NON-RESIDENCE NOTICE

In the Adams Circuit Court.
February Term, 1928.
No. 13020

State of Indiana, Adams County SS. Bank of Geneva, a Corporation, vs. William A. Lower, Donna L. Lower, Lewis A. Graham, Leona Graham, Clement L. Walters, Grace E. Walters, First National Bank, of Decatur, Indiana, Susan Pontius.

BE IT KNOWN, That on the 6th day of February, 1928, the above named plaintiff by Whitaker and Mills, Attorneys, filed in the Office of the Clerk of the Adams Circuit Court, of Adams County, Indiana, its complaint against the defendants in the above entitled cause to quiet title to the following described real estate situated in Adams County, State of Indiana, to-wit: The West Half of the Southwest Quarter of Section Thirty-six (36), Township Twenty-five (25), North Range Thirty-two (32) East, containing Eighty (80) Acres, more or less, together with the affidavit of a competent person that the defendant, Susan Pontius, is not a resident of the state of Indiana.

Said above named defendant, Susan Pontius, therefore is hereby notified of the filing and pendency of said complaint against her and that unless she appear and answer or demur thereto at the calling of said cause, on 3 o'clock the 9th day of April, 1928, at the Court House, in Decatur, Indiana, said complaint and the matters and things therein contained, and alleged will be taken as true, and said cause will be heard and determined in her absence.

In Witness Whereof, I hereunto set my hand and affix the seal of said court, at Decatur, Indiana, this 6th day of February, 1928.

John E. Nelson
Clerk, Adams Circuit Court
Whitaker and Mills,
Attorneys for Plaintiff.

Sage Tea Turns Gray Hair Dark

By SHIRLEY BLAKE

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture. You can get this famous old recipe, improved by the addition of other ingredients, for only 75 cents, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of young hair.

Everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

CORN STALKS

TO BE UTILIZED

Factory For Making Silk Fiber From Stalks To Open In Illinois

Danville, Ills., Feb. 14. — (INS) — The little man from Hungary, whose invention and discoveries is to weave the shreds of cornstalks, hitherto left in the fields to rot, in Rayon silk fiber and six or seven other valuable articles of wear, was in Danville today to witness the realization of his life's dream.

He is Dr. Bela Dornier, of Budapest, Hungary, head of the Hungarian department of agriculture and the man who is to give the American farmer an extra five dollars for every acre of corn that he raises. It is estimated that this amount of corn stalks will be gathered from that amount of land. To many farmers this means the paying of the taxes.

The Danville plant is the first in the world to work this miracle of the cornfields. The plant was remodeled out of the plant of the St. Louis Car company. Four thousand tons of baled stalks, piled 30 feet high over an area of several acres and overshadowing the 500 foot row of factory buildings, are awaiting the start of operations. Shredders, vats, mechanical "digesters" and dry machinery are being installed.

No unexpected problems having developed save for a period of unsatisfactory weather for the stalk harvest, plans now call for a start of the new industry some time in March. Dr. Dornier has approved the program of starting operations with a small pilot mill before setting all the expensive machinery, so that the relative efficiency of the several types of equipment may be tested before the 25-ton daily production schedule is established.

Accompanying Dr. Dornier, from New York are Frank K. Gardner, general manager of the Cornstalk Products company; Dr. John E. Jackson, research consultant, of New York who has applied his specialized knowledge of the Rayon industry to turning Dornier pulp into artificial silk, and Dr. Alfred Nemet, retired chief of the division of publications of the Hungarian government. He is Dr. Dornier's inseparable friend.

Mrs. Roy Gaunt, of Huntington, is confined to the home of her parents Mr. and Mrs. T. D. Kern, North Seventh street, with a severe case of haemolytic jaundice. Mrs. Gaunt is very seriously ill.
