Fruchte and Litterer, Attys. Sept. 7-11

#### Graham Brothers

#### Get Big Orders

#### For New Trucks

Unfilled Orders Now at Sub-

stantially Highest Point This

Year—Plants are Running at

Capacity—Shipments to the

Dealers Being Speeded.

Unfilled orders for Graham Brothers trucks since the company introduced its new line of 1 1/2, 1 1/2 and 2-ton units August 28 are substantially greater than at any time this year, according to an official announcement. All Graham Brothers plants are running at full capacity and shipments to dealers are going forward as fast as possible, the statement says.

Headed by a six cylinder 2-ton truck with four-speed transmission and four-wheel Lockhead hydraulic brakes, the new line has met with enthusiastic response from truck buyers throughout the country, orders show. The six cylinder truck is particularly powerful and fast, the four-speed transmission making possible moderate engine speeds even at relatively high road speeds with consequent gasoline economy and longer life. The engine in these trucks is unusually rugged in construction with a seven-bearing crankshaft, machined all over and weighing 65 pounds with heavy duty transmission. These trucks are equipped with air cleaner, oil strainer and oil filter and gasoline filter. Marked advances in power and economy of fuel consumption are said to result from the new hot-spot manifold and unique combustion chamber design. The 1 1/2 ton model, equipped with the new four cylinder engine introduced this summer also shows a number of improvements calculated to increase its strength, speed and utility. This model embodies four-wheel brakes, four-speed transmission and heavier front and rear axles as the 2-ton model.

On the 1-ton and 3/4-ton models important changes include the adoption of cam and lever steering gear for easier control and heavier front axles for greater strength. Eight-ply tires are now furnished on the one ton model instead of the six-ply formerly standard equipment.

The four cylinder engine has a heavy five-main bearing crankshaft, hot-spot manifold and unique combustion chambers which combine to produce smooth running, fast acceleration and economical production of power.

A number of improvements have been made in the cabs of all models to increase comfort. Cushions are air bound to minimize any bouncing effect. A one-piece windshield has been adopted and the front of the cab top lowered. All models are fitted with cowl ventilators, rear view mirror and automatic windshield wiper. A complete line of bodies for every major vocation, designed to function as units with the various chassis and built in Graham Brothers own plants, serve practically every trucking need.

The new line of trucks is sold in the United States by 4500 Dodge Brothers dealers who also maintain adequate stocks of repair parts immediately available to the user and well equipped shops manned by expert mechanics. This assures a minimum of delay when adjustment or maintenance work is needed.

Detour now open to the Big Square Dance Wednesday night at SunSet.

## JUNIOR BAND TO CLOSE ITS SEASON

The Junior Band will present its last open air concert of the season Thursday evening, at 7:30 o'clock, on Liberty Way. The public is invited to attend the concert and show their appreciation to the young musicians for their entertainment.

Eight members of the band will make their farewell appearance with the band tomorrow night, as they will leave soon to enroll in colleges and universities. The names of those eight young people and the school they will attend are Arthur Suttles, Purdue; Cedric Voglewede, Milwaukee; Gordon Teeters, Graydon Dixon and Robert Fowler, University of Cincinnati; Mildred Worthman and Lyle Mallonee, Muncie Normal; Harold Kwick, Butler.

## INCREASE MADE IN COUNTY TAX RATE FOR 1928

(CONTINUED FROM PAGE ONE)

calls for \$149,482.

#### Council Cut The Budget

From an estimate of \$160,307, the county council pruned about \$11,000 from the budget and cut the proposed tax rate for the county general fund from .337 to .303 on the hundred dollars.

The council also cut the proposed highway levy from .267 to .214.

#### Valuation Is Lower

The net taxable valuation for next year on which the tax rates were figured was \$36,433,490, as compared with \$39,600,000 this year.

The county council fixed and the tax rates before adjourning last evening and met again this morning to approve their action and sign the ordinances. The rates fixed by the council will be collected in the taxes next year.

#### Township Road Rates

The county council fixed the proposed levies for the township free gravel road bond and interest levies, the rates fixed creating sufficient funds in the twelve townships to pay the bond and interest payments for roads. The rates follow:

Township Rate on \$100

Union ..... .62

Root ..... .46

Preble ..... .53

Kirkland ..... .48

Washington ..... .43

St. Marys ..... .47

Blue Creek ..... .60

Monroe ..... .55

French ..... .51

Hartford ..... .51

Wabash ..... .53

Jefferson ..... .60

#### Six Members Present

Six members of the county council attended the meeting, August Conrad, being excused on account of illness. The members who attended the meeting were M. Kirsch, president of the board, Henry Eiting, Henry Dehner, William Baumgartner, James Kinney, Chris Eicher.

#### Extra Appropriations Made

The county council, at the session yesterday, also made extra appropriations of \$6,153 for the several items and funds which had used up the amount of money available this year. These appropriations come out of the general fund and were not included in the budgets for next year or taken into consideration in making the tax rates.

#### Get Gasoline Tax

In addition to the \$77,967 raised by taxation for the county highway repair fund, the county will receive, it is estimated, about \$35,000, from the gas tax next year. This tax will be placed in the county highway repair fund, giving the department approximately \$113,000 to keep the county road system in repair and to purchase the equipment necessary to do the work.

#### COURT HOUSE

#### Suit For Accounting

A suit for an accounting and for cancellation of an oil lease was filed in the circuit court today by Samantha E. Young, against the Paul Schulte Oil and Gas, Inc. The plaintiff alleges that she leased her land to the defendants in 1925, with the agreement that she was to receive one-eighth of all oil produced from wells on the lease. She alleges further that the defendants drilled a well on the lease and have produced a large amount of oil therefrom, but she has failed to receive payment for her share. She demands judgment for \$75 and cancellation of the lease. The lease is located in Blue Creek township, Attorney H. M. DeVoss, of Decatur, is counsel for the plaintiff.

#### NOTICE

Detour now open to the Big Square Dance Wednesday night at SunSet.

## CITY TAX RATE IS FIXED AT 71 CENTS FOR 1928

(CONTINUED FROM PAGE ONE)

ed, stated that the crown of the street was not properly made, that the sides thereof were not rolled properly and that heavy traffic of horse drawn vehicles should not be permitted to travel over the street. The matter was referred to the street and sewer committee. Heavy traffic will more than likely be prohibited on the street, until it becomes sufficiently hardened.

No objections were filed against the preliminary assessments on the Russell street improvement. The assessment roll was adopted and the assessments turned over to the city treasurer for collection.
