CHARLES MAKLEY GETS 10-21 YEAR TERM IN PRISON

(CONTINUED FROM PAGE ONE)
steadfastly denies having a part in the Linn Grove robbery.

Wheatley and his wife have entered pleas of not guilty to the charge of robbing the Linn Grove bank. It is probable that they will be turned over to Federal authorities next week to be arraigned on a federal charge in connection with the theft of an automobile used in bank robberies.

When arraigned in court earlier this week, Makley asked for more time in which to enter a plea to the charge of robbery, saying that he wanted to help his sister-in-law out of trouble. After learning that the charge against her was to be dismissed, he expressed a willingness to plead guilty to the charge today. After being sentenced, the court asked him if he wished to make any statement, and he replied in the negative.

Faith Must Be Certainty

We cannot live on probabilities. The faith in which we can live bravely and die in peace must be a certainty, so far as it professes to be a faith at all, or it is nothing.—Froude.

Bluegill And Bass Are Still Spawning

Bluegills and bass are still spawning in the lakes of northern Indiana and fishing there is not so good as in the streams of southern Indiana, according to reports from hundreds of fishermen who took advantage of the open season for game fishing which started June 16.

The late spring and unusually cold waters of the lakes is responsible for the late spawning this spring, according to George N. Mannfeld, superintendent of the fish and game division of the state conservation department, who, who asks that those fishing the northern lakes should be careful not to disturb fish on nests. Fish will not bite so readily as a rule when spawning, other than to attack the artificial or live bait thrown directly over them, which they take for an enemy. The result is some fishermen when they find a bass on a nest will cast near it and in trying to protect its nest, the fish is hooked. If fishermen will remember that each parent fish represents thousands of young he would not molest or destroy the nests, then Indiana waters will be replete with fish life.
