On Wednesday evening at six o'clock, the Presbyterian minister and his family enjoyed one of Decatur's famous pot luck suppers. The members of the manse must have had a lean and hungry look judging from the amount and variety of the good things to eat which were carried in. Their plates were so burdened with food, they were ashamed until they discovered the rest of the good Presbyterian's plates matched equally. With the good feeling which existed during the social hour, followed with a prayer service, it made all know—that we're livin' for each other, in a friendly sort of way.

The Kirkland Ladies Club met at the Kirkland high school Tuesday afternoon. A very interesting program was given. The speakers of the afternoon were Mrs. Gaddis, of Purdue, Mrs. C. V. Milliken, Mrs. C. M. Busche. Henschen, Mrs. John Kirchner, Mrs. Rex Andrews, Mrs. C. V. Milliken, Lula Gaddis, C. M. Busche. The next meeting will be held April 28. The first lesson on advanced millinery will be given.

There's seems t' be somethin' about knowledge that disqualifies a feller for any sort o' real usefulness. This mornin' Pony Moppis said, "Well, Friday's Slimee New Year," an' he hain't worked a lick for years. An optimist is a feller that lets his wife know his life's insured.

FORD REPORTED BETTER TODAY

Detroit, Mich., Mar. 31—(United Press)—Physicians attending Henry Ford, victim of a "hit and run" auto driver, reported their wealthy patient making "good progress" early this afternoon at the Ford hospital here.
At the same time officials investigating the accident which sent the world's richest man to a hospital cot with an injured chest and severely cut and bruised admitted their progress was "slow" and were not yet ready to make a definite statement that the accident was the result of an attempt on the motor magnate's life.

During the noon hour Dr. R. D. McClure, chief surgeon of the Ford hospital, issued the following bulletin: "Progress continues satisfactory. While Mr. Ford is still in considerable distress, there are no signs of complications. Temperature, pulse and respiration are normal."

Watch Elimination!
Good Health Depends Upon Good Elimination.
RETENTION of bodily waste in the blood is called a "toxic condition." This often gives rise to a dull, languid feeling and, sometimes, toxic backaches and headaches. That the kidneys are not functioning properly is often shown by burning or scanty passage of secretions. Thousands have learned to assist their kidneys by drinking plenty of pure water and the occasional use of a stimulant diuretic. 50,000 users give Doan's signed endorsement. Ask your neighbor!
