DODGE BROTHERS 1926 PRODUCTION

Dodge Brothers, Inc., last year to dealers 331,764 passenger cars and trucks, making 1926 the biggest year in its history. The gain over 1925, which was the company's best previous year, is 27.6 per cent. The 1926 record is remarkable as it surpasses the huge output of 259,967 cars and trucks in 1925 by 71,797 units and was made without the sales impetus which many companies gain from the frequent introduction of new models. Dodge Brothers, Inc., rate of growth last year was nearly nine times as rapid as that of the Automotive industry as a whole, which made a production gain of only 3.3 per cent over 1925. Figures compiled by the National Automobile Chamber of Commerce for 1926 place production of all automobile manufacturers at 4,489,000 cars and trucks.

Graham Brothers, the truck division of Dodge Brothers, Inc., also made a striking showing with a gain over 1925 of 55.7 per cent in sales to dealers. The rate of gain was approximately eight times as fast as that of the entire truck industry last year. National Automobile Chamber of Commerce figures show that the output for the whole truck industry was 7 per cent larger in 1926 than in 1925. Total sales of Graham Brothers trucks and motor coaches to dealers in 1926 amounted to 37,463 units. Combined sales of Dodge Brothers commercial cars and Graham Brothers trucks to dealers last year totaled 67,293 units, an increase of 32.7 per cent over sales of 50,713 vehicles in 1925.

Despite factory production and shipments by Dodge Brothers, Inc., of a record number of passenger cars and trucks in 1926, stocks in dealers' hands and in transit December 31 were substantially smaller than at the close of the previous year.—It.
