Stockholder's Meeting

Notice is hereby given that the annual meeting of the stockholders of the Citizens Telephone Company, of Decatur, Indiana, will be held at the office of the secretary of said company, in the city of Decatur, Indiana, on

Monday, September 5, 1926 at 7 o'clock p. m. for the election of five directors to serve for the ensuing year for the transaction of such other business as may be properly brought before said meeting.

HERMAN F. EHINGER, Secy. 199-to Sept. 6.

APPOINTMENT OF ADMINISTRATOR

Notice is hereby given that the undersigned has been appointed Administrator of the estate of Jacob C. Bevington, late of Adams county, deceased. The estate is probably solvent.

SYLVESSTER C. TINKHAM, Administrator. J. W. Teeple, Attorney. August 28, 1926. Aug 31, Sept 7-14

NOTICE OF FINAL SETTLEMENT OF ESTATE

Notice is hereby given to the creditors, heirs and legatees of Robert Schwartz, deceased, to appear in the Adams Circuit Court, held at Decatur, Indiana, on the 15th day of September, 1926, and show cause, if any, why the final settlement accounts with the estate of said deceased should not be approved; and said heirs are notified to then and there make proof of heirship, and receive their distributive shares.

ROSA SCHWARTZ, Executrix. Decatur, Indiana Aug. 31, 1926. Atty. Lenhart Heller & Schurges Aug 24-31

### Commander Rodgers Is Buried On Anniversary Of U. S.-Hawaiian Flight

Washington, Aug. 31.—(United Press.)—A year ago today at 3 p. m., Commander John Rodgers set out on a history-making airplane dash across the Pacific ocean; today at 3 p. m., he is to be buried in Arlington cemetery along side other heroes who have given their lives for the navy.

Simple service such as might attend the burial of a man of the ranks has been arranged for the air pioneer who was crushed when his plane fell in Philadelphia last Friday.

### Sen. Reed Opposes Repeal Of Missouri Dry Law

Kansas City, Mo., Aug. 31.—(United Press.)—Declaring "you cannot make a saint by statute," Senator James A. Reed, Missouri Democrat, has come out in opposition to the repeal of the Missouri dry law but stated he favored regulation of the liquor traffic. The senator asserted his belief that not all existing state statutes imposing liquor restrictions should be repealed.

#### Judge Killed; Wife Wounded

Waukegan, Ill., Aug. 31.—(United Press.)—A posse of citizens and sheriff's deputies today sought gunmen who late yesterday shot and killed Lamar Smith, probate judge, and wounded his wife.

The judge and Mrs. Smith were shot in their home when two loads of buckshot were fired through a window. Smith died a few hours later at a Montgomery hospital. His wife is expected to recover.

### Stores In Valentino's Home Town Are Closed During Actor's Funeral

Castellana, Italy, Aug. 31.—(United Press.)—All stores were closed during Rudolph Valentino's funeral as the people of his birthplace sought to show their sadness at his death. The memorial service was held in the main church. The flag on the municipal building was at half mast.

### Mellon And Hughes Confer With Briand

Paris, Aug. 31.—(United Press.)—Secretary of the treasury Andrew W. Mellon, and former secretary of state Charles Evans Hughes were received by foreign minister Briand today. The Americans saw the former premier separately.

"It was a conversation of policy rather than of finances," a Quia D'orsay spokesman said referring to the meeting between Briand and Mellon.

Ed Busse motored to Huntington last evening where he visited friends.

### Lodge Worker

JOHN C. SNYDER

To be chosen as the head of an organization representing 5,000,000 American men and women is a significant honor and, consequently, the members of the Tribe of Ben-Hur in this city are rejoicing in the election of their Supreme Chief, John C. Snyder, of Crawfordsville, Indiana, as president of the National Fraternal Congress of America, at its meeting at Buffalo, this month. Mr. Snyder, a firm believer in the fraternal system, established as it now is on the firm foundation of adequate rates and actuarial solvency, and his election emphasizes the determination of the Congress to resist the movement to commercialize the societies by modifying the lodge system.

### Interstate Telephone Rates Slashed Greatly

New York, Aug. 31.—(United Press.)—Drastic downward revision of interstate telephone toll rates, effective Oct. 1, which will save the nation's telephone users approximately \$3,000,000 annually, were announced today by the New York telephone company. The reduced rates apply to the entire Bell system, reductions ranging from 25 to 40 per cent of present rates, largest slashes applying to greater distances.

The cut rate period, now starting at 8:30 p. m., will be lengthened, starting at 7 p. m.

Long distance cables, carrier systems, vacuum tube repeaters, loading coils and other improved devices and methods have effected economies or the distance circuits making the reduction possible, the company announced.

#### Plans For Free-For-All Swim Are Progressing

New York, Aug. 30.—(United Press.)—Promotion of a free-for-all swim from the coast of California to Catalina islands, 23 miles out in the Pacific progressed today. A \$100,000 purse appeared possible, as swimmers and promoters started to capitalize in the public interest in swimming.

The second best inducement to Gertrude Ederle, Mrs. Clemington Corcoran, was a \$50,000 offer to swim around Manhattan Island for \$50,000. Miss Ederle's lawyer was casting around for the most advantageous offer.

Dudley Field Malone, who finances Gertrude's channel undertaking and is serving as her manager and legal advisor now, said the offers for her pulchritudinous services mounted to a \$950,000 total with the arrival of a ten-week vaudeville offer at \$5,000 a week.

### Mothers Blamed For Wild Orgies Of Youths

Chicago, Aug. 31.—(United Press.)—Failure of mothers to advise their children on the healthy and normal knowledge of sex is in a great part responsible for the "petting parties" and wild orgies of modern youth. Mrs. Alfred J. Howells, New York City, told women gathered at the Illinois vigilance association conference.

"A desire to be shocking, to be fashionable and keep up with their crowd leads girls to smoke and drink," she declared. "But as long as mothers continue to smoke and drink, it is improbable that the younger set will discard the habits."

Mrs. Howells, a special counsellor for high school girls, charged that the foes of prohibition encourage drinking among the young to provide an argument for repeal of the dry laws.

#### Has Fine Exhibit At Fair

Everett Nash, of Lipsaig, Ohio, who is a breeder of Duroc hogs and Rambouillet and Delaine sheep, is exhibiting several animals at the Northern Indiana fair this week. Among them are an 18-month-old male hog weighing 700 pounds; a 4-year-old sow weighing 300 pounds; and a 4-year-old Rambouillet sheep that produced 46 pounds of wool at the close of the circuit of fairs last year.

## FERTILIZER IS AID TO WHEAT

### Application of Fertilizer Saves Labor and Increases Yield of Crop

(By County Agent)

There are many wheat growers in Adams county who produce each year around 600 bushels of wheat on 20 acres. There are others—too many, perhaps—who have to plow, plant and harvest twice that acreage to have the same number of bushels.

In the first case, the 600 bushels are grown by an expenditure of power, labor and seed on only 20 acres; the other case requires expenditure of power, labor and seed on 40 acres, and with the same final outcome—600 bushels. Does it not seem that there has been a waste of a great part of the "25 acres of labor, power and seed" on low-yielding fields? And which way nets the most "dollars and cents" for the "dollars and sense" invested? The answer is obvious.

Wheat growers need not be reminded that liberal use of fertilizer reduces the amount of labor invested in a given number of bushels of wheat. With the price of fertilizer only 20 to 25 per cent higher than before the war and with labor costing nearly 100 per cent more than for the same period, there are substantial advantages to be gained by replacing labor, so far as possible, with commercial fertilizer.

The saving in labor and the higher net profit from each bushel alone are sufficient reasons for making each acre do its best. There are not all, however. Among other benefits to be derived from adequate fertilization of wheat, there is one outstanding benefit which demands recognition, namely, the residual effect on the clover or timothy and clover seedings made with the wheat. To illustrate, the Delaware Experiment Station found that the use of 22 pounds ammonia, 40 pounds phosphoric acid and 60 pounds potash to the acre has not only made good money on the wheat for which it was applied but, as an average of 9 years has increased the hay crop following by 1961 pounds of lime land, and 163 pounds of the unfertilized land. Results in Ohio, Pennsylvania, Maryland, New York and other states, both in experimental work and from actual farm experience, leave no doubt as to how the fertilization of wheat will effect the hay crop seeded in it.

This residual effect is worth so much that it should be taken into account well in advance of wheat planting and due allowances made for it in deciding upon the fertilizer analysis and rate of application. When the opportunity is given to reap two profits from one application of plant food it will pay to make those profits as large as possible by using amounts of fertilizer in accordance with what is expected of it.

The usual practice is to apply from 10 to 15 pounds of 16-16-16 fertilizer. Considering a better yield of wheat and the added profit through the effect on the clover seeding, it is worth while increasing the rate to 25 or 30 pounds per acre. Much experimental data is available to show the soundness of this practice.

Since wheat is a leading cash crop on many farms in the county and will assured benefit from liberal fertilization of this crop, there appears to be every opportunity of making "more cash from the cash crop" by use of heavier applications of commercial plant food at time of seeding the 1927 crop.

### Two Auto Accidents Occur Near Berne

Berne, Aug. 31.—Automobiles driven by Roman Miller and Scott McDaniel collided on the Berne Pike east of town last Saturday night. Both drivers dimmed their light, but another car, behind Miller, blinded McDaniel and he could not see the road. In trying to avoid a collision, Miller steered his car to one side and struck a telephone pole. The McDaniel car then struck the rear of Miller's car.

### CHICAGO

and return ..... \$3.50 via

### ERIE RAILROAD

SUNDAY, SEPTEMBER 5

Tickets good in coaches only going on train No. 7 leaving Decatur at 2:48 a.m. Returning leave Chicago 10:20 p.m. Central time.

For further particulars call G. E. Teems, Ticket Agent

No one was seriously injured. Another automobile accident occurred five miles east of Berne, when a Studebaker sedan, driven by Walter Gilliom, struck a Ford coupe driven by Robert Haacker, at a narrow bridge. Haacker had stopped his car to permit a flock of turkeys to cross the road ahead of him. The Studebaker sedan was travelling 30 or 35 miles per hour and Mr. Gilliom could not stop his car quick enough to avoid striking the Ford in the rear. The Ford went over the eight-foot embankment and turned over on its side. None of the occupants of the two cars were seriously injured.

### Western Union Ceases Custom Of Giving Time To Telephone Inquirers

New York, Aug. 31.—(United Press.)—The Western Union today discontinued giving the time to telephone inquirers.

The time-honored practice was discontinued by the telephone company during the war and now the Postal Telegraph is the only agency available to inquirers. Western Union reported it was handling 25,000 such calls a day at heavy cost in New York alone.

## PUBLIC SALE

605 Short Street, near North Ward school, Decatur, Ind.

Saturday, Sept. 4, 1926
