Look Out!

Look for the picture of the Quaker on every package of oats you get. That's the only way to get the "Quaker flavor"—the old Scotch flavor—that you want

WHAT you want in oats is flavor. Everything else takes second place. Oats originally a Scotch dish must have true Scotch flavor to be at its best—real "Quaker" flavor.

Nobody has yet succeeded in imitating Quaker flavor. That enticing and tasty Scotch tang of the Quaker brand.

People who ordinarily don't take to oats, find delight in that unique flavor. Once you taste it, you are spoiled for ordinary oats. So when asked to "try" a substitute, say "NO."

That flavor is not the result of guesswork but of certain Quaker milling processes applied to the finest, plumpiest oats that grow. Some 50 years were spent in perfecting it.

Quick Quaker cooks in 3 to 5 minutes. It makes the finest, the most savory and quickest of hot breakfasts.

Due to Quaker milling methods, it supplies, too, the "roughage" you need to make laxatives seldom necessary.
