Bandit Killed By Police After Hold-up

Chicago, July 17.—(United Press.)
—A 19-year-old youth was shot and
killed by police late last night after
he and a companion had held up a
University of Chicago co-ed and her
student escort in Chicago's exclusive
Hyde Park district.

The dead holdup man was identi-
fied as Bernard Carmichael of Milan,
Mo. Papers in his pockets indicated
that he also was a student at a local
university. He was struck in the
temple, dying on the way to a hos-
pital. The other robber escaped down
an alley in a hail of bullets.

The two had robbed George Gray
and Miss Laverne Lane, both Uni-
versity of Chicago students, of \$14
and were walking nonchalantly down
the street when police arrived.

CORN FORECAST LOW AT PRESENT

Lafayette, Ind., July 17.—Despite a
one per cent increase in acreage, In-
diana's corn forecast on July 1 of
148,072,000 bushels is one of the poor-
est in many years except 1924, being
about three quarters of last year's
crop, according to the department of
agricultural statistics at the Purdue
agricultural experiment station in the
crop report issued today. A late
start, cool June weather and unfavor-
able rainfall in many sections ham-
pered the corn during the last month.

Wheat is 85 per cent normal and the
estimate is 27,629,000 bushels. Har-
vest is late but fields generally
promise a yield above the average.
Oats acreage showed an increase this
year and estimated production is set
at 65,400,000 bushels compared with
59,052,000 bushels harvested last
year. Rye is 85 per cent normal with
production estimated at 2,422,000
bushels. White potatoes promise 4-
461,000 bushels while sweet potatoes
are 75 per cent of normal and fore-
cast only 198,000 bushels.

Tobacco is rather weak, with a 21
per cent decline in acreage and the
17,000 acres are expected to produce
13,651,000 pounds. Tame hay acre-
age is down 100,000 from the poor
clover catch in 1925. Alfalfa con-
tinues to increase rapidly, a 20 per
cent increase making the present
acreage 248,000 compared with 115-
000 two year average condition.

The apple crop is forecast at 3-
030,000 bushels, 12 per cent greater
than last year and the peach season
is well along with a crop of 888,000
bushels forecast. This is the largest
since 1916. Pears promise a crop of
316,000 bushels and a grape produc-
tion 69 per cent greater than last

year is indicated.
With the late season and the start
of harvest there are now 97 men for
every 100 jobs whereas there were
98 last month and 106 last year. Farm
wages are reported to be \$5.50 higher
by the month and 10 cents higher by
the day than a year ago. The rate
now by the month is \$37 with board
and \$45 without.

Gary Hi-Y Boys Opposed To "Ultra-Modern" Girl

Gary, Ind., July 17.—(United Press.)
—High school boys of Gary, members
of the local Hi-Y club, have gone on
record as opposed to the "ultra-mod-
ern girl" with her cigarettes, kin and
lack of clothes. The lads say they do

not condemn her but rather make her
an object of pity because of her de-
sire to "show off."

These revelations were brought out
in recent discussions conducted by
the Gary Hi-Y club in which the lads
of the city outlined their views on this
and many other topics of wide inter-
est and importance.

Jim Hendricks, of Monroe, was a
business visitor in the city today.
