COURT HOUSE

Sheriff's Sale

A house and lot located on Mercer avenue, belonging to D. D. Coffee, was sold at sheriff's sale at the court house Tuesday. Julia C. Coffee bid in the property at a figure equal to the judgment, interest and costs. Mr. Coffee has one year's time in which to redeem the property.

Bluffton—Warning of a "speed trap" on the Pendleton pike at Ingalls has been posted for benefit of motorists enroute to the Indiana State fair. (The town is alleged to maintain a pair of trick "stop and go" signs with a constable to grab unsuspecting motorists.)

Wabash—State police will be placed on State road 7 near here to check alleged speeding by bus drivers. Two buses have left the road within the past week trying to pass State road workers at an excessive rate of speed.

Pain is telegraphed to the brain by way of the nerve lines. Pressure anywhere on nerve lines causes weakness and pain which adjustments remove.

POSTPONEMENT OF FAIR OPENING

(CONTINUED FROM PAGE ONE)

by tonight. The premium awards will be announced in the Daily Democrat as quickly as they can be compiled. Late this afternoon, it was not known whether the night fair tonight would be opened or not, depending on whether the rain stopped soon enough. It is probable, however, that the gates will not open until early tomorrow morning.

More than 100 horses are at Belmont park ready to participate in the race events, and Dan Beery, speed superintendent, said today that the track could easily be conditioned for fast racing, if the rain stopped by tonight.

It is certain that all efforts will be made to have tomorrow's race program, and Mr. Beery said that the races would start probably at 12:30 and not later than 1 o'clock in order that the crowded program could be taken care of.

DR. HENRY BLACK BURNS APPEARS AT CHAUTAUQUA

(CONTINUED FROM PAGE ONE)

Green's famous concert band will give a concert and musical interpretation of songs in the afternoon and at 8 o'clock tomorrow night, the famous band will give a double concert.

Those in charge of the chautauqua say that Green's band concerts are the best part of the week's program and urge everyone to be sure and attend this famous musical presentation.

The crowds attending the sessions this year have been larger than usual and those in charge are highly pleased over the attendance so far.

LIME IS NOT A FERTILIZER

(CONTINUED FROM PAGE ONE)

applications of 440 pounds per acre on each grain crop of fine limestone gave a total profit of \$13.30. Four applications of 300 pounds hydrated lime per acre on each grain crop gave a total profit of \$6.00. These results answer the question as to whether a 500 pound application on each grain crop of hydrated lime is not and farmers who depend upon that small an application of lime will be disappointed.

"After the land has been thoroughly limed once, 500 pounds per acre each year might keep up the supply of lime but even with this system of liming the Purdue tests indicate that the fine limestone is cheaper and more profitable. These tests indicate that the value of lime and limestone is in proportion to their neutralizing value. Seventy-four pounds of hydrated lime are equal to 100 pounds of fine ground limestone, no more, no less.

"Under Indiana systems of farming it is not desirable to apply small quantities of hydrate lime with the fertilizer attachment on the drill. Some farmers think by doing this that it will take the place of the fertilizer. Small returns are sometimes obtained but in a few years the lack of fertilizer will cause a big reduction in the crops.

"If clover fails, put on about two tons per acre of pulverized limestone. In six or eight years, repeat the limestone application. Use plenty of manure and fertilizer in addition, because lime does not take the place of fertilizer. In fact, on these two experimental fields, fertilizer has given a greater profit on lime land than on unlimed land, and the yields with lime alone without any fertilizer or manure are very small."

Green's famous concert band will give a concert and musical interpretation of songs in the afternoon and at 8 o'clock tomorrow night, the famous band will give a double concert.

Those in charge of the chautauqua say that Green's band concerts are the best part of the week's program and urge everyone to be sure and attend this famous musical presentation.

The crowds attending the sessions this year have been larger than usual and those in charge are highly pleased over the attendance so far.

Get the Habit—Trade at Home, it Pays

in 1924.

The trend in Allen county, our neighbor on the north, followed the same course as Adams county, there being an increase in number of marriages and a decrease in the number of divorces. There were 1,338 marriage licenses granted in Allen county in 1925, compared to 1,312 in 1924. The divorces granted in 1924 numbered 410, compared to 443 in 1924.

It is interesting to note that Lake county led all counties in the state in the number of marriage licenses granted in 1925. There were 5,278 licenses issued during the year, while only 484 divorces were granted. This large number of marriage licenses issued is due to the fact that hundreds of couples from Chicago and other out-state cities and towns come to Crown Point for licenses. This custom, followed by residents of Kentucky, also, made business good for the county clerk at Jeffersonville, in Clark county. A total of 3,095 marriage licenses were issued there, and only 73 divorces were granted.

Marion county, where Indianapolis is located, had 3,879 marriages and 1,367 divorces in 1925, compared to 4,064 marriages and 1,299 divorces in 1924.

High School Issues Booklet

Goshen, Ind., Sept. 1.—(United Press)—A booklet containing announcements for the school year, faculty, calendar and general information has been prepared by High school authorities for use of parents of students here.

WINDS AID CORN BORER INVASION

State Entomologist Believes Strong Winds Help Spread Pest Westward

Indianapolis, Ind., Sept. 1.—(United Press)—A theory that theory that the encroachment of the dread corn borer upon Indiana corn fields is the direct result of strong northeast winds, was advanced today by State Entomologist Frank N. Wallace.

"The strong wind which swept Indiana continuously during the latter part of June and the first of July in my opinion is responsible for the invasion of the borer," Wallace said. "Most of the moths, through which the borer is propagated, I believe came from Canada.

"Due to the direction and force of wind, the pest has now spread as far west as La Grange county."

Wallace has spent the last few weeks in the heart of the infested area which comprises twenty townships in DeKalb, Steubend, Allen, and La Grange counties.

He soon is to take charge of an experimental laboratory to be established by the department of conservation.

The failure to establish any quarantines as yet was explained by the fact that the borer has not been found in sweet corn or in any early field corn ready for shipment.

MOOSE TO HOLD STATE MEETING

(CONTINUED FROM PAGE ONE)

aged persons, six miles west of Fort Wayne on the Lincoln highway.

Mayor to Give Welcome

The convolve will open Thursday morning, October 28, with the registration and informal reception of the visitors. In the afternoon the delegates will be formally welcomed by Mayor William C. Goake, of Fort Wayne, a representative of the Chamber of Commerce and other civic leaders. The evening of the first day will be devoted to a banquet and the initiation of a class of 300 new members by the Fort Wayne lodge. It is on this occasion that Secretary of Labor Davis, who is national director general of the order, will be the principal speaker.

The first business session of the convention will be held Friday morning, October 29, at which time reports of committees and other routine matters will be disposed of. All sessions will take place in the Moose auditorium, Webster and Wayne streets. Convention headquarters will be at the Anthony hotel.

Dedication of Heart-haven will take place at 2 o'clock in the afternoon. James L. Watson, senior United States senator from Indiana, is scheduled to make the dedication, adding to the present plans. If Senator Watson is unable to be present on that day he will speak at one of the other sessions.

The outstanding social event of the state gathering will be a banquet and dance Friday evening. The dinner will be served at the Anthony and dancing will take place in the Moose auditorium.

BRIAND DEFENDS NATIONS LEAGUE

(CONTINUED FROM PAGE ONE)

it to themselves to demonstrate very clearly their solidarity and service to this task by defending at any cost the future of the League.

As for me, I declare emphatically that the defense of the League is the defense of peace itself. I have firmly decided to place at its service the best of my intelligence and of my strength. I look on the road we have travelled and find in the results acquired reasons for confidence and faith. I am leaving Paris more than ever filled with the sentiments which always have guided me on the way to Geneva.

I do not hide from myself the difficulties of the obstacles which remain to be surmounted in order to complete and vivify the work begun at Locarno. I know that certain criticism will not be lacking. I am well aware that peace cannot be made a reality without unpleasant experiences. But the object obtained is well worth the try and I see that a great majority of the peoples of the world look with sympathy toward the League. They are guided by their own interests. I know how far I can count on the aid of the most tried and true members of the League.
