Prizes Offered For  
Fire Prevention And  
Fire Protection Essays

Indianapolis, Ind., Jan. 19. — Cash prizes amounting to \$1,700 will be awarded to the pupils of Indiana elementary schools, who write the winning essays on fire prevention and fire protection in a contest which opens February 1 and closes February 21, according to the announcement of Alfred Hogsten, state fire marshal. Any child in the seventh or eighth grade of a public, parochial or private school is eligible to enter the contest. There are 28 prizes; the lowest being \$25 and the highest \$100. "How to Prevent Fires in the Community" is the subject on which the contestants must write in order to have their essays given consideration. All essays must be in the hands of the county contest chairman before midnight of February 21.

In each congressional district, two prizes, \$50 and \$25 are being offered for the two best essays. County contest chairmen must deliver the essays sent to them to the district contest chairman before midnight March 7. The two essays winning the first district prizes must be sent to the office of the Indiana State Fire Marshal Department before midnight March 14.

The winners of the two state prizes will be announced March 28. The first state prize is \$100; the second state prize is \$50. The winning essays will be published in the Indiana Fire Prevention Quarterly official organ of the State Fire Marshal department. Contestants are asked to limit their essays to 500 words and write on only one side of their paper with pen and ink or typewriter. Each essay will be graded as follows: 75 per cent on treatment of subject and 25 per cent on English used.

DRUGS EXCITE  
THE KIDNEYS,  
DRINK WATER

Take Salts at First Sign of  
Bladder Irritation or  
Backache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

Powder Gourd Made In  
1720 To Be Shown At  
Clark Exhibition In 1929

Petersburg, Ind., Jan. 19.—(UP)—A powder gourd made in 1720, believed to be the oldest in the United States will be exhibited at Vincennes, Ind., at the George Rogers Clark Exhibition in 1929.

Along with the gourd was found an old hand-made rifle, 25 bore, the barrel of which is four feet long. The relics were found by Thomas W. Grubb, among the belongings of his father, the late David Grubb, who

died several weeks ago. The gourd which has the figures "1720" inscribed on it, made for carrying powder or caps was used in the early pioneer days by David Grubb's father, Valentine Grubb, who with his wife, was among the first to file homestead claims in Indiana. They made their home at Vincennes. The weapons were presented to Valentine by his father-in-law, David

Schultze, a gun-maker. The gourd has a flax stopper and will hold half a gill of powder. Cork stoppers had not yet been introduced in those days and flax had to be used.

Mrs. Charles Dugan is spending several days as the guest of her daughter, Mrs. Pierre Goodrich and family in Indianapolis.
