Inside the ring was a slip of paper labeled "A bit of information." Upon opening these slips the guests were surprised to find that they were guests at an announcement party, for the paper read "Florence and Dick, April 28." Miss Biggs was then showered with congratulations and wishes for happiness. The dinner was served by Misses Bernice Closs and Gretchen Winans. tion was filed and approved by the council. The service corporation will pay all the expense of putting the street back to its original condition. Washington, —(U.P.)—Citizens living near the Jefferson Consolidated school building here turned in a general alarm which gave both city fire-trucks a workout recently. "Old Sol" shining down on the roof of the building made it appear as if flames were leaping from the building.

IRISH FLIER IS NEARING QUEBEC

Montreal, April 18—(U.P.)—Making his way slowly towards civilization, while his German companions wait in the frozen north, Major James Fitzmaurice, Irish flier, was expected today to fly from Clarke City to Murray Bay.

Awaiting him there was pretty Fraulein Herta Junkers, daughter of the designer of the Bremen which made the first east to west air trip across the Atlantic. Fraulein Junkers expected to consult with Fitzmaurice as to further relief measures for Baron Von Huenefeld and Capt. Hermann Koehl still stranded on Greenly Island while an impatient America held in abeyance its homage to the brave.

Fitzmaurice with Duke Schiller flew yesterday from Natashquan to Clarke City, Que., not far from Murray Bay. In decent weather, they could have negotiated not alone Murray Bay but even Quebec or Montreal. But Quebec is still in the grip of winter, so their journey was interrupted, and they proposed to start again this forenoon on their slow return to civilization.

Fraulein Junkers left her plane here, and went by train to the out of the way corner of the northland. It was reported she, Schiller and Fitzmaurice would probably go on from Murray Bay to Quebec, meantime mapping out what is to be done about getting the two Teuton fliers away from icebound Greenly Island.

Fraulein Junkers revealed that her landing in Montreal from New York had not been perfect and that the propeller had been strained.

There was just a hint that her plane might be flown to Greenly Island, but this decision rested with what Fitzmaurice and Schiller say. The other alternatives are to leave the Bremen as it is, and get the Germans out otherwise; or to ship her and the Junkers propeller back to them so that they may fly out.

Legion To Conduct "Get Out The Vote" Campaign

Indianapolis, Ind., April 20—Every American Legion post in Indiana was asked to conduct in the coming primary a vigorous "Get Out The Vote" campaign, in a communication sent to all post commanders and adjutants by Frank M. McHale, of Logansport, State Commander. The Legion will urge every good citizen to familiarize himself with the candidates for the several public offices, with the issues involved and then to go to the polls on May eight and vote.

The Legion posts were urged by State Commander McHale to supplement individual effort to get out all votes by newspaper advertising and speakers in the community. It is also planned that the week prior to the primary election post members will be organized by voting precincts with those volunteering automobiles assigned to precincts most scattered. The Legionnaires will canvas the precinct to urge every citizen to vote, regardless of political faith or individual candidates.

Stomach Gas Made Heart Action Poor

Indigestion and Weak Kidneys Made Life Miserable. Now Well.

There is good news for victims of indigestion, kidney pains and rheumatism in the recovery of health made by Jerry Nash, well-known farmer, Route 5, Elkhart, Ind. He tells about it, as follows:

"For four years, my health has been so poor that I should not have tried to work at all. Everything I tried to eat seemed to sour and cause intense pain. I would bloat so with gas that I felt I was smothering, and my heart would act so irregular I often fainted away. I was constipated, bilious and dizzy. My back ached fearfully, and between kidney disturbance and the smothering spells, sleep was almost impossible. I feel very grateful to Vienna for bringing me out of all this trouble. From the first bottle I have never had a smothering spell or poor heart action. My kidneys soon began working fine, the back-ache is all gone, and I am rid of constipation and biliousness. I am getting the best sleep I have had for years, and, best of all, I am eating hearty meals without a trace of gas or indigestion. If anyone wants to know a real remedy for troubles like I had, let them ask me and I will gladly tell them about Vienna."

Vienna acts promptly on sluggish bowels, lazy liver and weak kidneys. It purifies the blood, clears the skin, restores appetite and digestion, and brings new strength and energy to the whole body. Take a bottle on trial. Then if you're not glad you tried Vienna, your money will be refunded. \$1 at druggists or mailed postpaid by Iceland Medicine Co., Indianapolis, Ind.
