Quaker Oats
"stands by"
you through
the morning

Important for Children
and Grown-Ups Alike

HOW you feel all morning depends largely on what you eat for breakfast. Thousands have unenergetic forenoons because of wrong breakfast eating.

To feel right, you must have a well-balanced, complete breakfast ration. At most other meals—lunch and dinner—you get it. But breakfast is a hurried meal, often badly chosen.

Thus Quaker Oats, containing 16% protein, food's great tissue builder, 58% carbohydrate, its great energy element, plus all-important vitamins and the "bulk" that makes laxatives seldom needed, is the dietetic urge of the world today.

It is food that "stands by" you through the morning. Food that should start every breakfast in your home.

Quick Quaker cooks in 3 to 5 minutes. That's faster than plain toast. Don't deny yourself the natural stimulation this rich food offers you.
