Court House

Suit For Damages

Henry A. Fuhrman today filed a suit against the Citizens Telephone company for \$2,500 damages for injuries sustained by his wife on August 1, 1924, when the automobile in which she was riding was wrecked when it struck a guy wire on a telephone pole on North Second street. Mrs. Fuhrman was riding in a car with Mr. and Mrs. Zoe Zehrbach, when the car struck the guy wire and was turned over. Mr. Fuhrman alleges that his wife was badly injured in the accident, that one of her arms has been impaired and she is unable to discharge her household duties. Lenhart & Heller are attorneys for the plaintiff.

Set For Trial

The case of Fred Schurter vs. John and Alvina Eising has been set for trial on December 16.

The case of George Wright vs. C. H. Muller has been set for trial on December 17.

The case of Dr. John K. Geary vs. the William H. Myers estate has been set for trial on January 4.

The case of Geary & Barnett, M. B. vs. the William H. Myers estate has been set for trial on January 4.

Suit On Account

The Indiana Paint and Varnish company has filed a suit on account against H. C. North, demanding judgment for \$275. Attorney Harry F. Kennerk, of Fort Wayne, is counsel for the plaintiff.

Last year, General Electric workers made over eleven thousand suggestions. Of these, more than three thousand were adopted. Some of these thinkers were promoted for the value of their ideas, and to each of the three thousand came a bonus.

Where It Pays to Think

There was a time when the man who made suggestions regarding his work was considered to be trespassing upon the prerogatives of the "boss."

But conditions have changed. The electrical industry is leading the way towards the use of brains rather than brawn. It wants men who think—all the time.

Today the men and women who think beyond their jobs, take advantage of training and educational facilities, and contribute to electrical progress, are definitely rewarded. Young men entering the industry find exceptional opportunities for study, training, and development.
