building are 16 and 21 inches thick, and the floors are of concrete, making it absolutely fireproof.

In the building there are thirteen study rooms and two general recitation rooms. There is a physician's room and a rest room for sick pupils and for emergency cases of sickness. There is a large domestic science room and a manual training room for the instruction of boys in building and carpentry.

There is a bicycle room for pupils who come to school from a distance and are compelled to ride their wheels. A large heating system occupies the furnace room. There are eight toilet rooms and lavatories. Two rooms on the first floor are at present unoccupied, but it is expected that these will be reserved for study rooms when needed.

Two store rooms hold the excess equipment. The shower bath rooms are connected to the gymnasium. The gym is 50 x 81 feet and has a playing space of 40 x 70 feet. This room has a seating capacity of about 700. There is a large auditorium on the second floor. It has a seating capacity of

The building pictured above is one of the two Catholic school buildings which have given way to the new building which will be dedicated tomorrow. This building is located on Fifth street.

about 1,500 people. The stage is 24 x 70 feet and has an opening of 42 x 18 feet.

There are four entrances to the building and a fire escape connected to the stage in the auditorium. One entrance at the side leads to all parts of the building. It is estimated that it will take more than 600 lights, including the stage lights, to illuminate the building. The entire building has 168 windows and 130 doors.
