After providing for the payment of 7% dividends to the stockholders and also providing for sinking and other reserve funds the Company earned a SURPLUS for the year of \$28,046,355, equivalent to more than 5 1/2% on the capital stock.

The successful achievement in financial results of the past year, in spite of the reduced volume of business, was made possible by large capital expenditures to improve and expand the railroad's plant and facilities; by operating economies and efficiency, and by increased vigilance and cooperation on the part of officers and employees. Not the least satisfactory feature of the year's experience was the cordiality of relationship between the Management and employees.
