## THREE NEW OIL WELLS BROUGHT IN NEAR BERNE

(CONTINUED FROM PAGE ONE)

or better. Schulte and Haney are drilling a test well on the Ed Luglin-bill farm, also in Blue Creek township, and expect to start No. 8 on the Schulte farm at once.

### Sacknett Gets Producer

G. S. Sacknett, of Pittsburgh, Pa., shot his No. 2 well on the H. L. Sipe farm, Blue Creek township, Tuesday. Indications are that this well will produce 20 or 25 barrels. Gelatin was used in shooting this well.

Several new locations were made in the Berne field yesterday for test wells. Harmon and Watts will move at once to No. 3 on the Smitley farm, their location being 500 feet east of No. 2. The same parties will move at once to No. 7 on the Niblick farm, which is located near the Smitley farm.

W. E. McKelvy has moved to No. 2 on the William Bollenbacher farm in Jefferson township. Alvin C. Spindler, of Pittsburgh, Pa., is planning to drill a test well at once on either the Willson or Nancy Reynolds farms in Jefferson township. The Wilson lease is a direct offset to the new Smitley well. "Dad" Rendall and W. E. McKelvy will drill their offset to the Smitley well on the Joe Peel farm in Jefferson township. G. S. Sacknett probably will offset the new Smitley well to the south on the Dan Boze 80-acre farm. M. S. Daugherty, of Washington Court House, Ohio, a brother of Hugh M. Daugherty, former attorney general of the United States, and William Kelly, of Geneva, are drilling No. 1 on the B. Parr farm in Wabash township.

### Well Material Shipped

Ray Grim, of Fort Loramie, Ohio, will ship an outfit at once for a test well on either the McDaniel or Zehr farms, south of the 50-barrel well on the Niblick farm. Fink and Smith will move soon to their No. 2 well on Mrs. Dan Hawbaker's farm, Wabash township.

G. S. Sacknett has shipped in a carload of oil well material, enough for a large number of wells and has moved the same to the John Parr farm, east of the Niblick farm.

There are 23 producing wells in the new Berne field and a large number of wells are being drilled at present. Numerous strangers are in the field now, some of whom are prospective drillers, while others are said to be lease speculators.

### Dry Hole in Wells County

A well drilled on the Harris farm in Nottingham township, Wells county, a few days ago, proved to be a dry hole. The sand struck was fine and not of the variety in which oil is found. The well will not be shot. The hole was deeper than those usually drilled in that territory. No other well will be drilled in that vicinity at present, it is said.

A well drilled south of Portland last week by the Bisel Oil company, will not be put to pumping for some time, because the indications are, according to the company, that it will be necessary to set for a time for the purpose of testing it out later. The rig is being moved to the Jesse Bentz farm where No. 2 will be drilled by the Bisel company.
