#### Journalistic Fraternity Holds Memorial Service

Greencastle, Ind., April 17.—(United Press.)—Members of Sigma Delta Chi, national professional journalistic fraternity, today observed the seventeenth birthday of the organization by the unveiling of a bronze memorial tablet here.

The tablet commemorates the founding of the fraternity by a group of DePauw men in 1909 who planned to take up newspaper work as a profession.

From the original chapter, Sigma Delta Chi has grown until it has a half hundred active chapters throughout the country and a membership of 5,000.

Indianapolis alumni and members of the chapters at DePauw, Butler, Indiana and Purdue universities were present today at the unveiling of the tablet.

Eugene Pulliam, editor of the Lebanon Reporter, and L. H. Millikan, of Indianapolis, told of the circumstances surrounding the establishment of the order.

Both were charter members of the DePauw chapter.

R. C. McMahan, of Purdue University, executive counselor of the national fraternity, accepted the gift of the Indiana members on behalf of the national organization.

Dr. Lemuel H. Murlin, president of DePauw, accepted the gift of the scribes on behalf of the university.

Guests from the national officers of Sigma Delta Chi were brought by Edwin O'Neil, Indianapolis alumni president, and William A. Evans, Indianapolis alumni secretary.

#### BLOOD SPILLED IN VAIN AT HERRIN, SAYS PSYCHOLOGIST

(CONTINUED FROM PAGE ONE)

groups—the Ku Klux Klan and those opposed to the Klan. What do they represent?

"The klansmen represent the spirit they have mistakenly called 'one hundred per cent Americanism'. They believe it to be their patriotic duty to destroy those who are not American born and of a certain religious belief. They will fight to the death for their cause."

"On the other hand we have the anti-klansmen, believing that the Klan itself is un-American, unjust, and a menace to American ideals. They believe that justice will not survive if the Klan predominates."

"Take these two classes, put them in a small city like Herrin where the rush of business is not too great to give them time for introspection, where there often are hundreds of men on both sides of the fight out of work, give them ruthless leaders, arm them with deadly weapons—and the riots which have disgraced Herrin, the state of Illinois, and the nation are almost certain to follow."

BLOOMINGTON—Two women, ejected from a local dance hall, staged a terrific no-decision fight in the streets of this city. Police stopped the fight before a K. O. was registered and both were booked on intoxication charges.

#### PETITION FOR A MACADAM ROAD

STATE OF INDIANA,  
COUNTY OF ADAMS, SS:  
Before the Board of Commissioners of the County of Adams, State of Indiana.

We, the undersigned, each and all of whom are resident adult, freeholders and voters of French Township, in Adams County, Indiana, respectfully petition your honorable body, that you construct and complete a free macadamized road in said township over and upon the public highway situated on the following route, to-wit:

Commencing at the north east corner of the north west quarter of section twenty-six (26) township twenty-six (26) north of range fifteen (15) east, in Adams County, Indiana; running thence south on the half section line through the center of said section twenty-six (26) over the already constructed highway to the south east corner of the south west quarter of said section twenty-six (26) in township and range aforesaid and there to terminate.

Your petitioners aver and say that the improvement prayed for is less than three miles in length, and connects at the commencement thereof with a free macadam road in French township and ends on the free macadam road in said township in Adams County, Indiana; that a United States Rural Mail Route passes over said highway and that the same will be of public utility and benefit.

Your petitioners further aver and say that the highway herein sought to be improved is a public highway already established and in use and is one of the public highways of said French township.

Your petitioners ask that said highway above described be drained and graded and that broken stone be placed upon the grade and that upon such broken stone there be placed stone screenings.

Your petitioners further ask that said highway above described be drained and graded and that the same be improved to a width of forty (40) feet, and that said highway be graded to a width of twenty-six (26) feet, and that broken stone be placed thereon to a depth of ten (10) feet, and to a depth of eight (8) inches at the sides thereof and to a depth of ten (10) inches in the center thereof and that crushed stone screenings be placed thereon to a depth of four (4) inches upon such broken stone and that said improvement be made a single track and that the name of the same be THE G. C. McCUNE, NO. 3 MACADAM ROAD.

That to pay for said improvement we ask that bonds be issued by the County of Adams in the State of Indiana in twenty semi-annual installments or series and for the payment of which we ask that a tax be levied upon the taxable property of said French Township, in a sufficient sum to pay the interest and principal of said bonds as they become due.

That said improvement be made and constructed and said bonds be issued and said tax be levied upon the taxable property of said township in accordance with the Acts of the Legislature of the State of Indiana passed in the year of 1905, beginning on page 550 and as amended in the Acts of 1909, now in force, providing for the extension of free gravel and macadam roads and all other and any and all amendments thereto.

We further ask the Board to take all necessary steps required by law to have said improvement constructed and made as petitioned for herein; that the same be constructed without submitting the question of building the same to an election of the voters of said French Township and that the Board construct the same under the laws of the State of Indiana providing for the extension of free gravel or macadam roads by township taxation.

Respectfully submitted: A. E. Biberstein, C. R. Stocky, Mrs. Jos. W. Schindler, Ed. Moeschberger, A. E. Rich, Joe W. Schindler, Sam Minger, Moses Augsburger, John J. J. Moser, M. K. #### Postman's Signals Distinguish Between Love Letters And Bills

San Francisco, (United Press).—Toot, toot goes the postman's whistle. You dash to the mailbox to get a love-letter—and you find only the grocery bill.

Such is the one of life's bitterest moments.

But they don't happen on the beat of E. C. Beauchamp, mailman on one of the apartment house district beats here. Beauchamp has watched the pleasures and disappointments the mail brings until he has almost an uncanny sense of what is a welcome letter.

So when a housewife hears him give the corbell two long rings she knows it is a letter from her absent husband. A young miss knows he brings a letter from her sweetheart.

But if one short brief ring greets their ears they know the postman has brought only a bill or a circular

letter.  
"It's just a little scheme of mine to make people happier," Beauchamp said modestly. "You soon learn about people's correspondence on your route. It isn't hard to tell which are letters they want to get and which are the unwelcome ones. After you've carried a few letters from someone's sweetheart, you know just what reception to expect. It's no harder for me to give the right signal and it saves them a lot of steps. They don't like to make a special trip downstairs for a circular or a magazine."  
Smiles greet Beauchamp's progress along his route, for his "patrons" know he won't fool them.

CITY HALL

Last year, General Electric workers made over eleven thousand suggestions. Of these, more than three thousand were adopted. Some of these thinkers were promoted for the value of their ideas, and to each of the three thousand came a bonus.

## Where It Pays to Think

There was a time when the man who made suggestions regarding his work was considered to be trespassing upon the prerogatives of the "boss."

But conditions have changed. The electrical industry is leading the way towards the use of brains rather than brawn. It wants men who think—all the time.

Today the men and women who think beyond their jobs, take advantage of training and educational facilities, and contribute to electrical progress, are definitely rewarded. Young men entering the industry find exceptional opportunities for study, training, and development.

This monogram is placed on each piece of electrical apparatus made by General Electric—tubes for X-ray work in hospitals, motors for vacuum cleaners, turbines for ocean liners, Mazda lamps for indoor and outdoor illumination. Wherever found it is a symbol of service in the progress of mankind.
