HEBBLE GARAGE AND P. L. MACKLIN BARN ARE BURNED

(CONTINUED FROM PAGE ONE)

impossible to salvage anything else. One automobile, an Overland roadster, was lost in the barn together with some valuable surveying instruments. Harness, a pony carriage, and other stored goods were included in the Macklin loss.

Sparks from the fire were blown for several blocks and it is the belief of many that had there not been a heavy snow on other buildings, the fire would have spread to several places. A large crowd of persons, hearing the fire alarm, braved the cold and snow and stood through the shivering weather until about 4:30 o'clock this morning, when the fire was under control.

Thirteen Cars in Garage.

Thirteen automobiles, eight belonging to P. B. Hebble, were destroyed in the garage fire. A Studebaker touring car, owned by Charles Hickman, was burned and others destroyed were owned by Charles Ward (Chevrolet touring); Daniel Stepler (two Ford touring cars) and a Buick, whose owner is unknown. Mr. Hebble lost two Chevrolet cars and six Fords, none of which were new machines. The loss in automobiles is thought to be about \$2,700. Mr. Ward was the only owner to have his car insured.

Office equipment and auto accessories, valued at more than \$2,000, cable would be repaired by tonight. Some goods purchased from the Hileman commission, valued at about \$2,000, also were reduced to ashes in the fire. Nothing was gotten out of the garage building.

Just Moved into Building

The proprietors of the garage, Mr. Hebble and Mr. Hickman, had moved their equipment from the old Chevrolet building on Third street last Saturday, and had only been open in their new establishment a few days.

Mr. Hebble conducted the sales and storage departments and Mr. Hickman managed the repair department.

Mr. Hebble's loss will be the largest, it is thought. None of his cars were insured and his accessories and fixtures were insured for only \$1,000.

The building was covered by a \$4,000 insurance contract. Mr. Macklin carried a small amount of insurance on his building.

The fire recalls to many Decatur people many other destructive blazes in this city during the month of December. Former December fires include the Schafer Hardware company, the Big Store, Tae Burt House, the Van Camp Mills and several others.

Cause is Unknown.

The cause of the fire this morning is disputed. Some persons are of the opinion that the explosion of the alcohol tank was the originating cause, while others believe that there was some other primary cause. Mr. Hebble stated that he did not believe alcohol could explode from combustion.

He is of the opinion that defective wiring some place in the building was the primary cause of the fire and that probably some hot wire fell on the alcohol barrel causing the explosion.

The Citizen's Telephone company suffered a loss of \$100 by the fire. A cable owned by that company was burned off. Herman Ehinger, manager, stated this morning that cable

Protect Your Valuables At Christmas Time

A THIEF

pays his visits where they are least expected. In one case a householder's mere carelessness, as shown by his leaving windows open or by the absence of burglar alarms, may be the sign that tells Jimmie the Prowler he isn't expected. And in another case it may be a superabundance of iron bars and padlocks that tells His Nibs you're looking the other way. In either case the knowledge that no one is on the watch gives him the drop on your three carat solitaire.

You carry fire insurance—and if your neighbor doesn't, you think he's first cousin to a lunatic. Yet there are four burglaries to every fire, and the losses through burglary are nearly double those caused by fire.

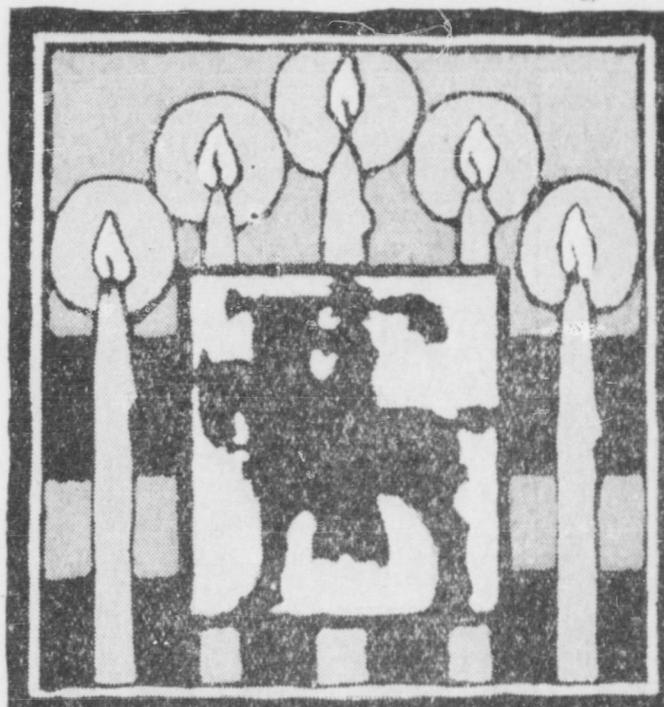

Why not protect your property with an Aetna Burglary Policy? We can't guarantee to keep the burglar out, but we will guarantee to make good your loss if he gets in. This policy even covers thefts by servants, and permits your residence to be unoccupied during four months of the year. It is issued by The Aetna Casualty and Surety Company, and has the strongest possible financial backing.

Burglary Insurance has also a distinct value in the protection of heirlooms and keepsakes, whether their intrinsic value is great or small, for it is a well established fact that the percentage of loot recovered is far higher where Burglary Insurance is carried than where there is no such protection. In other words, the man who is AETNA-IZED has complete protection.

The way to make him happy
is to give him something useful

A SUIT or OVERCOAT is a good example, every man would appreciate them. A BATH ROBE in silk or wool every man would like to own one. A SHIRT he can dress up in, of English broadcloth or madras. A rich SILK or WOOL MUFFLER always makes a hit. These are just a few of the many good things you'll find here.
