Estimating that these students, who must maintain temporary homes here, spend \$500 yearly, the aggregate would easily over-reach \$1,000,000.

About \$600,000 is spent for rent and meals only. Purchases of books, and clothing, and expenditures for recreation, amusements, and transportation make up the remainder, the survey shows.

Hoosier Motor Club To Hold Good Roads Meeting

Indianapolis, Oct. 2.—(United Press.)—Invitations were being mailed out today to all members of the Hoosier Motor Club to attend a good roads banquet at the Claypool hotel here on the night of October 9.

The banquet will be held as part of the observance of the tenth anniversary of the

sary of the Dixie highway linking the north and south.

Governor Ed Jackson and members of the state highway commission are to be guests at the banquet.

The motor cars which will traverse the entire route of the Dixie highway will reach Indianapolis, Oct. 9 and members will attend the gathering.

Bandit Robs Passengers In Chair Car; Gets \$50

Omaha, Neb., Oct. 2. — (United Press.)—Police today admitted they had no clue to the identity of the bandit who last night held up and robbed 25 passengers in the chair car of Missouri Pacific passenger train No. 107.

The bandit, described as a man of 50 or 60, escaped after a pistol duel with Special Agent Walker of the Missouri Pacific. He obtained less than \$50 from his victims.

The holdup occurred between South Omaha and the Union station here. Among those robbed were Mrs. F. B. Robertson of Chicago; Mrs. R. R. Downey, Chicago; Blanche Crabb, Little Sioux, Ia., and Harry Baylis, Pullman porter, Kansas City.

Town Fights Bond Issue For New Water System

Jeffersonville, Ind., Oct. 2.—(United Press.)—A protest against a proposed \$20,000 bond issue of the town of Clarksville in order to install a water system, has been filed in the office of Thomas L. Stoner, county auditor, Jeffersonville.

The reasons given for the protest are that the issue is unwise and unnecessary, that the installation is not necessary and that the needs of the town do not require the system. Clarksville has suffered from several mysterious fires, one of the latest of which was the burning of their school building.
