To protect their bare knees the society ladies of London are now wearing fur knee caps. What next?

Friday, the thirteenth and a football game with Bluffton. Now who was ever so heedless and careless as to mix up such a salad as that?

Another serious thing caused by the frequent rains of the past six weeks is the delay in completing the highway improvements. Mr. Sinoff of the state department informs us that with four or five days of good weather the seven miles north on No. 21 would be completed. It is hoped this occurs for we sure need the roads open for the winter traffic.

The famous Tom Marshall once said and not so many years ago that what this country needs most is "a good five cent cigar" and there was a lot of meaning hidden between the lines. And now we may get it for the congressional ways and means and committee have included in their report a recommendation for reduction of the taxes of cigars amounting to \$1.50 per 1,000.

We didn't need the rains which came this morning and its the hope of every one who understands how serious is the condition of the average farmer, that we don't have any more for a week or two. The corn and beets need to be harvested and as we have had only about eight or ten sunny days the past six weeks, there hasn't been much chance to get in the fields.

The Wall street stock market went "hooey" this week and a lot of fellows got hurt financially, which is not to be wondered at. When the gambling market is on the rise, a lot of "suckers" get excited and buy. Naturally the prices soar until the money with which to pay is exhausted and then the bottom drops out. One man loses and another gains. Its a poor game and a good one to stay away from.

Now they threaten to spoil the football ace of America. Some politicians in Chicago are boozing "Red" Grange for congress. Just how his training on the gridiron has prepared him to lead the rush in congress may be a little dim but if he can get away there as he has on the field he will be hard to stop and if he can straightarm a lot of the slick guys who draw salaries and appoint friends to jobs, he will register a real touchdown.

The Adams County Agricultural Association seems assured as more than sixty leading citizens of the county have already agreed to take stock. The company plans to purchase Bellmont Park and perpetuate the Northern Indiana Fair as well as provide other entertainment and continue it as the finest place in the middle west for reunions, picnics and various gatherings. Those in charge of the campaign to put over the new organization are delighted with the progress made and the indications for a membership reaching to every township. Plans for a bigger, better fair next year will be made and every effort to make Bellmont Park a mecca for big events.

The immense increase in the number of Hoosier-owned cars and trucks and gigantic total of 711,065 licensed motor vehicles in the state at the end of September serve to impress

everybody with the need for careful study and thorough consideration of the problems arising out of heavy auto traffic. In many localities the public has suffered seriously by reason of stupid and illconsidered mis-handling of traffic by uniformed authorities. The time will come when experience and sound policy and common sense will combine to standardize and adopt generally a set of sensible and practicable regulations throughout the state.—Frankfort Morning Times.

Home Talent Play To Be  
Given Friday Evening

The public is invited to attend the home talent play, "Cindy's Chance," to be given by the Woman's Missionary society of the Presbyterian church, Friday evening, at the public library. The play will begin at 7:30 o'clock prompt. There are about 25 persons in the cast and a delightful evening is promised those who attend. Tickets are now being sold and may be secured from members of the society or from Mrs. J. M. Van Alsburg, director.

Former Town Marshal  
Held On Liquor Charge

Noblesville, Ind., Nov. 12.—Charles F. DeLong, former town marshal at Beech Grove, Ind., is in jail here today charged with violating the liquor laws.

DeLong was arrested after he had been surprised while sleeping in an automobile near here early today. More than 200 gallons of alcohol was found in the car in which DeLong was sleeping and in another car parked nearby.

Three men who were in the other machine escaped.

Workman Killed In  
Fall From Scaffolding

Jeffersonville, Ind., Nov. 12.—(United Press)—Samuel Turner, 36, local factory employee, is dead here today as the result of injuries sustained when he fell fifteen feet from a scaffolding yesterday. His skull was fractured.

## GRANDPA'S WALKING STICK

My grandpa once was very sick. It's disappeared from its place somehow. And now he's got a walking stick, Cox one of his legs, as he says to me, Knows something about it, she looks Isn't quite so good as it used to be; so queer. And he can't run and he daresn't kick Was it you, who carried my leg away?" And he'd fall if he hadn't his walking stick.

When my grandpa comes to our house to stay I like to carry his stick away, And put it in places where he can't see Till I come and tell him his leg is found.

Then he can't get up and he can't move round. The bear didn't swallow it after all, Then he shouts out loud: "Hey! Every And my grandpa laughs till his sides are sore one!" Who knows where my other leg has Then we hoppity-hop to the candy store gone?

## Purdue To Offer A Conference On Welding

Lafayette, Ind., Nov. 12—Purdue University is taking a step ahead of the other universities of the country in offering, through its Engineering Extension department, a series of conferences and short courses of direct value to the industries of the state.

Electric welding, thermit welding and oxy-acetylene welding in their various applications will be described, discussed and demonstrated at the conference on welding which will be held at Purdue university on December 3 and 4.

A locomotive with a broken frame can be put back into service within two hours without drawing the fire steel structures can now be erected without a rivet or bolt, by means of one of the many forms of welding.

Applications of welds from the simplest automobile or machine part repair to the manufacture of the largest machine will be described.

Automobile and machine repair shops as well as the large manufacturers will be benefited by sending a representative to this meeting at Purdue.

Programs for this conference may be obtained by addressing Engineering Extension Department, Purdue University, Lafayette, Indiana.

"LUMBAGO" OR  
A LAME BACK

"Heet" Relieves Instantly

Use applicator attached to cork, and brush "Heet" over the pain area. Immediately, you feel this harmless, glorious, penetrating heat draw the pain, soreness and stiffness right out of your lame, aching back. Besides, "Heet" scatters the congestion and establishes a cure.

"Heet" instantly relieves rheumatic or neuritis pain in any joint, muscle or nerve whether in the arm, shoulder, neck, legs or body. "Heet" contains two soothing, penetrating ingredients, too expensive to use in ordinary liniments or analgesics. "Heet" is a clean, pleasant liquid; does not stain, blister or irritate the skin and costs only 60 cents at any drug store.
