### Keep Eliminative System Active

Good Health Requires Good Elimination

ONE can't feel well when there is  
a retention of poisonous waste  
in the blood. This is called a toxic  
condition, and is apt to make one  
tired, dull and languid. Other symptoms  
are sometimes toxic backaches and  
headaches. That the kidneys are  
not functioning properly is often  
shown by scanty or burning passage  
of secretions. Many people have  
learned the value of Doan's Pills, a  
stimulant diuretic, when the kidneys  
seem functionally inactive. Everywhere  
one finds enthusiastic Doan's  
users. Ask your neighbor!

An unusual and vivid photoplay of a wronged woman's vengeful search for the man who had humiliated her.
