R. C. A. STOCK GOES UP HIGHER

New York, March 21—(INS)—Millions of dollars were added to the staggering losses of the "bears" in Wall street today when Radio Corporation of America shot up seven points to 162, the highest point that stock has reached, and General Motors moved upward two points to 175, a record high for all time for that stock.

The seven-point advance in radio this morning increased the value of the 1,155,000 shares of outstanding stock \$8,085,000. Today's jump followed an eighteen-point rise in radio yesterday.

"Bulls" in "the street" are making a clean-up, in no way better shown than by the steady advance of General Motors, a standard investment stock. When the bull movement started on March 3, General Motors was selling around 140. This thirty-five point advance in less than three weeks has added \$609,000,000 to the market value of the 17,400,000 shares of outstanding General Motor stock.
