Work Of Purdue Is Far-Reaching

Lafayette, Ind. Sept. 2.—(United
Press.)—The work of Purdue univer-
sity reaches to every corner of the
globe, it is indicated by requests for
university publications and for infor-
mation on subjects related to engineer-
ing and agriculture.

A check on requests for engineer-
ing bulletins showed that information
was sought by engineers in Bombay,
India, Rome, London, Birmingham
and Heliopolis, Egypt.

An official of Melbourne, Australia
and the American Institute of Agri-
culture at Rome also asked for in-
formation.

Long Winded Orators Overcome 200 Children

Sapporo, Japan, (United Press)—
Great excitement has been aroused
here by alleged cruelty on the part of
orators who, insisting that 9,000 pupils
stand in a blazing sun for several
hours while they spoke at inauguration
ceremonies of the Sapporo Branch of
the Japan Red Cross Society, caused
the collapse of more than 200 of the
children who subsequently required
medical aid.

FLAVOR

--what a wonderful difference it makes

IT is the flavor—more than anything else—that makes you
like or dislike certain dishes. It is the thing that makes
them good indifferent or excellent.

FLAVOR sharpens your appetite, makes you enjoy living.
Without flavor your daily bread is just a "filler," and yet
there is no more delicate, universally popular flavor than that
of a well made—a really good—loaf of bread.

TAKE DOUBLE DUTY BREAD—it became the popular loaf
almost overnight—and what did it? Why, the FLAVOR—
more so than anything else. That wonderful flavor that every-
body likes and no one can describe. The wholesome, warm,
pure flavor that only the purest and richest ingredients—gener-
ously used by expert bakers can put into a loaf of bread.

THAT'S why we say "Double Duty Bread is your biggest
Bread value"—you really get more for your money—ask
for it by name.
