PLANS MADE TO FURTHER SCOUT WORK IN COUNTY

(CONTINUED FROM PAGE ONE)

several years until now about five hundred out of the six hundred and fifty-three councils are of the Area type.

In making a survey of the Scout troops in the U. S. which are independent, (not under council) records show that the length of the life of the troop is just one and one half years, while the troops which are organized and supervised with the community behind the movement are permanent, making it better for the boys and for the scoutmaster and also for the church, school, lodge or organization which sponsors it.

Scouting is growing in the United States. Just seventeen years ago, scouting was first organized in America and the 8th of February, which is the birthday, will mark the highest membership of over 800,000. There are more than twenty-five thousand troops and more than fifty thousand scoutmasters and assistants, while there are fewer than eight hundred paid men in the whole movement, making it the cheapest boys organization in existence.

The Boy Scout program is built around the Scout pledge which the boy takes and lives up to: "On my honor I will do my best to do my duty to God and my country and to obey the Scout laws; to help other people at all times; to keep myself physically strong, mentally awake and morally straight."

The helping others at all times has made the "good turn" famous, until

THE BEST REMEDY KNOWN FOR PILES

No Failure in 6 Years. Thousands of Cases. Quick Results.

Thousands of people suffering long and seriously with piles have been quickly relieved without the bother of salves or suppositories by a wonderful new treatment in tablet form, which taken with a swallow of water three times a day brings relief in 24 hours in many cases and in every case very soon after, according to users. A whole bottle of these harmless, chocolate-coated pills costs only sixty cents at The Enterprise Drug Co., or any good drug store and treatment internally and removal of the cause means real lasting relief.

Doctors endorse the internal treatment of piles for permanent results. Colac Pile Pills are made in the World's largest Laboratory of finest ingredients. Specialists endorse Colac Pile Pills and one should get and use them at once if suffering with piles, or send 60c in stamps, check or money order to Colac Chemical Co., Inc., Brentwood, Md., for bottle in plain wrapper, return mail.

today not only Scouts but millions of other boys are doing things for others without expecting pay. The program is character building and citizenship training and is promoted through the act of teaching boys to do things for themselves.

During the past seventeen years a large number of different people have seen the benefits to be derived from the Scout program and have contributed to the boyhood by starting a troop in Decatur but the troops were usually short-lived, ending with the retiring of the scoutmaster.

At present there is one good thriving Scout troop with Bryce Thomas as scoutmaster and another being organized. Mr. E. H. Justice, the national representative, says Mr. Thomas ranks above the average as a scoutmaster and the community is fortunate to have such a man giving so much service to the boys, but asked the committee what would happen if he should decide to leave with no one trained to take his place.

A few men of the community met together last week and had a conference with Mr. Justice, one of the national fieldmen for the Boy Scout movement, and planned for the meeting held last night.

About twenty-five men of the community, representing every phase of the activities and industries, were interviewed and a large proportion of them were present at the meeting last night.

The plans for the Area council were presented and gone over carefully and found to be logical and sound and the group of men formed themselves into an organization committee and will give the whole county an opportunity to have the benefit of the Scout program.

The men selected for the organization committee are as follows: E. W. Lankenau, Martin F. Worthman, Cal Peterson, Chas. Vogeleweide, C. C. Pamphrey, Oscar Lankenau, Dr. Burt Mangold, Arthur Hyland, France Conter, John Tyndall, Herman Myers, Dr. Frank Lose, Joe Lose, Arthur Holthousen, Wm. Linn, Herman Yager, Raymond Harting, I. A. Bernstein, Deo Fryback, Dr. L. E. Somers, Clark Lutz, Judge J. C. Sutton, Rev. H. W. Thompson, Rev. A. R. Fledderpohann and Father Hesson.

arrangements have been made to continue the meeting at the Auditorium. Mr. Hilton will explain the reading of simple and extended pedigrees, as well as give considerable information as to the blood lines of the dairy breeds high producers. He will have several pedigrees on hand to demonstrate the lessons he wishes to bring out. Roy L. Price, tester for the Adams County Cow Testing Association, is arranging the meeting.

tention to the herd bull, since the use of a poor sire will lower the quality of a herd more in two years than it can be built up in ten years. As a result, a number of dairymen have asked Purdue for help, that they may learn the high producing blood lines as well as learn more about how to judge bulls by their appearance.

Everyone interested is invited to attend the sessions. Although planned by Mr. Price, the attendance is not limited to Association members. The work is planned for the good of the dairy industry of the county.

Bust Of Franklin Gets Place In Hall Of Fame

New York (United Press)—A bust of Benjamin Franklin will be unveiled in the colonnade of the Hall of Fame at New York University May 5. It is the work of the sculptor, Robert I. Aitken and the gift of the Pennsylvania Society of New York.

Benjamin Franklin was elected to the Hall of Fame at the first election in 1900. The bronze tablet in his memory was installed in the colonnade in 1901.
