

"Kellogg's ALL-BRAN has entirely relieved me of constipation," writes grateful father

The ravages of constipation can be promptly stopped. Here is signed evidence.

Mr. Hunt's case is typical of thousands of others who have found habit-forming pills and drugs of no avail in seeking permanent relief from constipation. Read this interesting letter:

Kellogg's ALL-BRAN has entirely relieved me of constipation. Before I started using ALL-BRAN I was a regular taker of pills—always getting something to bring relief. Now I never touch them. I fully recommend it to anyone on the package. My daughter also eats ALL-BRAN and I can see her health improve.

(Signed) S. V. HUNT, Aurora, Ill.

New Big Ten Coaches Make Good At Tasks

By Edward C. Derr
(U. P. Staff Correspondent)
Chicago, Dec. 18.—(United Press)—

Many members of the coaching personnel of the Big Ten Conference have shown sufficient ability to make almost certain that they will become fixtures.

Although Yost and Stagg and Wilce and Zupke already are veterans in the art of coaching football, there have been new faces at some of the institutions and in practically every case the newcomer has made good.

Wisconsin is a shining example. Under the leadership of George Littenberg, who was trained in the Yost school of football at Michigan, Little may have had better material to work on than Ryan had or it may be that he knew how to work with what he had better than his predecessor. At any

changed from "Purple" to "Wildcats." Northwestern this year gave Michigan its only defeat, was the only team that scored against Michigan, and finished the season in a tie for second place.

And so Thistlewaite has two more years to go on his present contract and probably will be offered another one when that expires.

The 1925 season introduced "Doc" Spears to Big Ten football. Spears is a veteran coach coming to Minnesota from West Virginia, but he was new to the middle west and his accomplishments were closely watched. After getting off to a bad start, Spears discarded most of his first string players, including the captain, and put a team of sophomores on the field. Immediate improvement was noticed and the Gophers became a championship threat by defeating Iowa by the surprising score of 33 to 0. They lost to Michigan in the last game of the year, but Spears' first season was a success and he will have most of his men for two years more.

Burt Ingwersen at Iowa has done better than most fellows could have done in filling the shoes of Howard Jones and probably will coach Hawk-

eye teams for some time to come. Ingram at Indiana and Phelan at Purdue haven't made any teams to worry the rest of the conference but most any one will agree that it would take more than new coaches to put those institutions into the front rank so far as football is concerned.

There may not be a Rockne or Doble or Yost in this new group of coaches but most of them are here to stay for a while.

Liquidating Agent For Keystone Bank Is Named

Indianapolis, Dec. 18.—(United Press)—The First National Bank of Montpelier, has been named liquidating agent for the State Farmers Bank of Keystone, the banking commission was notified today.

The Montpelier institution was named at a meeting of the board of directors of the Keystone bank yesterday. The liquidating agents notified T. D. Barr, of the commission, that all depositors of the bank will be paid before Jan. 1, 1926.

Wall Street Declares Big Christmas Dividend

By Paul W. White
(U. P. Staff Correspondent)
New York, Dec. 18.—Wall street is declaring a \$50,000,000 Christmas dividend on its prosperity.

Following the most active 12 months in the history of the street, banks, stock exchange firms, law offices and investment houses are vying with each other in the distribution of bonuses to employees, who were hard pressed throughout the year to meet the steady influx of business.

In addition to the \$50,000,000 bonuses at least \$100,000,000 will have been paid in extra dividends of Jan. 1. Likewise thousands of employees have had an opportunity to buy stocks at considerably less than the market price.

Jennings County Woman Ill From Strange Malady

Indianapolis, Dec. 18.—(United Press)—Officials of the state board of health here are watching with a great deal of interest experiments being conducted in an effort to ascertain whether a case of anthrax has been discovered in Jennings county.

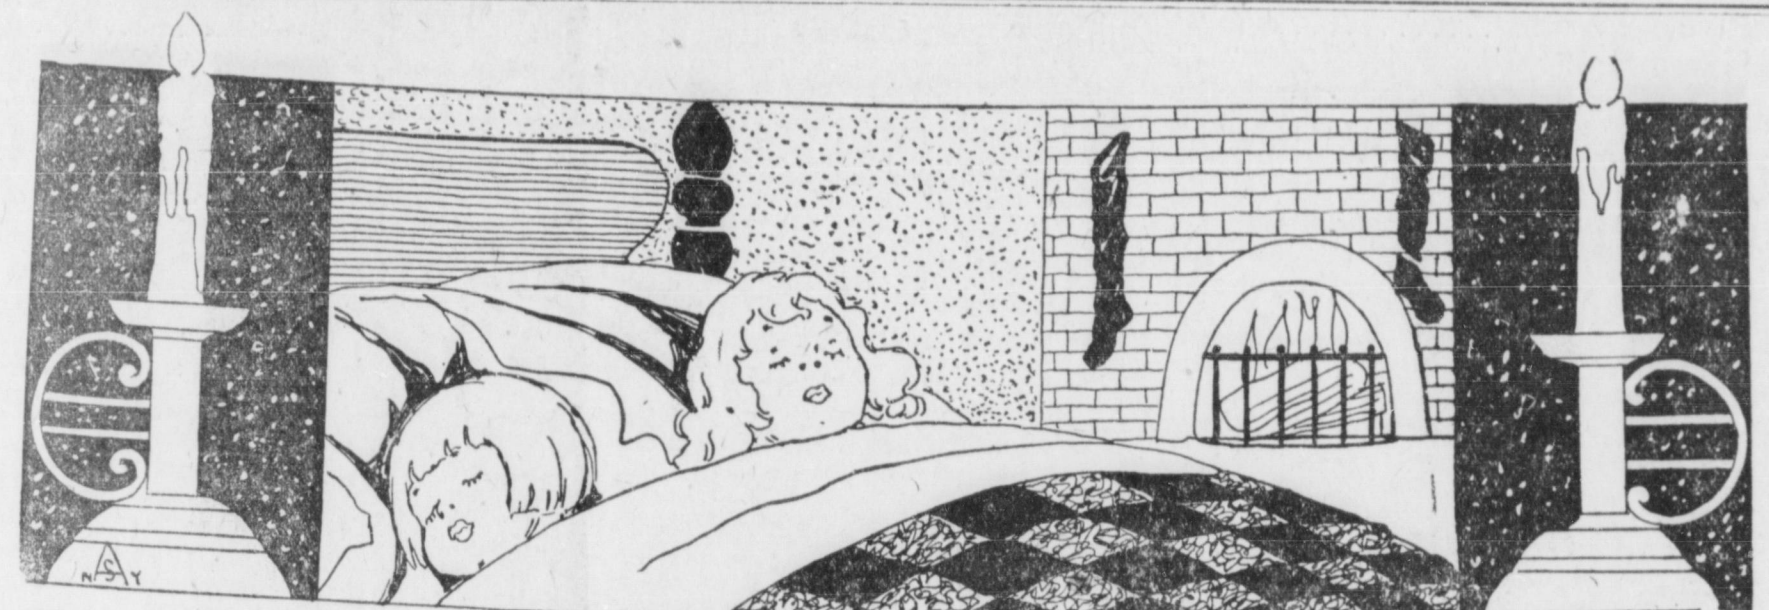

A North Vernon woman, who handles a considerable quantity of poultry recently became ill from a strange malady.

Dr. Norman Beatty, of the state board of health, who investigated the case took samples of the woman's blood and inoculated a number of guinea pigs in order to determine the effect of the germs.

Anthrax is generally an animal disease, the germs of which infect the pelts and skins and sometimes find their way into the human system as the result of abrasions on the hands of persons handling the dead animals.
