Ocean City, N. J., Has \$4,000,000 Fire Loss

Ocean City, N. J., Oct. 12.—(UP)—An area eight blocks square was a smoldering mass of debris today after one of the most disastrous fires in local history.

Thirty buildings were razed causing a loss of approximately \$4,000,000. The fire started at 7 pm, and lasted five hours.

The fire is believed to have been started by someone who threw a lighted match into a pile of rubbish under the boardwalk.

Hyacinths and Tulip Bulbs Now Here. Cheaper than ever known before.

Divorce Seeker Says Wife Humiliated Him

Peru, Ind., Oct. 12.—(INS)—Intense humiliation at having his wife refer in public, to her "unsuccessful" husband, and at hearing himself characterized as a "complete failure" is alleged in the complaint of Ray S. Figt, in court here, as the reason he seeks a divorce.

His wife's disposition was aimable while he was successful and the money was rolling in, but when he began to suffer reverses she termed him "without business ability" the petition, directed against Della V. Figt, alleges. Figt seeks a complete divorce.

General Jose Alvarez, chief of the Mexican presidential staff, who declares that revolting Mexican soldiers have been deceived by their chieftains.

Finds Human Skeleton Measuring Eight Feet

Glasgo, Ky., Oct. 12.—(UP)—The strange story of how four men found an 8 foot skeleton of a man in a recess of a cavern is vouched for here by friends of the quartet, who say they have no reason to doubt the integrity of those concerned.

John Nelson and his three sons were exploring Harlan Cave when they came upon the skeleton, over eight feet long according to Nelson.

Nelson said he believed it was an Indian's bones. Arrow flints and trinkets were found about the body.

Old Indians living in this vicinity said it was the custom of the tribes to bury medicine men and chiefs alone. They believe the skeleton that of some great man of an ancient tribe.

Dedicate Wright Field On Wednesday

Dayton, O., Oct. 12.—(UP)—Near the site of the first flying field in the world, Wright Field will be dedicated tomorrow as a monument to the progress of aviation.

Secretary of War Dwight Davis and Assistant Secretary F. T. Davison will assist in dedicating the field to the honor of the Wright family.

The tract of land on which Orville and Wilbur Wright pioneered in the science of flying with heavier than air machines is near the present site of Wright Field, the largest aviation center in the United States.

The field is a gift of the citizens of Dayton to the government. It was presented in the cause of aviation some years ago and recognition from the government came in a letter of thanks from President Coolidge.

Frederick B. Patterson, president of the National Cash-Register Company, headed the campaign in which citizens raised \$400,000 for the field. On acquisition of the land the government immediately began equipping it and now over a million dollars has been expended and more than \$2,000,000 will be expended in the near future.

A special feature of the dedication will be an aeronautical exhibition in the laboratories of the material division, showing the latest developments in airplanes, airships, engines, instruments, armaments and materials.

Wells County Litter Weighs 2,948 Pounds

Bluffton, Oct. 12.—Earl Rudy, a graduate of the Bluffton high school with the class of 1927, a son of Ed Rudy, south of Bluffton, yesterday set a new county record for ton litters of pigs, when a litter of 14 a cross between Durocs and Big Type Poles, were weighed and tipped the scales at 2,948 pounds.

The previous high record for the county was held by Grant Martin of Liberty township, who had a litter of 12 pigs in 1925, that weighed 2,795 pounds.

Earl Rudy last year fed a litter that made the record of 251 pounds each. Ed Rudy had a litter of 13 weighed yesterday of the same type fed by his son, which weighed 2,679 pounds.

Another ton litter weighed Monday was a litter of ten Chester Whites belonging to Harry Summers, which weighed 1,908 pounds.

Senators Sell Pitcher

Washington, Oct. 12.—(United Press) Hollis Thurston, righthand pitcher, who won 13 games and lost 12 for the Washington Senators this year, has been sold to the San Francisco Seals. He came here from the White Sox in the deal that sent Roger Peckinpaugh to Chicago.

NO REPORT FROM MISS ELDER AND HALDEMAN TODAY

(CONTINUED FROM PAGE ONE)

heading a little northward to the French coast.

The plane was sighted by the steamship American Banker at latitude 41 north, longitude 65.04 west at 10:30 p. m. yesterday. Flying conditions, the ship reported, were ideal. The plane was flying at 80 degrees from true north—roughly east-northeast.

Since then the plane would have sped along at roughly 100 miles an hour on its 4,000-mile flight—3,600 of them over water.

The plane was in the middle of the main streamer lane, to which it had stuck between the time it passed Ambrose Light, off the New York coast, and the time the American Banker reported seeing it 350 miles east of the light and about 560 miles from Roosevelt Field, the starting point.

Pilot George Haldeaman's choice of a route far south of that taken by other trans-Atlantic aviators was due to persistent bad weather at this time of year further north.

As the American Girl approaches Europe tonight, it will probably encounter fog and drizzling rain. From then until its landing time Thursday forenoon, the plane may be fighting unfavorable conditions, principally bad visibility.

The American Girl carried 520 gallons of gasoline and 20 gallons of oil. Its cruising radius was estimated at from 4,400 to 4,800 miles.

The monoplane weighed 5,680 pounds at the start. It was equipped with three compasses—earth inductor, aperiodic and magnetic. Haldeaman expected to rely almost entirely on the earth inductor.

Both of the fliers carried a rubber suit in which, it was said, they would be able to remain afloat for 72 hours. Each suit has apparatus in the hood by which breath could be condensed into water.

The plane also carried Beret pistols and flares.

The American Girl is equipped with a Wright Whirlwind motor.

Miss Elder is a southern girl of more than ordinary beauty. Her life until two years ago was a prosaic as the average. Born and reared at Anniston, Ala., she went with her parents to Lakeland, Fla., when in high school. She finished her high school work there, then worked for a while as stenographer and after that as a dentist's assistant.

She has been married twice. Her husband is Lyle Womack, a salesman of Lakeland. She asked that her maiden name be used in connection with the flight because she didn't want people to start talking about a married woman flying to Europe instead of working in the home.

Until two years ago Miss Elder knew very little about aviation. George Haldeaman taught her to pilot a plane.

When Lindbergh flew to Paris Miss Elder resolved to be the first woman to make the same flight. She interested some business men in Wheeling, W. Va., and then she sounded out Haldeaman.

"Oh, I'm happy, happy, happy," she said over and over as she danced about and waited for the start yesterday.

CLEAN KIDNEYS BY DRINKING LOTS OF WATER

Take Salts to Flush Kidneys if Bladder Bothers or Back Hurts

Eating too much rich food may produce kidney trouble in some form, says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders.

As mascot, she took with her a toy pet, "Felix the Cat," and a Chinese lucky ring. She had also a Bible from her mother.

Revolution Deteriorates Into Posse-Like Hunting

Mexico City, Oct. 12.—(UP)—Mexico's abortive revolution today deteriorated to posse-like hunting of small fugitive groups—a failure because its leaders had only their personal ambition to offer the country—President Calles declared in a statement to American newspaper correspondents.

Calles disclosed that he long had known of plans for a revolt.

He said the rebels had set two previous dates for their revolt—September 15 and 27—before finally General Hector Alameda of the Mexico City garrison precipitated the rebellion by marching out of the capital with a portion of his men.

That was on October 2, and on that day, Calles said, he was to have attended maneuvers conducted by troops of which the rebels formed a part. Alameda, he said, had pressed him to attend, presumably to be assassinated.
