Ousted Bank President Killed By Fast Train

Brazil, Ind., Oct. 29.—(United Press)—Hugh Stevenson, 63, ousted last night as president of the First National bank of Brazil, was struck and killed by a fast Pennsylvania passenger train in front of the station here. It was believed Stevenson stepped in front of the train in a deliberate attempt to end his life, but the coroner would make no statement pending his investigation.

Stevenson had been in financial difficulties for some time, it was said, and federal bank inspectors had checked his accounts. It was reported they found violations of the national banking law in loans made by Stevenson.

Stevenson resigned last night as president of the bank at the request of the board of directors and Prentiss L. Tilley, a hardware merchant, was named his successor.

Stevenson had been with the bank many years. He started in as a clerk and worked up to the presidency.

Fascism Celebrates Its Third Anniversary

By Thomas B. Morgan,
(U. P. Staff Correspondent)

Milan, Oct. 29.—(United Press)—Half million Fascists donned their black-shirts, and 200,000 Fascist militia put on their full dress uniforms in every community of Italy, while 20,000 Fascist legionnaires drawn up in full drill formation and heavy marching order were reviewed today by their commander-in-chief, General Gonzaga, in the presence of "Il duce" of Fascism, Premier Mussolini. The occasion was the first day's celebration of the third anniversary of the Fascist march on Rome of 1922.

Flags are flying from every public building in Italy while the main thoroughfares of every city and village are a mass of Italian tri-color. Bands leading parades of militiamen tramp through the streets playing the famous Fascist air, "Giovinezza." Schools are closed for the four days of the celebration. Dedications of public buildings with the placing of the lictor's emblem of Fascism, on them occurred in a number of towns.

Today's main ceremony took place here. The review before General Gon-

zaga was a great military display of the Fascist militia. Every arm of modern warfare was represented in the legions which congregated on the parade-ground to be inspected and then passed in review.

Accountered with rifles, trench tools and bayonets, their heavy packs weighing ponderously on their shoulders, the soldiers of Fascism presented a real readiness for battle. Machine-gun companies, armored motor-cars, artillery tanks and chemical organizations brought forcibly to mind the modern equipment with which the Fascist legions are furnished.

Thousands of spectators watched the imposing spectacle. At Bologna, a similar spectacle occurred where the chief participants were the younger generation of Fascism from the secondary schools and universities.

Turkish Government Requires Citizens To Assume Surnames

Constantinople, Oct. 29.—(United Press.)—Turkey today requires every school-child to have a surname.

Beginning with the present younger generation, the government aims to make the use of family names universal throughout the republic.

The Ministry of Education has issued a set of rules governing selections. Nicknames may be adopted as surnames provided they do not signify anything insulting or immoral. It is recommended, however, that persons take the name of their most remote ancestor or any other purely Turkish name, on condition that such is not historically famous.

Non-Moslems are compelled to drop the American, Greek, Spanish, or other terminations hitherto distinguishing their national or racial identity. No evidence of foreign origin is to be allowed in any surnames. If any non-Turkish surnames are unreplicable in the Turkish language, new ones must be adopted.

Deaf And Dumb Defend Right To Drive Autos

London, Oct. 29.—(United Press)—Deaf and Dumb Automobile drivers have risen in protest here against the possible withdrawal of their franchises and a warm controversy is in progress on the matter.

People have been writing letters to the newspapers recently complaining bitterly against allowing allegedly unfit persons to drive cars on the public highways.

One-armed, or one-eyed men should not be allowed to add to the danger of roadways, already risky enough, from the pedestrians' view point, they say.

The British Deaf and Dumb Association, in conference at Southampton, has made a strong protest against the suggestion that legislation should be framed prohibiting deaf persons from holding motor-driving licenses.

Court Fails To Act On Case Against Len Small

Springfield, Ill., Oct. 29.—(United Press)—The Illinois supreme court adjourned today without acting on the case pending against Governor Len Small for an accounting of interest on state funds during his term as state treasurer.

The next session of the court is in December, when a decision is expected.

The case against the governor involves approximately \$1,000,000 in interest on state funds which the state contends the state executive and his business associates appropriated for their own use.

Chicago Man Shoots His Way Out Of Trap

Chicago, Oct. 29.—(United Press)—Police cordons were formed on Chicago's south side today in an effort to corner Martin J. Durkin, who shot his way out of a trap last night and escaped.

Durkin, who was originally wanted for the transportation of a stolen automobile from California to Chicago, shot and killed Edward C. Shanahan, a department of justice agent, ten days ago. Search for the killer spread from coast to coast but finally authorities learned he was in hiding here.

Two officers cornered him last night in the apartment of his sweetheart, Mrs. Betty Werner, but he engaged in a gun battle with them, wounded one of them and again es-

caped, unharmed. An uncle of Mrs. Werner, Lloyd Austin, was killed by a stray bullet in the fight. Failure of the officers to wound Durkin was largely caused by his sweetheart, who flung herself in front of the police revolvers and grappled with one of the bluecoats.

Every police officer on the south side today was ordered to "shoot to kill" if Durkin is sighted.

Nude Dancers Strike For Dress Wage Scale

Berlin, Oct. 29.—(United Press)—A strike among Berlin's nude dancers ended dramatically when the police raided a number of illicit cabarets where the dancers had been employed.

The dancers had demanded a graduated pay scale based on the amount of clothing they wore. The less the clothes, the higher the pay.

While the matter was being arbitrated by the dancers and the proprietors of the cabarets the police raided the meeting and put both dancers and proprietors under arrest.

CLINTON—Rev. A. S. Warriner has been elected president of the Vermilion county red cross.

Goodrich Is Unable To Read Secretary's Notes

Indianapolis, Oct. 29.—(United Press.)—James P. Goodrich, former governor of Indiana, who has just returned from a trip through Russia, today found his notes on Russian conditions of little avail.

The notes were taken in shorthand by Countess Reznassoff, his secretary, who was to return with him to America.

The countess missed the boat and Goodrich is putting off interviewers until she arrives and deciphers the shorthand.

ANDERSON—A new floor has been placed in the Moss Island bridge near here. The old floor was taken out when it was damaged by traffic.
