One is almost led to believe that the registrations in Fort Wayne settle the election, but it doesn't. They will still require an election and those who receive the greatest number of votes on November 3rd will most probably be declared the winners, regardless of how, when or where they registered.

Indications are that the donations from the school children of Adams county will be one hundred per cent, when reported in. That will be a wonderful record and should entice every citizen to take a part in making the campaign for a memorial to Gene Stratton-Porter and the Lumber, lost Trail a real success and a triumph for those things worth while.

One of the newer young business men of the city suggests a mask parade for Halloween and tells of the wonderful success of similar events which have been in other cities where he has lived. It would be a lively occasion, create business and inaugurate a new form of celebration which he believes would go on from year to year. He explains also that it does away with the old idea of youngsters seeing how much they can destroy for their minds are busy with the idea of securing one of the prizes offered for those best masked, the comic, the most unique or the cleverest. What do you think about it?

Snow and sleet fell in Iowa and other middle western states yesterday and the cold breath of the ice king was felt here during the night. This morning the first ice of the season was noticeable while the weather man announces "cooler tomorrow." Its coming folks, just as sure as Thanksgiving and Christmas and its time now to provide the heavier clothing, the fuel and the other requisites which protect you against winter. The live merchants are advertising in the columns of the Daily Democrat and you will profit by making your selections via that means.

Eight hundred of the 2,000 millionaires in the United States are sons of preachers, according to the latest announcement of that greatest of all figure experts, Roger Babson. Now wouldn't that jar you, after we have been led to believe all these years that the minister's son was just sure not to get far financially? Just why forty per cent of the millionaires should be those who were boys in the manse is not explained, but it is probably true after all that the teachings in the home of the Godly is the greatest asset a young man who is starting into business can have.

Its on again—the world series—greatest of all national sport events. The battle opened in Pittsburgh today with the Pirates and the Senators as chief actors. Every seat was bought and paid for a week ago, every hotel room was reserved and Pittsburgh is making it a big holiday, everything depending on the results of the baseball games. Every newspaper in the country will give the results, play by play, from a hundred stations the news will be sent over the radio, the entire nation will watch for the news. And its alright to quit bothering about business and debts and gossip and murder and riots and coal strikes and minor things for a few days and watch

The campaigns are getting started in the larger cities this week, but we notice that in most of the smaller towns organization is just beginning and the real snap will probably not appear for a few days. Election comes November 3rd and your duty on that day is an important one, perhaps more so that you feel it. The officials elected that day will serve four years, fixing taxes, keeping up improvements, handling city funds, enforcing laws and otherwise taking care of those affairs closest home. The democratic ticket with George Krick for mayor; Mrs. Kauffman, clerk; Mrs. Magley, treasurer and Fred Ashbacher, George Miller, Fred Linn, O. L. Vance and Joe Hunter for councilmen, should appeal to the voters as one to be enthusiastically supported.

On the theory that all proposed cross-country highways are fakes gotten up, that some one or ones can collect expenses, the Bluffton Banner declares they are fortunate to have been missed. After it is true that such organizations are planned by slickers who wish to exploit the territory through which they propose to mark the road, but the William Penn highway is by no means of that brand. The men back of it are high grade and know what they are doing. It is not a road marking proposition but a road getting campaign, efforts being directed towards securing co-operation of the state and federal commissions. Those who fail to see the advantages thus to be gained are not looking very far ahead. For the benefit of the Banner which seems to be suffering from an attack of "sour grapes" we wish to also explain that not a dime has been asked for and there is absolutely no graft back of this proposition. It is simply an organized effort to secure a paved highway extending from coast to coast and if its lucky to be off such a thoroughfare, Bluffton may sleep on until they find to get out of the woods they will have to travel north to the Penn road.

### THE CHANGE

Just a little while ago  
He would sputter, "let me blow!"  
Every time I struck a match for my cigar,  
Just a tiny little chap  
Who would snuggle on my lap,  
Now he's arguing that he can drive the car.  
Seems 'twas only yesterday  
Childish games he used to play,  
Just a rascal with the mischief in his eye,  
Now he's shooting irons straight,  
Faking five where I took eight,  
As a golfer he is better far than I.

I can scarce believe it true  
As I see the things he'll do  
That we haven't any baby any more,  
That the babe who used to run  
Is this self-reliant son  
Who casts a full-length shadow on the floor.  
But I'm proud as I can be,  
Of so many things I see  
Which console me for the baby that has fled,  
I've no tiny little chap  
Now to snuggle on my lap,  
I've a chum to keep me company instead.

### Bus Owners Reminded Of Depreciation Fund Order

Indianapolis, Oct. 7.—(United Press)—Orders were sent out to all bus operators and owners by the public service commission today that a written statement stating why their certificates should not be revoked for failure to provide a depreciation fund some months ago. The replies are due not later than Oct. 20.

Howell Ellis, secretary of the commission, declared that every bus company granted a certificate of convenience and necessity to operate a bus line in Indiana was ordered to establish a "Depreciation Fund" for the purpose of replacing old equipment as fast as it became unusable. This fund equaled that two per cent of the gross receipts be placed aside each month. The commission declared that by such a method, new equipment could be purchased every three years—including everything—with little or no financial difficulties on the part of the bus owners. Adequate and comfortable means of transportation would always be available and chances for accidents, that exist when inadequate equipment is used, would practically be eliminated.

But few of the companies have complied with the orders, it was said, but the majority of these were of the smaller variety, mostly people with only one certificate.

It is the general opinion that the failure to obey the orders are due to forgetfulness or carelessness and not to deliberate disregard for the commission.

### Salem Men Fined For Dynamiting Fish

Indianapolis, Ind., Oct. 7.—(Special)—Clayton and Chlorel Voyles, living near Salem, Washington county, have just been found guilty by a jury in the Orange County Circuit Court at Paoli of dynamiting, and given heavy fines, according to word reaching the fish and game division of the state conservation department.

The pastor hopes to be able for full work in a short time and will be very glad to be in his accustomed place with this superb people.

## URGES COOPERATION

Unified Program Of Welfare Organizations And Community Chests Recommended By Welfare Worker

Vincennes, Ind., Oct. 7.—Recommending a unified program and a combined effort on the part of the welfare organizations with the community chest, if it materializes, Miss Lucy Collins, secretary of the Family Welfare Society, of Evansville, opened the speaking program on the last day of the Indiana State Conference of Social Work today, held here under the auspices of the State Board of Charities.

"The formation of the Community Chest has its advantages and disadvantages," Miss Collins declared.

"Where the Family Society is firmly established with a dependable list of annual contributors, it has considerable to risk in the Chest movement which is not yet well organized. On the other hand, however, where through untrained and inefficient management the Family Society is weak, the co-operation of a young and lust Chest organization would pull it through successfully.

"There is the further consideration that the Chest may make it possible to bring an experienced worker to handle a critical situation which might be beyond the control of an individual board," she said.

"The Chest has its draw backs, inasmuch, that the Chest committees often draw iron bands around the expenditures of an organization with the idea that they are fine business men in keeping down expense, but in reality they are doing harm."

Declaring that the plea of insanity in criminal case has fallen into discredit through suspicion on the part of the public that it is merely a trick, Dr. Max A. Bahr, superintendent of the Central Indiana Hospital for Insane said that in his opinion a study of the subject will prove that a majority of the men so found insane have, in reality, been unbalanced mentally.

### To Eliminate Dangerous Crossing In Marion County

Indianapolis, Ind., Oct. 7.—The grim reaper is to be cheated of some of his toll of motorists if plans of the Marion county commissioners are carried out.

These plans call for the elimination of the so-called "death crossing" over the tracks of the T. H. I. & E. traction company at Glenn road.

A new street, known as Kessler boulevard, recently was constructed in this section of the city and the commissioners contend it is no longer necessary to use Glenn road crossing. As a result the commissioners are planning to have the road closed and three viewfers have been named to inspect conditions and report.

A number of fatal accidents have occurred at the crossing.

### Indianapolis Municipal Campaign Warming Up

Indianapolis, Oct. 7.—The Indianapolis municipal campaign warmed up today as both candidates for mayor plunged into active campaigns for votes.

John L. Duvall, republican candidate, promised an administration free from control by any political clique if he is elected.

"I shall not be controlled by any man or group of men seeking special privilege," Duvall said.  
He promised application of the budget principle to the city government and necessary office holders would be weeded from the city payroll.

Meanwhile Walter Myers, democratic candidate, continues his attack on Duvall, charging that the latter was closely allied with the Armitage-Coffin political crowd.

"A vote for Duvall is equivalent to a vote for the Armitage-Coffin gang," Myers said.

AUBURN — John Weaver has entered his twenty-fifth year as a rural mail carrier out of the postoffice here. Elwood — Postmaster Fred D. Seeley in in a pucker. He received a box of big persimmons from his farm in Mississippi.

## Welcome Home MacMillan Arctic Expedition

## Zenith Week

October 4th to October 9th

### Our Greetings to Commander MacMillan and Commander McDonald—home from the Arctic.

The story of the MacMillan Arctic Expedition—"the greatest expedition of modern times"—is also the story of another triumph for Zenith radio.

"Zenith" was MacMillan's exclusive choice because he had found by actual experience that it gave sure, dependable results.

Zenith radio in the Arctic established new records for long-distance communication—penetrated the heretofore impenetrable Auroral Band.

On this, his latest voyage to the Frozen North, Zenith radio enabled him to keep in instant touch with America, Europe, New Zealand—to all parts of the world—and to send back word of his discoveries to the civilized world.

What was good enough for MacMillan—the radio he relied upon and never found wanting—is good enough for you.

At the time we welcome home the MacMillan Expedition we welcome also the opportunity to demonstrate Zenith—"the best there is in radio"—in your home—at your convenience. Call or telephone—today.
