Covers were laid for the children, grand children and great grandchildren, who are Mr. and Mrs. Virgil Cross, Mr. and Mrs. Lawrence Lewton and children, Mr. and Mrs. Willis Lewton and family, Mr. and Mrs. Oscar Beatty and son, Miss Mildred Fisher, Mr. Herbert Greiser, all of Fort Wayne.

## RHEUMATISM, NEURITIS, PAIN

"Heet" Relieves Instantly

With applicator attached to cork, this brush "Heet" over the pain area, whether in knees, feet, legs, hands, shoulders, back, neck or body. Instantly, you feel this harmless, glorious, penetrating heat draw the pain, soreness and stiffness right out of the aching or swollen joint, muscle or nerve. Besides, "Heet" scatters the congestion and establishes a cure. "Heet" contains two soothing, penetrating ingredients, too expensive to use in ordinary liniments or analgesics. "Heet" is a clear, pleasant liquid; doesn't stain, blister or irritate the skin and costs only 60 cents at any drug store.

Wayne, Mr. and Mrs. Delma House and family, of Monroeville, and Mr. and Mrs. Amos Fisher, of this city.

Committees are getting ready for the annual Christmas bazaar to be held by the Ladies' Aid Society of the Zion Reformed church at the church December 4th and 5th. A cafeteria supper will be served from five to seven o'clock Saturday, December 5 at the church. The liberal patronage of the public is solicited.

## "Topsy And Eva" At The Majestic Theatre

The Duncan Sisters' beautiful and unique musical comedy, "Topsy and Eva," is coming to the Majestic Theatre, Fort Wayne, Wednesday and Thursday, November 18 and 19, for an engagement of two nights and a Thursday matinee with the white sisters.

This company is produced personally by the Duncan Sisters. The title roles are sung by the celebrated White Sisters, Thelma and Marvell, seen here with Fred Stone in "Tip Top."

Of special interest in the cast are: Jules and Josie Walton, the incomparable and brilliant comedy Charleston dancers from the Vickers Theatre, Chicago, secured for this production by special contract; Rosette, the premiere danseuse, a graduate of the Imperial School of the Ballet of Russia; Joseph and Antiseri, the theatre's most brilliant entertainers on the steel gul-

tar, the Six English Tivoli Girls, real Tiller Girls from the London Music Halls with their matchless dancing, the Kentucky Quartette of four superb male voices, the Chorus of Old Fashioned Girls, and a total company of thirty-four people.

Beautiful costumes of the eroline period—the time of the show is Kentucky and Louisiana in the fifties—designed by the famous Mme. Keeler; gorgeous scenic and lighting effects, all add to this charming musical comedy. The most delightful offering on the American stage today.

Prices will be: Nights, Orchestra, \$2.50; Balcony, \$2.00, \$1.50, \$1.00 plus tax; Second Balcony, .50. Special Bargain a Minute Thursday, Orchestra, \$2.00; Balcony, \$2.50, plus tax; Second Balcony 50c.

# Suggestions To Water Consumers

## Meters

Water meters are furnished by the Water Department but the consumer is required to keep the surroundings of the meter clean, dry and of easy access and protect the same from freezing. All damage done the meter by freezing or by hot water poured on or forced back through the meter is charged to the consumer.

PROTECT YOUR METER TODAY.

## Frozen Pipes And Meters

If pipes are frozen they may be thawed in some cases by wrapping cloths around them and pouring hot water on. If there is a bad case of frozen pipes or if a house is to be closed for the winter it is best to secure the services of a competent plumber.

Do not pour hot water on the meter, do not build a fire on the meter as it will ruin the rubber piston and celluloid register. In case of a frozen meter call this department before the same thaws out and causes a damage to your property and a waste of water.

## Sill Cocks For Sprinkling

Sill cocks or house faucets on the side of the house should be shut off in the basement before freezing weather and when this is done, the faucet should be opened so as to admit air, which will cause the water to run out at the stop and waste in the basement. This procedure should be followed when it is desired to drain the house pipes. Air must be admitted at the top to force the water out below.

Tests of city water are furnished the State Board of Health and their analysis and report is on file in the office of the City Clerk for your inspection.

For further information or for any service call WATER DEPARTMENT, City Building, Phone 225.

## Water Closets And Faucets

Water closets and faucets should be examined frequently in order to keep the consumption of water on a normal basis. After a closet has been flushed and the tank is filled, there should be no movement of the water in the bowl; if there is, water is wasting into the sewer. By holding a piece of paper or cardboard against the rear portion of the bowl, a flow may be detected which an ordinary examination would not disclose.

STOP ALL LEAKS PROMPTLY as "a waste of water is a waste of money."

## How To Shut Off Water

The "shut off" known as the stop and waste, where the pipes enter the basement is your immediate protection in the event of a burst pipe or meter and also for the purpose of shutting off and draining the house pipes where and when there is danger of freezing; it should be easy of access and in good condition. In some basements it is covered with coal or it is in such bad condition that it cannot be turned.

The man of the house should see that the stop and waste is in good order and that the folks at home know how to operate it. To shut off turn handle so that it is at right angle with the pipe, one-quarter turn or if a wheel valve turn to right until completely closed.

We are trying to make your water service as near perfection as possible and your cooperation is solicited.
