Your dollar dues to the Red Cross will help just that much. A million members means a million dollars and it requires a lot of money to be able to render the right kind of assistance just when it is needed.

Come on every body. Don't forget the effort being made to save the beet crop. Other things are important but none more so than this for it will bring hundreds of thousands of dollars to the county. With a week or ten days of fair weather we will have the crop out and safe. Lets all do it by helping any way we can.

Today's games practically wind up the football season. Basketball comes next in the sport line and will hold the stage for several months. In this country we demand thrills and we get much of that tonic from clean sports. Its a good thing if taken in the right doses and with the right spirit, otherwise not so good.

The celebration of education week is concluding, but we should remember that every week in the year is education week for after all its the most important part of our community. We want our boys and girls to be the best fitted for the battle of life and it takes education in the school, in the home and every where.

Your advertisement in the Daily Democrat, Mr. Merchant, is worth ten times what it costs you for it liven up your business, creates a desire for your goods, brings in customers and helps every one else. A dead community can be sized up by a glance at the home paper, for in those communities where business is brisk every merchant carries his share of securing publicity for the town. You are not a good business man unless you are a good advertiser.

Going to church tomorrow? The minister is working all week to make his Sunday service a success. You ought to arrange to lend your presence to encourage him and to create interest in the church an dthe great work they are doing. Do you doubt this is a better world than it used to be? We don't and we have watched it carefully for two score years? Do you doubt that the church has been the greatest influence for good? We don't and neither do you if you will give an honest answer. Think it over and then go to your church tomorrow and go seriously.

Proclamations have been issued by various officials from the president down the line, asking the observance of next Thursday as Thanksgiving Day. It is well, but the real proclamation you must make yourself. If your heart is in tune with the occasion you will be happier. And there are a million things to be thankful for after all. The custom started with the Pilgrim fathers and meant much in those days of suffering and hardships. Surely we will all find something to be sincerely grateful for.

We organize for about every thing these days, to secure new factories, to increase population, to prevent industries from leaving the community, to secure co-operation of all forces, to give entertainments and for a hundred civic causes, but did you ever hear of an organization to prevent the young people going to the cities where they feel they have a better chance? No, thats an entirely different matter. Bright young men and

women out of school seek something at home first and then in despair go to the bigger cities where some times they win and some times they fail. If we had such an organization we would keep this ability and while it would be some inconvenience and some effort, wouldn't it be worth it?

It is not necessary to go to Florida or California or any other place to invest your money. The Mississippi Valley offers just as many opportunities for the wise investment of money as any other section of the country, and when you invest at home, or close to home, you know more about the property that you invest in. You can drive out and look it over on Sunday and the trip won't take you away from our regular work. You don't have to take the word of anybody as to just where the property is located, or just what condition it is in. You can see it for yourself, and when you have seen it, it is not a hard matter to find someone you know who can tell you all about it. Your banker or your regular investment house is always willing and anxious to help you.—Mid-West Review.

INDIAN SUMMER
Sometimes when loud the laughter rings
And love and mirth light every glance,
A da'ny, old grandmo'her springs
Upon the floor to share the dance;
Lifting her petticoats she shows
That once she tripped on nimble toes,
While all her children's children see
How beautiful she used to be.
Or strangely in an old man's eyes
A twinkle flashes now and then
Which causes him erect to rise
To show his skill to younger men;
A ring is made, and small and big
Applaud while Grandpa does a jig,
Giving a brave, but brief display
Of splendor that has passed away!
Thus in the proper time and place
Age oft relives its earlier days,
Youth comes once more to fight the face,
And set the tired-old eyes ablaze.
A brave brief spell of joy is flung
From one who is no longer young.
An old man jigs upon the mat,
And Indiana summer seems like that!

MORE MALE VOTERS

State Has 54,000 More Men Voters
Now Than Six Years Ago; Adams County Has 4,977.

Indianapolis, Nov. 21—There are more than 54,000 more male voters in the state of Indiana today than there were six years ago.
This became known today when figures for the 1925 sexannual enumeration were made public by Lewis Bowman, auditor of state.
The figures, which were compiled for the purpose of re-districting the state for the election of state representatives and senators, show that there are now 54,519 more male voters in the state.
This is an increase of 54,519 over the 1919 enumeration.
The six counties which showed the largest gain in the state were Marion, Lake, St. Joseph, Allen, Vigo and Vanderburg.
The figures will be presented to the 1927 legislature when that body will act on re-districting the state.

The sexennial enumeration showed that Adams county has 4,977 male voters.

Stage Is Set For Greatest Stock Show

The Twenty-sixth anniversary International Live Stock Exposition is ready to open its gates to the public on November 28th for what promises to go down in history as the greatest of all agricultural and live stock gatherings. According to Secretary B. H. Heide, the International has never before had such a splendid array of educational and entertaining features to offer to its visitors. No matter whether one is directly interested in agriculture or not, there will be much among the numerous displays and events to make a trip to the show well worth the time and effort.
The International Grain and Hay

Thanksgiving Program At Evangelical Church

Benediction..... Rev. R. W. Looze

New Concrete Pavement Is Opened To Traffic

Indianapolis, Ind., Nov. 21.—(Special)—Several miles of new concrete pavement and new gravel and stone surfaced roads were opened to traffic

in the last few days. John D. Williams, state highway director announced in the commission's traffic bulletin issued today. Mr. Williams called attention that new concrete pavement is open on No. 1 between Crothersville and Scitsburg excepting a mile at Marshallfield; on No. 10 between Oak-town and Carlisle; on No. 11 for about 10 miles south of Marion, and new gravel and stone surface on No. 40 between Rising Sun and Aurora. Pavement is also completed on No. 10 between Clinton and Lyford, but will not be opened to traffic under three weeks. Flood waters inundated portions of some state roads in southern Indiana earlier in the week, but last reports show streams again within their banks. Traffic into the lowland sections keep in touch with the high water situation as it pertains to state roads, by the daily press.

Your Bank Book is Your Protector

It is the bulwark of your security; your shield of safety.

Making deposits in this bank regularly—say a little each month—strengthens your protection and places you on a level to meet the present day difficulties.

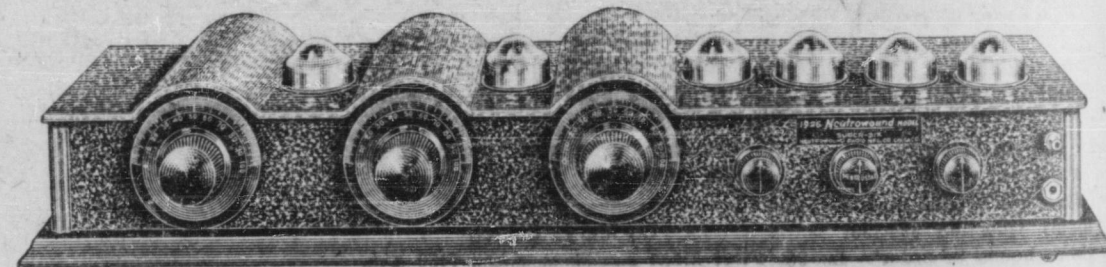

It is your duty to save. Once started it becomes a pleasure and is most welcome in times of need.

Old Adams County Bank WE PAY YOU TO SAVE
