Artist Colony Votes For Postal Delivery

Carmel, Col., Nov. 27. — (United Press)—The seaside village, last refuge of art in California, soon is to have numbered streets, so that its painters and writers may be awakened from their dreams by the shrill sound of the postman's whistle.

In recent elections and referendums the artistic element defeated propositions for a city manager form of government, to straighten out and pave the streets and to install electric street lights.

The petition for street numbers in order to get free mail delivery, however, had only 64 names of persons opposing it, with 334 seeking the move.

But true artists mourn what they fear is the opening wedge of "babbling."

Mrs. Rudolph, wife of the trustee of Union township, who underwent a serious operation at the Adams County Memorial Hospital last Friday, is improving nicely.

The cause of disease is spinal pressure upon nerves which prevents the transmission of vital energy to one or more organs.

Daily Report Of Local And Foreign Markets

Opening Grain Review
Chicago, Nov. 27.—Wheat soared sharply in initial dealing on the board of trade today. Coarse grains were fractionally higher.

The jump in wheat prices was in response to advances scored in foreign markets yesterday. While domestic markets observed the Thanksgiving holiday, Liverpool and Winnipeg were deluged with buying orders. Buying in the local pit today was general.

Corn made sympathetic gains. Oats concentrated on the usual fractional ranges.

Provisions were steady.

NEW POST OFFICE HERE PROBABILITY

(CONTINUED FROM PAGE ONE)
Journal-Gazette is as follows:
"New post offices in Fort Wayne, South Bend, Plymouth, Logansport, Decatur, Warsaw and a dozen other Indiana cities are provided for in a new public buildings and grounds bill, which probably will be presented the house of representatives shortly after the opening of congress next week. The bill, as tentatively drawn up, calls for the expenditure of \$180,000,000 at the rate of \$30,000,000 a year.

"The proposed measure would carry out the authorizations of the 1913 act, about half postponed by the World war. It is understood that the Coolidge administration is favorably disposed toward the enlarged and more inclusive program because it desires to see established the policy of appropriating a lump sum for public buildings and grounds to be expended on the best judgment of the treasury and postoffice departments, to take the place of the old 'pork-barrel' method of specifying in the legislative act every place where a site is to be bought or a building erected.

"To put it another way, the administration is disposed to think it would be justified in taking care of 'pork barrel' authorizations heretofore made if the congress at the same time will adopt the lump sum system, for it is believed that once it is adopted, it will be adhered to in the future. Moreover, it is pointed out, there has been no public building

construction of any note for more than ten years.

"The \$150,000,000 bill introduced by Representative Richard N. Elliott republican, of Indiana, in the last congress, went through the house, but died on the senate calendar chiefly because it did not take care of 1913 authorizations. Senator Duncan U. Fletcher, Democrat, of Florida, was one of the senators who are said to have blocked the measure.

Florida had several of the 1913 authorizations, and the growth of the state's population, it is pointed out now, make it all the more urgent that the cities and towns have better post office facilities.

"That bill would have authorized \$50,000,000 for new department buildings in Washington and \$100,000,000 country over. Recently, it was proposed to make it a \$165,000,000 bill for the congress soon to convene, but it appears now that \$180,000,000 would be necessary to take care of the 1913 authorizations and also to build on sites already owned.

"Sites already acquired in Indiana are: Clinton, Decatur, Greensburg, Lebanon, Linton, Mt. Vernon, Noblesville, North Vernon and Warsaw. Sites authorized but not yet bought, when a recent compilation was made also include Plymouth, Rochester and Salem, which would presumably have new postoffice buildings if the proposed \$180,000,000 measure becomes law. The Mt. Vernon site was acquired in 1911. In some of the foregoing cities named appropriations were for sites only, and in others for sites and buildings. In addition, the Indiana cities for which special bills were introduced, and which might be taken care of under the proposed \$180,000,000 bill, are Terre Haute, Fort Wayne, South Bend, Crown Point, East Chicago, Monticello, Hammond, Sullivan, Vincennes, Whiting, Plymouth, Hicknell, Kokomo, Logansport and Muncie."

Wheat Prices Jump On Chicago Board Of Trade

Chicago, Nov. 27.—Wheat prices jumped on the Chicago board of trade today, the various issues gaining from 2 1/4 to 4 1/2 cents. Reports of bad crop conditions in the Argentine continued to be the bullish factor.

December wheat, new, opened at \$1.66 1/2 per bushel, up 4 1/2 cents and May wheat new made a similar gain at the opening price of \$1.64.

Rye also made a good gain, touching \$1.00 per bushel for the first time this year. This was 3 1/2 cents higher than the preceding close.

Mrs. Henry Miller and Mrs. Agnes Courtney, of Akron, Ohio, who were called to Huntington on account of the death of their nephew, Don's Miller, who died last Monday, spent Thanksgiving Day at the home of Mr. and Mrs. Alva Nichols. Mrs. Henry Miller returned to Akron today while Mrs. Courtney will remain here for a stay of two weeks.

U. S. Manufacturers Co-operate With Army On War Preparations

Washington, Nov. 27. — (United Press) — Commercial manufacturers throughout the United States are giving almost universal cooperation to the Army's peace-time plans for utilization of industry in time of war, according to the annual report of Major-General C. C. Williams, Chief of Army Ordnance, made public here today.

"Industries are taking a vital interest in the work of industrial preparedness," Williams says. "They are assisting in the army procurement plans even to the extent of expending considerable sums of their own money in the preparation of factory plans for emergency production."

"The problem of maintaining the authorized war reserve of ammunition, however, is becoming more difficult as the stocks on hand increase in age. A constant inspection is made of materials and a study of the records reveals some serious defects. Some are due to hurried war designs or hurried war production, while others are due to deterioration of the explosive elements."

Williams called attention to his former pleas for funds to provide repairs for arsenals and declared that sufficient funds should be appropriated to permit reasonable maintenance of arsenals which are suffering deterioration through lack of care.

Onion Growers Exchange Ceases To Function

Warsaw, Ind., Nov. 27. — (United Press) — The Onion Growers' Exchange of the local Farm Bureau has ceased to function.

The exchange operated under a contract by which the onion growers of the community sold all of their product through the exchange.

The Key to Success

Success depends primarily on a healthy liver and stomach. You can not think straight if these organs are not working properly. Mayr's Wonderful Remedy is usually successful in such cases. Our advice to everyone troubled in this way, especially when accompanied with bloating in the stomach, is to try this remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. At Holthouse Drug Co. and druggists everywhere.

Last season dissatisfaction arose among the producer and as a result no contracts were signed this year.
