

ELECTRIC ENERGY IS WHAT KEEPS INDUSTRY MOVING

Decatur is fortunate in having many progressive and busy industries. These manufacturing plants depend a great deal on the electric current furnished them by the City Light and Power Plant. To keep the wheels of industry running, to keep employment at its peak and to make living conditions better the City Light and Power Plant must furnish an adequate supply of current at all times.

Electric Power Used In Manufacturing

If our plant could not furnish the electric current necessary to keep our industries moving, men and women would be thrown out of employment and our splendid institutions would have to look elsewhere for locations. You and every one who is interested in the welfare of the city and believe in its possibilities want the City Light and Power plant to keep forging ahead, to make it possible for our industries to enlarge and to increase production.

Earnings Pay For Plant Improvements

Improvements made at the city plant, paid out of the earnings, have made it possible for Decatur to build up and equip a healthy and efficient power and water plant. Earnings in recent years have been spent in enlarging and equipping the city plant with modern machinery. If production in terms of horse power was reduced at the city plant, it would affect the operations of those industries depending on us for power. It would curtail employment and eventually we would be at a standstill.

INSTITUTIONS GIVE EMPLOYMENT TO MANY

Decatur is proud of its hustling industries—Among the many splendid industries which give employment to hundreds of people in this city and who depend largely on the operation of their business through the electric power furnished them by the City Light and Power plant are

General Electric Co.
Holland-St. Louis Sugar Co.
Decatur Casting Co.
Gerber Ladder Co.
Erie R. R.

Krick-Tyndall Co.
Indiana Board and Filler Co.
Decatur Foundry, F. & Mach. Co.
A. J. Smith Co.
Adams County Lumber Co.

Zimmerman-Carper Co.
Mutschler Packing Co.
Cloverleaf Creameries, Inc.
Waring Glove Co.
Conter Ice Cream Co.

Decatur Democrat Co.
Decatur Cooperage Co.
Acker Cement Works
The Schafer Co.
Burk Elevator Co.

Giving Decatur a "Great White Way"

We are also furnishing current for the 240 ornamental light posts throughout the city and from the earnings of the plant two-thirds of the expense in erecting them has been paid, making it possible for property owners to have these improvements along their streets and adding much to the beauty and attractiveness of our city.

A CITY OF STOCKHOLDERS

The City Light and Power Plant is a municipal institution, operated in the interest of the citizens of Decatur. Those connected with its management are at your service at any call. Through your cooperation help keep this city a busy, thriving place—a center of "land of plenty."
