Burglar Fails To Follow Own Advice; Lands In Lock-up

Chicago, April 26—(United Press)—In recent essays on crime which he had composed for popular magazines, Vincent Despatch wrote that super-thieves always know the whereabouts of their victims.

Today Paschal is in jail on a burglary charge because he failed to heed his own advice. He was caught by his victim, George Williams, a broker in Evanston, Ill.

Paschal for several years has written for popular magazines, according to his own statements, on the science of crime. He has depicted various theories of the underworld and in them he always impressed that master criminals know the whereabouts of their robbery victims.

Yesterday Paschal watched George Williams leave his Evanston home. The "master crook" entered the home and started looting but Williams took only a short stroll to return and find the master criminal at work.

Marion—Evelyn Bradford, 8, was hit by an automobile while riding a "scooter" across the street. A part of her hair was torn from the scalp but she was not otherwise injured.

Surgery means the death of a part of the body. Spinal adjustments relieve pinched nerves and restore nervous activity and life to weakened parts. Try Chiropractic first. CHARLES & CHARLES Chiropractors Office Hours: 10 to 12—2 to 5 6:30 to 8:00 127 N. Second St. Phone 628

MARKET REPORTS

Daily Report Of Local And Foreign Markets

Chicago, April 26—(United Press)

Grain prices opened unchanged to fractionally higher on the Chicago board of trade today. Local markets appeared to have a stronger tone at the opening than was evident in the previous close.

Light world's shipments together with improved foreign markets pressed wheat here up fractionally in all deliveries at the opening.

Corn opened irregular, being fractionally up in the May and September deliveries and unchanged in the July.

East Buffalo Livestock Market Receipts 4000, shipments 3800, yesterday; receipts 7200, shipments, 4750, today; hogs closing steady. Heavies \$12.50@23; mediums, \$13@13.75; light weight \$13.75@14; light lights and pigs \$14.25@14.50; packing sows rough \$10.75@11; cattle, 1750, generally steady; steers 1100 pounds up \$5.50@11; steers 1100 pounds down \$6.50@9.50; best yearlings \$10; heifers \$6@9; caws \$5@9; 1400; best wook lambs \$16@16.25; best clips \$14.75@15; best short cull lambs \$13.50@14; best clipped yearlings \$12@12.50; best clipped aged weathers, \$9.50@10; best clipped ewes \$8@9; calves 2800; tops \$13.50; culls \$10 down.

COURT HOUSE

Case is Dismissed

In the case of the state of Indiana on relation of Winifred Somers against Lester McFadden, the prosecuting witness, Miss Somers, filed a written dismissal of the case and an admission that provision for the maintenance of her child has been made satisfactory to her. The court dismissed the case.

Reset for Trial

The case of Flora E. LaFontaine vs. Charles E. Caylor has been reset for trial on June 7.

Case Dismissed

The case of Frank Orndorff vs. Jonathan Rumphe has been dismissed on motion of the plaintiff.

Claim is Allowed

In the case of Amos C. Miller vs. the Hervey Steel estate, the claim of the plaintiff for \$350 was allowed.

NOTICE TO TAXPAYERS

Notice is hereby given that MONDAY, MAY 3, 1926 will be the last day to pay your Spring installment of taxes. The treasurer's office will be open from eight a. m. to four p. m. during the tax paying season. All taxes not paid by that time will become delinquent and a penalty of ten per cent will be added. Do not put off your taxes as they must be paid and the law points out the duty of the county treasurer. Those who have bought or sold property and wish a division of taxes to come in at once. Don't wait for the rush. No receipts can be laid away for anyone so please do not ask for it. 32 to May 3. LOUISE KLEINE, Treasurer of Adams County.

Lesson for May 2

GOD'S COVENANT WITH NOAH

LESSON TEXT—Genesis 8:20; 9:27. GOLDEN TEXT—I do set my bow in the cloud, and it shall be for a token of a covenant between me and the earth.—Gen. 9:13.

PRIMARY TOPIC—The Promise of the Rainbow. JUNIOR TOPIC—God's Promise to Noah.

INTERMEDIATE AND SENIOR TOPIC—The Story of Noah. YOUNG PEOPLE AND ADULT TOPIC—God's Dealing With Noah.

In order to grasp the meaning of God's covenant with Noah, the whole story of the flood should be clearly in the mind of the teacher and the pupil.

I. The Cause of the Flood (6:1-8). It was apostasy from God. The two types of men we saw in Cain and Abel (the one of proud self-will, the other of humble faith), developed on diverging lines, but as they multiplied they came into contact and intermarried.

II. The Ark the Way of Salvation (6:14-7:24).

Although all flesh had corrupted its way before God, in His mercy provision was made for such as would avail themselves of it. Christ is the ark into which all who enter are eternally saved. As all outside of the ark perished, so all outside the redemption of Christ shall perish (Mark 16:16; II Thess. 1:8, 9; John 3:18, 19, 36; I Pet. 3:18-22).

Observe in connection with this judgment and provision of salvation: 1. The long-suffering God—He waited 120 years.

2. Noah, a preacher of righteousness (II Pet. 2:5).

God not only waited long, but through Noah sounded forth intelligent warnings.

3. God will not withhold His anger forever. At the appointed time the flood came and everything perished outside of the ark.

III. Beginning Life Upon a New World (Gen. 8:20).

This was a most solemn hour for Noah. With the fresh consciousness of God's hatred and judgment of sin, Noah faced the responsibility of giving shape to the life which was beginning upon the cleansed earth. He was to replenish the earth. Happily Noah began right, for he began with the act of worship.

IV. The Covenant With Noah (8:21; 9:27).

God was well pleased with Noah's act of devotion. Because of this He entered into a covenant with him embracing the following elements:

1. Assurance of the perpetuity of the race (8:21, cf. 9:17).

The bow was set in the cloud as a token or guarantee of this.

2. The security of the order of nature (8:22).

We know of the succession of the seasons and the ongoing of the system of nature only because of the guarantee of Him who controls them all.

3. Establishing the privileges and responsibilities of Noah and his descendants in their relation to the earth (9:1-4).

(1) The earth to be replenished (v. 1).

(2) Dominion restored. The dominion which was lost through the fall of man was now restored, but on the ground of fear.

(3) Animal food given. Heretofore man subsisted on a vegetable diet (Gen. 1:29).

4. Human government established (9:4-6).

The sword of justice was placed in man's hands and man was to be ruled by man. This sword has never been removed (Rom. 13:1-7).

5. The destinies and interrelations of the three great branches of the race fixed (9:18-27).

(1) Cursed be Canaan (v. 25). The descendants of Ham were reduced to the lowest condition of servitude. This was partly fulfilled in the time of Joshua in their being partly exterminated and partly reduced to the lowest form of servitude, and also in the time of Solomon (Josh. 9:23; I Kings 9:20, 21), and it is still in the process of fulfillment in that for the most part Canaan's descendants are the world's servants.

(2) Blessed shall be Shem (v. 26). This was fulfilled in making the Jewish race the repository of religious truth and ultimately in Christ the promised seed.

(3) Enlargement of Japheth (v. 27). This was fulfilled in making him the progenitor of peoples and multitudes (10:5); also in the civilization which has been brought to the world through him.

Christ and the Resurrection

Let the science of historical investigation be rigorously applied to the resurrection of Jesus. Christianity will not fear the proof. For it has pleased God that this crowning seal put to His Son's life should be sustained and guarded by an amount of proof such as no other fact in ancient history can boast; so that no honest searcher for truth might be left in doubt that Jesus of Nazareth has been declared to be the Son of God with power.—I. Oswald Dykes.

BROTHER OF H. C. CLARK IS DEAD

Emmett Alexander Clark Dies At Home Near Normanda, Friday Morning

Mr. and Mrs. H. C. Clark and Mr. and Mrs. Arthur Clark and son, Henry Clinton of this city, returned last night from Goldsmith, Indiana, where they attended the funeral of Emmett Alexander Clark, 53, a brother of H. C. Clark, who died at his home near Normanda, Friday morning, at 6:45 o'clock. Death was due to cancer of the bowels. Mr. Clark had been ill for the last six months. He had been taking treatments at Kokomo for several months for gall duct trouble, and it was only recently that his trouble was diagnosed as cancer of the bowels.

Mr. Clark was born in Hancock county, September 21, 1872 and was a son of Reuben B. and Agnes Davis Clark. In August, 1904, he was married to Miss Zora Beard, of Normanda, who died later in the same year. Mr. Clark was married to Mrs. Sadie Pritchard, of Normanda, in 1908. Two children were born to this union, both of whom survive. They are Luella Belle, 15, and Velma Louise, 12. Mr. Clark is survived by his widow; two daughters; five stepchildren, Mrs. Andrew Terhune, of Normanda, Mrs. Garland Goodnight, of Cicero, Mrs. Clarence Perkins, of Kokomo, and Guy and Ted Pritchard, at home; three sisters, Mrs. Ann Hughes, of Alexandria, Mrs. Belle Cress, of Kokomo, and Mrs. Ida King, of Russellville; and one brother, H. C. Clark.

The deceased was one of the highly esteemed men of the community, and had been actively identified with the community interests. He was a former member of the Baptist church at Jackson, but had not transferred his membership. He was a member of the I. O. O. F. lodge at Goldsmith, also.

TELLS HOW TO GROW SOYBEANS

County Agent Gives Pointers On Best Method Of Sowing Crop

(By L. M. Busche, County Agent)

One of the greatest objections offered to soybeans is the fact that they are often very weedy. This is not the fault of the crop, but is due to the methods used in growing it. A clean crop of beans can be produced if the following suggestions are observed.

Plow the ground as early as possible. Work it down as for corn and after waiting a few days to permit the small weeds to start, harrow and disc to destroy them. Then if possible again kill the weeds which have

More energy will increase your earning ability. IT is the red blooded people who win success in this world! Red blood gives men and women the vitality—the energy—the strength and the activity to earn what they deserve! Nobody can do justice to themselves when they are suffering for want of rich, red blood. It is this impoverished condition of the blood that causes so many failures in life. There's no place at the top for the weakling—the man and woman with poor, weak blood. Build up your blood! Get in the red-blooded class—and get the rewards you deserve. S. S. S. will do it for you! S. S. S. helps Nature build millions of red-blood-cells! S. S. S. sends rich, red blood tingling to every fibre of your body and every pore of your skin. You are fairly radiant with energy, vim and vitality. You'll look like success, too! The rich, red blood that S. S. S. helps Nature build for you will clear your skin of any ugly blemishes—your eyes will sparkle with enthusiasm—firm, solid flesh will round out your figure—strength and power will come to weak, flabby muscles. All drug stores sell S. S. S. The larger bottle is more economical.

sible wait a week or ten days and germinated.

Do not sow soybeans earlier than the last week in May. Soybeans are a hot weather crop and will not grow at all rapidly during the cool May weather. Just as much hay may be expected and the hay making time will not be delayed when beans are sown around June 1 instead of May 15.

Soybeans should be sown as shallow as possible. Many failures have been recorded due to seeding them too deep. When sown for hay one and one-half bushels per acre should be used. One bushel per acre is sown when intended for seed production. Sowing "solid" with the

ordinary wheat drill is the most popular method.

When the soybeans are four to six inches high they should be cross-harrowed with a spiked tooth harrow. This kills any small weeds and makes a clean crop. The harrowing should be during the best of the day to prevent breaking them.

Brazil—Chief of Police Amos Full locked two strangers in the city jail after charges of speeding and driving a car without proper license plates had been placed against them. They were quickly released, however, when it was found that one was an Oklahoma sheriff and the other was his prisoner.

Gasoline Costs and Prices

Since 1913 every factor entering into the manufacture of gasoline shows a substantial increase in cost.

Yet, the Standard Oil Company (Indiana) has been able to manufacture gasoline and sell it in 1926 at a price only a trifle higher than the 1913 level.

The significance of this accomplishment is made plain by a brief survey of the facts.

In April, 1913, the Standard Oil Company (Indiana) paid 88c per barrel for crude oil. In April, 1926, this Company pays \$2.04 per barrel, or an increase of nearly 132% for this basic raw material.

During the same period, the wage scale at the Whiting Refinery of the Standard Oil Company (Indiana) advanced from 71% to 137% for various types of labor, skilled and unskilled.

These increases in wages and in the cost of crude oil are typical. All other factors entering into the production, manufacturing, and distribution of petroleum and its products also have increased at a spectacular rate.

With such increases in the cost of all major items entering into manufacture, it might be expected that a proportional rise in the selling price of the finished product, gasoline, would be asked.

But, this is not the case. Skillful management with intensive and intelligent economies have all but offset these increases.

On April 1, 1913, the Standard Oil Company (Indiana) Chicago tank wagon price for gasoline was 15c per gallon. On April 1, 1926, this price had advanced to only 17c per gallon—an increase of only 13 1/3%.

That credit is due the Standard Oil Company (Indiana) for operating in such a manner as to keep gasoline prices at a low level in spite of such increasing costs is too obvious to require elaboration.

It is sufficient to observe that this achievement on the part of this Company is an interesting, tangible result of rigid adherence to an ideal, plus an indomitable will to serve.

For the objective of the Standard Oil Company (Indiana) always has been and always will be to supply the 30 million people of the middle west with the best quality petroleum products at the lowest possible price.

The Standard Oil Company (Indiana) will continue to devote all of its resources, its experience, and its skill to the achievement of this objective, which is associated so intimately with the affairs of every man, woman, and child in the middle west.
