**Daily Report Of Local
And Foreign Markets**

OPENING GRAIN REVIEW
Chicago, Nov. 21.—(United Press)
Wheat shot skyward in first dealings on the board of trade today. New December hit \$1.62, or new high mark on the movement. Other options as well, touched higher ground. Coarse grains lagged.
Spirited buying in wheat was credited to commission houses. Some of them acted for easterners as a cover for reported overnight sales to the continent. Apprehensive feeling over the general outlook obliterated wariness displayed by more conservative elements late yesterday.

Clara Morris, Stage's "Woman of Sorrow," Dies

New York, Nov. 21.—"My God, this woman is not acting, she is suffering."
Such was the tribute that Sarah Bernhardt once paid to Clara Morris, the stage's "woman of sorrow," who died yesterday in New Canaan, Conn., when Miss Morris was interpreting Camille, 51 years ago.

Miss Morris, who had been known as the "woman of sorrow" since 1907 when she became temporarily blind, suffered financial reverses, and contracted an illness from which she never recovered.

She was born in Toronto, Canada, March 17, 1846, and began her stage work at the age of 15. For many years she was recognized as the greatest English speaking emotional actress. Curiously enough her last years were spent in the sorrow that she so ably depicted on the stage.

A nervous breakdown forced her retirement in 1895 and she has been seen on the stage only at intervals since that time. Her most impressive triumph came when she played as Cora, the Creole woman in "L'Article 47."

"The early mailing of Christmas cards is as important as the early mailing of packages.

"Special delivery service is for speed and not for safety. Valuable packages should be fully insured.

"Parcels may be sent by international parcel post to all foreign countries. Following are the dates which Christmas parcels should be sent to insure their delivery in the chief foreign countries.

TOURISTS SPEND FREELY IN CITIES ALONG HIGHWAY

(CONTINUED FROM PAGE ONE)

Caesar before the birth of Christ. "So let me urge you all to grasp this opportunity. Time is the essence of this proposition as the State and Federal governments are now fixing the permanent routes and NOW is the chance to get this highway. Every citizen along the route should be interested."

"Aside from the selfish and utilitarian side we must not forget the immense aid such a highway would be in time of war, passing as it does through the richest agricultural and industrial sections of the United States. Also the good derived by the citizens of humble means, who may 'see America first,' by the use

of such highways with their attendant camping places, all this makes for broader minded and better citizens. In short it is a great enterprise, a national project."

John H. Williamson of Findlay, O., spoke next. Mr. Williamson is one of the originators and active promoters of this project. He said: "Eighty per cent of this country's traffic is now moved over the highways. Findlay has grown from a town of 12,000 to a town of 20,000, mainly due to the Dixie highway. This Benjamin Franklin highway is the shortest, the safest, the best paved, and has the best grades of any route from Atlantic City to Burlington, Iowa. It passes through the heart of the richest agricultural section. The Lincoln is in the sand to the north and the National is in the clay to the south. There is a chance to get with in a short time this new route made a Federal route with United States markings. In fact the matter is already under way to secure this desirable end, with every assurance of success. The proper thing to do as soon as possible is to get maps printed and distributed to start the traffic using this route. Photographs and all other forms of legitimate publicity."

John W. Sutton, president of the Automobile club of Indiana County urged that efforts be made by individuals and all business corporations to bring pressure to bear on the legislature of Pennsylvania to restore this route to the primary system, where it was and where it rightly belongs.

A letter from Chas. M. Schwab heartily endorsing the road, was read.

Senator Painter, of Butler, also spoke in favor of the road.

The meeting was presided over by Mr. John C. Dight of Butler, President of the Pennsylvania Division of the Benjamin Franklin Highway Association.

He told of the appropriateness of honoring Benjamin Franklin. He gave an interesting resume of the eighteen lines of action the Franklin pioneered in.

Nine-Year-Old Girl Is Victim Of Assault

Evansville, Ind., Nov. 21.—(United Press.)—Police were admittedly baffled today in their search for the man alleged to have assaulted a nine-year-old girl after choking her and carrying her half a mile into a lonely field here shortly after dusk Thursday.
Four men were arrested late yesterday as the result of a trail followed by a German police dog from the scene of the attack to a house on the outskirts of the city. The child, however, was unable to identify any of the men arrested and authorities said they did not believe any of the four were implicated.

Save The Beet Crop

Adams county has produced this year from the standpoint of tonnage what promises to be one of the best beet crops in its history. Due to the unusual weather conditions encountered so far, the crop is only about half harvested.

The season is growing late and it is for this reason WE APPEAL TO ALL FOR HELP AT THIS TIME. A little co-operation on the part of all will save this big crop.

We particularly appeal to those who have already succeeded in harvesting their crop to lend a day or two to your neighbor who is not so fortunate. Any one who lives near a man who has beets will show a real neighborly kindness by offering to help.

We recommend particularly that the beets be lifted and piled in the field so that the laborers can top them should the weather freeze.

In places where the fields are TOO WET to use a lifter, we suggest that you use topping knives equipped with a hook that the beets may be pulled out of the ground. One grower with a wet field has already piled half his crop in this manner to our knowledge. Topping knives can be supplied on short notice.

Laborers are arriving daily to assist in saving the crop. Wherever we can assist, feel at liberty to call upon us.
