## Higher Shoe Prices Follow Advance In Hides And Leather

Boston, Mass., Jan. 7.—Higher shoe prices as a result of rising prices of hides and leather were predicted by the New England Shoe and Leather association in a statement tonight asserting that prices of leather used in the manufacture of shoes have increased approximately 35 per cent in the last twelve months. The statement added:

"Just how long this situation will continue it is impossible to predict, but in the face of these largely augmented prices manufacturers will find it necessary to get an advance commensurate with the advance in raw materials, and it would appear that retailers throughout the United States would have to get a corresponding advance."

The association attributed the rise in prices of materials to a falling off in the general supply of hides and calf-skins accompanied by an increase in demand in European and other countries.

## If It Is Printed Chinese Save It

Shanghai —(UP)—The Chinese reverence for the printed word is profound. Throughout the International Settlement are thousands of small wooden boxes or cloth bags attached to poles. Foreigners generally ignore these receptacles for refuse but not so with the Chinese. It is no uncommon sight to see respectable, well-dressed Chinese pick up bits of paper from the street and place them in the receptacles. This is especially true of old newspapers or any paper on which words are printed. As a result of this the streets of the Settlement are remarkably free from waste paper.

tion declined to allow Mr. Busche to draw \$100 more per year, if necessary, to make up a deficiency in mileage, just previous to his offer from Madison county. The Madison county board furnishes \$600 per year to assist in defraying automobile expenses, while Adams county furnishes \$360 per year. In addition, a substantially larger salary is paid in Madison county.

Mr. Busche said today, "I feel it is the duty of the people of each county to decide upon the amount they can afford to pay for county agent work. I hope that every Adams county citizen who can help in any way, will assist in furthering the extension work under the leadership of my successor. My resignation takes effect as soon as a successor can be appointed and approved by the county board of education."

When the Madison county people asked T. A. Coleman, who is in charge of county agent work in Indiana, where an experienced man might be found, Mr. Coleman recommended Mr. Busche for the job. Mr. Busche will move his family to Anderson as soon as he assumes his new duties. At present, he resides on a farm just east of Monroe.
