Politiken, that the Italia never should have started for the north pole, because Gen. Umberto Nobile, its commander, lacked arctic experience. Nobile, Jacken said, had been warned not to start.

Included in Freuchen's criticism was the fear that the disaster which overtook the Italia might hurt the future of arctic exploration by airship.

OBREGON AGAIN  
WINS ELECTION

By Gesford F. Fine,  
UP Staff Correspondent

Mexico City, July 2.—(U.P.)—Alvaro Obregon, one armed war hero, again has been elected to the presidency of Mexico.

Four years ago—after serving one term as head of the government—Obregon turned over control of the Mexican state to his successor, President Calles. But Obregon's influence has been felt ever since.

He has been close to the Mexican government and his aides have been popular in affairs of the national congress. The Obregon bloc in congress has been in control of affairs for years with Col. Ricardo Topete, deputy from Sonora, the chief aide of the former president. Topete is 29 years old.

The election in which Obregon was unopposed for the presidency, also resulted in the election of 290 deputies and 29 senators. The exact vote and complete returns will not be known for several days, but it was assumed Obregon would retain control of congress.

Intense Heat Blamed For  
18 Deaths In New York

New York, July 2.—(INS)—Intense heat, and the efforts of week-end throngs to avoid it, were blamed today for the death of eighteen persons in and about greater New York.

Thirteen perished by drowning and four were killed in automobile accidents.

One man, John Cudrack of East Canaan, Conn., died in Fordham hospital of heat prostration.

About 2,000,000 persons joined in an exodus from the city by train, auto and boat.

National Debt Stands  
At \$17,604,000,000 Today

Washington, July 2.—(U.P.)—The national public debt stood at \$17,604,000,000 today, the opening of a new government fiscal year, according to a formal announcement by Secretary of Treasury Mellon.

The public debt was reduced by \$900,000,000 during the last 12 months and a greater part of the treasury surplus of \$38,000,000 was used for debt retirement on June 30, Mellon said.

Ordinary government receipts amounted to \$4,042,000,000 during the year, a slight decrease compared with 1927 collections and expenditures were \$3,644,000,000, representing a slight increase.

Mellon said the financial position of the government shows "further improvement" and pointed out that during an 18 month period ending September 15, 1928, the treasury will have retired or refunded more than \$5,000,000,000 of Liberty Bonds into securities bearing a lower interest rate.

National Air Tourists  
Leave St. Louis Today

St. Louis, Mo., July 2.—(U.P.)—The twenty-five planes of the national air tour took off at one minute intervals today, starting at 9 a. m., for Springfield, Mo., the first stage of the second lap of their journey.

The planes will spend only a short time in Springfield, continuing to Wichita, Kas., where they will spend the night.

The planes landed here Saturday afternoon. Each made the flight from Detroit, with a stopover at Indianapolis with a perfect score.

PRINCETON, IND.,  
ENJOYING BOOM

Princeton, Ind., July 2.—(U.P.)—The Heinz Packing company and the Southern railway shops here are definitely putting this rapidly progressing southern Indiana town on the industrial map of the world, according to Victor Green, formerly of the Indiana Bureau of Business Research.

The famous rose gardens of Princeton are also giving this little Gibson county seat a national reputation for flower production, he said.

Green estimated that 1,500,000 roses are raised and sold at the gardens each season. Millions of bottles of catsup and chili sauce, he said are put up at the Heinz Packing company and there are hundred of trains in which to haul these products.

These three objects, Green believes, have definitely set down a life work for the majority of Princeton residents.

Approximately 600 of the city's 10,000 population are employed at the Southern shops. The families and those attracted by the number working at the shops bring the number of direct dependents on the shop work to 5,000.

The St. Louis-Louisville division trains of the Southern lines are kept in repair at the Southern shops, and the farmers can always dispose of their crops to the Heinz Packing company which employs 300 of the population.

Juan-Les-Pines, France, July 2.—(INS)—

The career of Avery Hopwood, 44,

noted American playwright and producer,

Hopwood was seized with a cramp

He went swimming with a party of friends an hour or two after partaking of a heavy dinner. In the darkness, he became separated from the rest of the party. When it became

evident that he was in distress, life-guards tried to save him but he went down the last time before they reached him.

Funeral arrangements have not yet been announced.
