### Income Of Chrysler Company Is Doubled

New York, Oct. 30.—(United Press)—The net income of the Chrysler Motor company, whose stock has been making sensational advances on the stock market for the third quarter of 1925, was nearly double that of the preceding quarter, according to the earnings statement made public today.

Net income for the last month was \$8,078,286 against \$4,659,000 in the preceding quarter. Net income for the nine months was \$16,275,286 against \$2,296,094 in the corresponding period last year.

The directors, however, declared only the regular quarterly dividend of \$2.00.

### Prosperity In Prospect Says Utilities Expert

Chicago, Oct. 30.—(United Press)—Prosperity is in prospect for the next five years, W. J. Hatenah, public utilities rate expert, declared today at the special interstate commerce commission hearing on the application of western railroads for a five per cent increase in freight rates.

The present price structure and possibly higher prices will rule for the next five years, he said. Hatenah made the statement while under cross examination by attorneys for shippers who are opposed to a rate increase.

Paul A. Walker, attorney from Oklahoma and other attorneys declared that Hatenah erred when he testified that farmers' incomes have

increased sufficiently to stand a stand a higher freight rate. The increased income is nowhere near the figures submitted by Hatenah and other rate experts, the attorneys declared. Hatenah insisted that he believed his figures were correct.

## How PERFECT BRAND

### SWEET CORN IS PACKED

"Do you mean to say that I can get canned corn that is as clean, as carefully selected and as fine flavored as any cooked in my own kitchen?"

"YES, Mrs. Housekeeper, that is just what we mean to say. If we could personally conduct you through the plant, where 'P' BRAND SWEET CORN is packed this is what you would find."

AT NEARLY ALL GROCERS  
You'll find this exceptionally fine corn on sale at the extremely low price of 15c per can. Just compare it with other brands and you'll quickly realize why PERFECT Sweet Corn is so popular. Your grocer can also supply you with Perfect Brand Country Gentlemen Corn, 20c a can. Golden Bantam Corn, 25c a can.

THAT the selection of "P" BRAND SWEET CORN starts at the soil, because corn chosen for canning under this label is grown in river bottom lands where the rich black soil, makes it fine and juicy with a noticeably better flavor. It is gathered just at the time when the grains are tenderest and brimming with milk. At the cannery, women stand at the chutes where the husked ears come in and inspect every ear to see that it is sound and tender. It must then pass a second inspection at the hands of an expert before it goes to the revolving iron cage where streams of water play upon it as it rolls over and over. After this complete washing no hands touch the corn until you open your can.

The most complete modern machinery it is possible to obtain cuts the corn from the cob; sifts out silks and bits of cob and fills and seals the cans ready for cooking in the huge steam vats and finally labels the shining cans ready for shipment to your kitchen. The entire process is immaculately clean and careful.

THE minute you taste "P" BRAND SWEET CORN you note that it is sweeter than other canned corn. This is because a special amount of sugar is used in canning.

IT TASTES JUST LIKE HOME COOKED. TRY IT.
