The E. A. Beavers home on Adams street was beautifully decorated for the annual Christmas party of the Mary and Martha Sunday School Class of the Methodist Sunday School, Tuesday evening. Forty-five members were in attendance. Clever contests of rhyme writing and dressing dolls were enjoyed by the members. Mrs. Charles Colter wrote the best rhymes and Mrs. William Franks won in the doll contest. Miss Mary Kathleen Fryback acted as judge in the doll dressing contest. The color scheme of red and green was carried out in the delicious refreshments served. The number on the dainty favor was matched with the number on the gifts and in that manner the packages were distributed. Mrs. Emma Daniel conducted the devotional and consecration service. The members of the entertaining committee included Mesdames Frank Downs,

Martha Martin, Mart Gilson, C. V. Poling, Laura Krill, E. A. Beavers and the Misses Maggia Peoples and Nellie Blackburn.

A beautiful Christmas setting for a Christmas exchange and delicious six o'clock dinner after which Five Hundred was played, afforded an evening

of more than usual pleasure for the members of the Fortnightly Club, with Mrs. F. R. Schmitt as hostess, Wednesday evening. High scores entitled Mrs. Clem Voglewede and Mrs. A. Tanyas to first and second prizes, respectively. Mrs. Clem Voglewede will entertain at the next meeting.

A word to the wives

—not forgetting the mothers and sweet-hearts! Here's some honest advice on what to give the man who smokes . . . Prince Albert pipe tobacco! Nothing could make more of a hit with a smoker than good old P. A.

The handsome pound crystal-glass humidor with the sponge-moistener top will carry the joy of Christmas morning far into the new year. Every cool, fragrant pipeful will bring new pleasure—and everlasting gratitude for your excellent judgment.

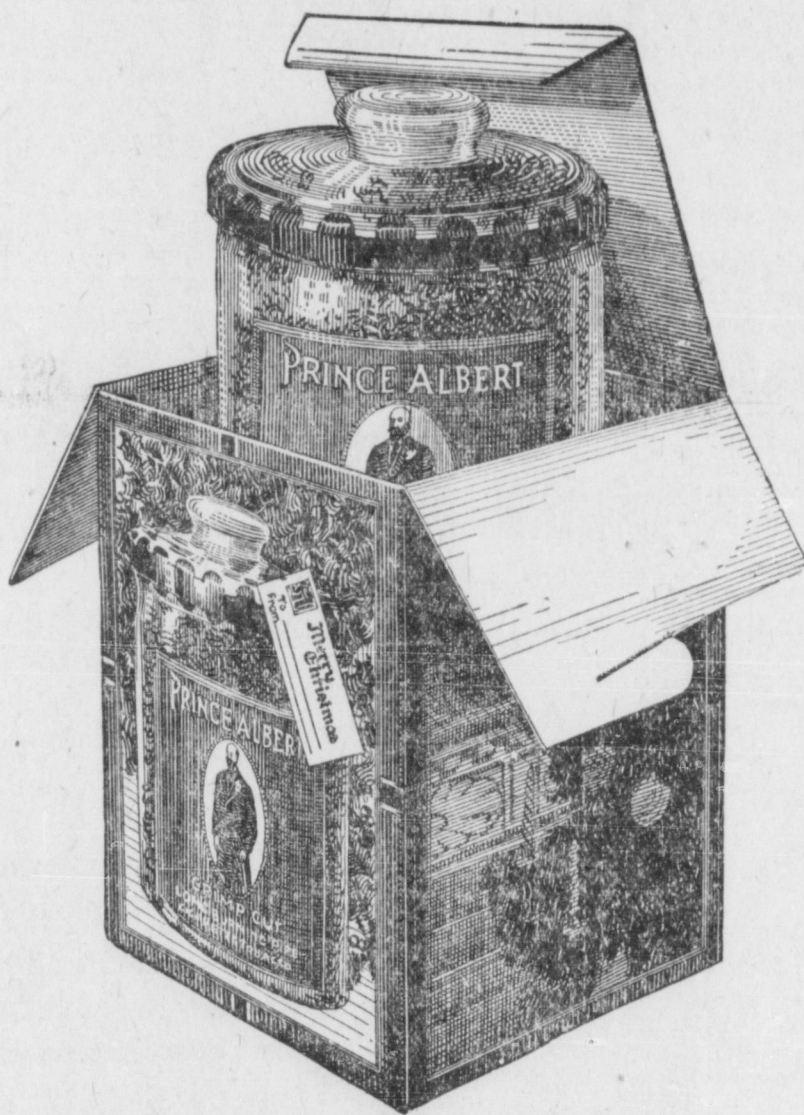

Then there are the pound and half-

pound tin humidors for the smoking-table at home, the desk at the office, the work-bench. More important than the containers (good-looking as they are) is the tobacco that's in them . . . Prince Albert, the most enjoyable smoke mortal man ever knew.

The pound crystal-glass humidor is especially arrayed in Christmas clothes. A space is provided for writing "To" and "From" No further wrapping needed. Convenient! No matter what the size or amount, give Prince Albert. You cannot do better!

PRINCE ALBERT

—no other tobacco is like it!

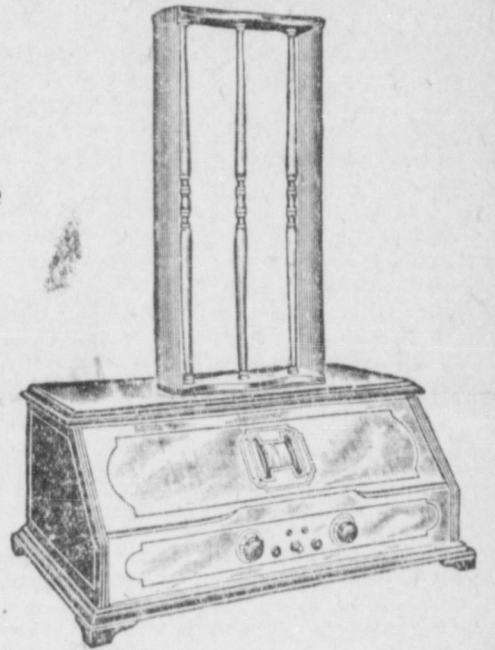

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and punch removed by the Prince Albert process.

Look at the U. S. revenue stamp—there are TWO full ounces in every tin.

RADIOLA 25—

is a super-Heterodyne, a circuit which has demonstrated that it meets every demand of the broadcast listener, with respect to selectivity, range, tone and volume. Six tubes, the last tube the New Radiotron U. X. 120, dry battery, power amplifier, which gives volume in excess of the average storage battery operated receiver, no antenna or ground, with this control, allowing sensitive tuning. The loop mounted directly on top of the case provides reception over extreme distances under favorable conditions. Radiola 25, complete with tubes, all "A" and "B" batteries, loud speaker, U. Z. 1325, loud speaker, installed **\$200**

MUSIC MASTER—Type 60—

is a five tube radio frequency receiver of special Music Master design, has full, round, natural tone, using three selectors for precise tuning. Music Master type 60, complete with following equipment, 5 R. C. A. 201 "A" tubes, Burgess B battery, Willard or Star radio storage battery, Brandes type H. loud speaker, 7 strand enameled copper antennae wire, glass insulators, lightning arrester, completely installed **\$116.50**

HARKNESS COUNTERFLES—

a 3 tube receiver in a beautiful cabinet, with slanting panel, which can beat most 5 tube receivers in operation, and of course the upkeep is less. A 5 tube set is not necessarily any better than a 3 tube set merely because it uses two more tubes. It is the amplification each tube furnishes that counts. Laboratory tests and direct comparisons in actual operation have conclusively demonstrated that the 3 tube Counterfles is just about as sensitive as the average good 5 tube set and this also applies to its volume. For reach and much more sensitive than the many cheap 5 tube and tone quality it is mighty hard to beat. Every purchaser of this receiver is an active booster. Dry cell or storage battery operated. Harkness Counterfles complete with 3 R. C. A. 201 A tubes, Brandes loud speaker, Burgess 9 O. U. "B" battery, "C" battery, Willard Radio storage battery, **\$106.50**
complete antennae, installed **\$94.00**
Harkness complete with dry cell installed **\$94.00**
