Daily Report Of Local
And Foreign Markets

OPENING GRAIN REVIEW

Chicago, Mar. 10.—(United Press)—Grain prices opened lower on the Chicago board of trade today.

Wheat opened sharply below yesterday's closing level. The biggest slump was in the May old delivery, which was off 2 1/4. May new dropped 2 1/8, July 1 3/4; and Sept. 5/8. The reason for the sudden decline after yesterday's close which placed the amount of wheat still on the farms at \$9,000,000 bushels above the figures of private estimates. The report was they were agreed that the report would be followed by a markedly bearish wheat market if not sharp declines. Liverpool opened fractionally to one cent under yesterday's final figures, apparently in sympathy with American slump. Argentine wheat opened about unchanged.

Corn opened fractionally lower. Traders in this grain predict lower prices in view of the fact that the government figures placed the number of bushels of corn in reserve at 16,000,000 more than had been privately estimated.

Oats also were fractionally under yesterday's final figures.

This grain gives every indication of being bearish for some time, the result of the government report as well as the usual dull trade.

Provisions opened unchanged.

Man Makes A Living
Being A Near-Victim

Shanghai. — (United Press). — One of man's most ingenious occupations has been invented in Shanghai.

A coolie arraigned recently in the International Mixed Court confessed to being a "near-victim" by profession. Police explained that for weeks past he had made it his business to loiter along one of the municipal roads most frequently by motorists.

When an automobile came along at a moderate pace, the near-victim waited until it had almost drawn up to where he was standing and then jumped directly in the path of the car.

With drivers still congratulating themselves and their brakes on having avoided a fatal accident, the near-victim found it a fairly easy matter to get a dollar or so as compensation for his shattered nerves. When the money wasn't forthcoming, he planted himself straight in front of the car and refused to budge, no matter what the threats of running him down.

The court ordered the man expelled from the International Settlement.

Mine Workers Committee
To Meet At Indianapolis

Indianapolis, Ind., Mar. 10.—(United Press). — Southwestern Indiana mine troubles and plans for the international miners' convention will come before a committee of the United Mine Workers' meeting here beginning March 22.

President John L. Lewis, of the union, announced today.

At the convention, new wage contracts must be considered by the mine union officials. A five-year contract with anthracite mine operators, recently negotiated as a climax to the four-and-a-half month strike of 153,000 miners, precludes discussion of a new contract in these fields.

Said Can't Be Done

"My experience with doctors and medicines caused me to lose faith in both, and when a friend told me that MAYR'S "One Dose Will Convince" would cure my stomach trouble I told him "it can't be done." However, he finally persuaded me to try it and to acute indigestion and gas having disappeared." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Here are some superior features of the Kokomo Pioneer Fence.

99 1/2% pure zinc galvanizing; the exclusive knot that tightens under strain; the coiled line wires that are live wires when stretched properly and that will absorb all expansion and contraction.

The knot with which the stays are fastened to the line wires puts Kokomo Pioneer Fence in a class by itself. Stays will not—CAN NOT—slip on the line wires, for the reason that the HARDER THE STRAIN, THE TIGHTER THE LOCK! Pressure and hard use merely tighten it. It's in the knot, you see—a knot that assures you that Kokomo Pioneer Fence will not sag and get out of shape throughout its long life. For farm and poultry uses, it can't be equalled.
