Bell Company Wants to Revise Night Call Rates

Indianapolis, Ind., Aug. 24.—(United Press)—A petition of the Indiana Bell Telephone Company for a revision of night calls was before the State Public service commission today.

Rates on calls between 7 and 8:30 o'clock at night would be cheaper while there would be a slight increase in charges on calls between midnight and 4:30 o'clock in the morning under the provisions of the petition.

Officials of the Telephone company estimate the new schedule would cause a decrease of more than \$18,000 in the yearly revenues of the Indiana Bell. They say the change would result in improved telephone service.

Request is also made in the petition

for authority to permit telephone users to reverse charges on station to station calls.
